HENRY SCHEIN®
MEDICAL

Rely on Us™

A note from our Senior Director, Ambulatory Surgery Center Division

Dear Valued Customer,

Running a successful surgery center comes with unique challenges—balancing exceptional patient care, operational efficiency, cost management, and regulatory compliance, all while staying ahead of industry trends. At Henry Schein, we're here to help.

With over 90 years of experience in non-acute medical distribution, we provide everything your ASC needs, from medical-surgical supplies and equipment to laboratory products and pharmaceuticals. Our Surgical Field Sales Consultants specialize in delivering solutions tailored to your goals:
- Improve patient outcomes with high-quality, innovative products
- Streamline operations with tools and strategies to boost efficiency
- Reduce costs and waste while increasing revenue
- Stay compliant with access to essential clinical and operational resources

We know how critical reliability and flexibility are to your fast-paced environment. Our distribution model is designed to meet your needs with same- or next-day delivery, low unit-of-measure options, low minimum orders, and five-day-a-week service to keep your ASC running seamlessly.

Partner with us to overcome challenges and unlock your center's full potential.

Jeff Kremer

CRASH CART AUTO-REPLENISHMENT
powered by OnTraq

Crash cart management simplified

Tracking expiration dates and reordering crash cart supplies
can be a cumbersome task that is subject to compliance risk.
To overcome this challenge, the OnTraq Crash Cart Auto-Replenishment
service ensures that enrolled emergency medications are tracked and
automatically replaced just prior to expiration to maximize shelf life,
save money and ensure readiness.

Medication and auto-replenishment service overview

- Provide HealthFirst with a list of medications to be enrolled
- OnTraq notifies you when a medication is expiring and is ready for replenishment
- HealthFirst ships you the expiring medication to replenish your crash cart
- Use the OnTraq online dashboard to view the status of medications at any time

Medications and equipment in low units of measure

- Extensive list of emergency medications available
- HealthFirst is licensed and uniquely qualified to repackage, distribute and track single unit medications
- Medication disposal service included

DSCSA compliant single dose medication distribution

Individual DSCSA Compliant Vial

- QR Code
- RFID
- NDC/Lot Number/Expiration
- No outer packaging to open to access medication

OnTraq
POWERING CRASH CART AUTO-REPLENISHMENT

Simplify compliance across facilities with HealthFirst and OnTraq

OnTraq is an online compliance and account management tool. It allows you to view or print each cart's medications, expiration dates, lot numbers, national drug backorder status, and your upcoming medication replenishment shipments. OnTraq is included with the Crash Cart Auto-Replenishment service.

Stay prepared for audits. Tracking and managing compliance across multiple healthcare facilities no longer has to be a time-intensive, manual process. The OnTraq dashboard provides a bird's eye view of the compliance status across all sites within an organization. A single color-coded view displays the status of the crash cart's emergency medications.

Drill down by facility level or compliance area

Deeper insights and details are just a click away. Select a specific site, a specific cart, or compliance area (such as medications status) to see more details.

Easy reporting and task management

Local facility managers can use OnTraq to set up tasks for team members and receive alerts when those tasks are left undone. Summary reports show performance by task, employee and due date.

HealthFirst.

CRITERION® Latex Surgical Gloves

CRITERION

Sterile Latex Surgical Gloves

Advanced polymer coating on the inner surface for easy donning when hands are wet, damp, or dry. Microtextured surface and optimized tack level provide excellent grip in all conditions. Supersoft latex film and anatomical design provide exceptional comfort to reduce hand fatigue, even during long procedures. Minimum cuff length of 275mm for extended coverage and protection. Beaded cuff. 6.3-mil thickness at the palm. White.

Gloves..50 pair/box

Specify:

5½	(570-2102)	7½	(570-2106)
6	(570-2103)	8	(570-2107)
6½	(570-2104)	8½	(570-2108)
7	(570-2105)	9	(570-2109)

CRITERION® CR Polychloroprene Surgical Gloves

CRITERION

Sterile Polychloroprene Surgical Gloves Features an anatomically correct design for a more natural fit. Polymer-coating finishes that allow for damp- or dry-hand donning. Textured fingers and palms for enhanced grip and control. Ultralow modulus for enhanced comfort and reduced hand fatigue. Minimum cuff length of 300mm for extended coverage and protection. Beaded cuff to reduce the risk of glove roll-down once worn. Ideal for surgical procedures. 5.91-mil thickness at palm. Sterile. Natural color.

Gloves..50 pair/box

Specify:

5½	(112-7079)	7½	(112-7083)
6	(112-7080)	8	(112-7085)
6½	(112-7081)	8½	(112-7086)

Revolutionizing vascular healthcare with affordable, high-quality devices

Delivering innovative vascular medical devices, with a special emphasis on Outpatient and Ambulatory Surgery Centers (OBL/ASCs).

Falexpand HP PTA Balloon Catheter

High-Pressure with RBP up to 24atm 0.035" OTW, 6F, Dia:3-12mm, BL: 20-200mm, CL: 40cm, 75cm, and 135cm

High-pressure and semi-compliance PTA balloon catheters with soft and tapered tips for better lesion crossing with hydrophilic coating and small profiles for challenging stenosis

Falspeed Semi-Compliance PTA Balloon Catheter

Semi-compliance with Dia: 2.0 to 7.0mm, BL: 20 to 300mm, CL: 150cm (OTW), Tip Crossing: 0.0225", 4F to 6F, NP: 6atm
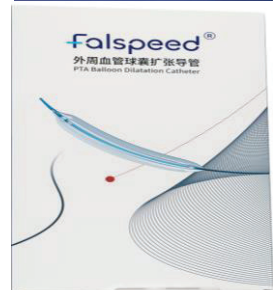

014" Workhorse Guidewire (300cm)

Distal 40cm high-load Nitinol for fast recovery with Stainless Steel body for predictable tracking.
Shapable tip design with 0.8g & 1.5g tip weight options; moderate support

018", 032", and 035" Workhorse Guidewire

Nitinol core wire guarantees great tip shape resistance, outstanding kink resistance and 1:1 torque control
Straight, Angled, and Shapeable tips, Standard and Stiff shaft
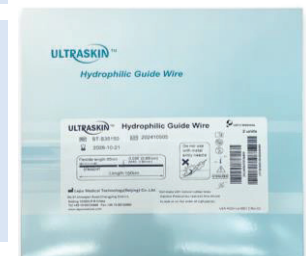

Balancing Quality & Affordability

A Global Leader in Vascular Access Devices

URSA
Angiographic Catheter

Indicated for delivering radiopaque media to the selected vascular system

• Catheter OD: 4F, 5F, 6F with 73 different tip shapes
• 3-layer, 16 wires braiding composite catheter shaft design

AutoSeal
Hemostasis Valve Kit

Indicated for maintaining a seal around interventional device and prevent back bleeding

• Seal pressure 500 psi
• One hand Auto seal operation
• Dual seals to prevent leak
• Max bore size 0.100" (2.54mm)

EXTesia
Introducer Sheath Set

Indicated to placing a catheter through skin into a vein or artery

• Sheath set consists of a sheath, a dilator, an entry needle or IV catheter, guidewire, flushing syringe and scalpel
• Selections of 4-7F sheaths, 2 types of guide wires in 5 different sizes, 2 types cannulation tools (IV catheter & needle)

VELA
RX Balloon Dilatation Catheter

Indicated for dilating stenoses in peripheral including femoral, popliteal, infra popliteal and renal arteries

• Balloon OD 1.5 – 4.0mm with length 10,20,30, 40mm
• A 0.014" guide wire rapid exchange (RX) catheter system
• Balloon nominal pressure at 6 atmospheres & RBP at 20 atm

NAVAJO
PTA Balloon Catheter

Indicated for dilating stenoses in iliac, femoral, ilio-femoral, popliteal, infra popliteal, and renal arteries

• Balloon Sizes: Balloon OD 5 – 10 mm with length 40,60, 80mm
• A 0.035" guide wire, over-the-wire (OTW) catheter system
• Balloon nominal pressure at 6 atmospheres & RBP at 16 atm

XCESS
Guiding Catheter

Indicated for intravascular introduction of interventional/diagnostic devices into the coronary or peripheral vascular system

• Catheter OD: 5 and 6F with 53 different tip shapes
• A 3-layer composite structure with inner PTFE lubricious layer, metallic wire braiding and various polymer elastomers outer layers

ChloraPrep™ Patient Preoperative Skin Preparation with Sterile Solution™
BD

- Sterile solution: Patented sterilization process of the antiseptic solution achieves a minimum sterility assurance level (SAL) of 10-6
- Sterile delivery: The sterile, single-use applicator facilitates aseptic touchless technique by moving the clinician's hand away from the patient's skin, helping to reduce the risk of extrinsic contamination
- Proven efficacy: The FDA-approved dual antiseptic of 2% chlorhexidine gluconate (CHG) + 70% isopropyl alcohol (IPA) kills bacteria more effectively than single agents, providing both immediate and persistent activity
- Preoperative indication: The only CHG and IPA skin antiseptic to offer 2-log reduction for dry sites, and 3-log reduction for wet sites, on its entire portfolio

SOLVENTUM, FORMERLY 3M HEALTHCARE

3M™ Steri-Drape™ (1015)
47" (120cm)
51" (130cm)

- Provides a sterile barrier to prevent fluid strike-through and help reduce risk of contamination
- Reliable and secure adhesive
- Polyethylene film is transparent and conformable for easy positioning and draping, helping to save time
- Matte finish reduces glare from drape surface during procedure

(777-1502)...10/box
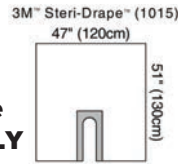

Steri-Strip™ Compound
SOLVENTUM, FORMERLY 3M HEALTHCARE

Benzoin Tincture
Alcohol solution of compound benzoin that may be used to increase adhesion of 3M™ Steri-Strip skin closures to skin. Sterile tray packaging allows for aseptic delivery.

⅔-cc Vial
(777-4516)...40/box

Surgical Clipper with Pivoting Head
SOLVENTUM, FORMERLY 3M HEALTHCARE

- Conforms to contours of patient's body
- Adjustable head allows clipping with pull or push motion
- Single-use blades reduce risk of cross contamination

#9660
(139-2747)...50/box

Steri-Strip™ Skin Closures
SOLVENTUM, FORMERLY 3M HEALTHCARE

Sterile
Uses a pressure-sensitive, hypoallergenic adhesive. Adhesive style is breathable, made of microporous adhesive, and reinforced with filaments for added strength. It is appropriate for low-tension wounds. Contains iodophor: ideal for use when additional antimicrobial activity is desired.

- Less scarring, enhanced patient comfort, and less chance of infection than with sutures or staples
- Fast application
- Reduces likelihood of skin irritation
- Use to close lacerations, surgical incisions, and following early suture/staple removal
- Provides wound support and assists in increasing tensile strength of wound

#R1541, ¼" x 3"
(777-6538)... 150/box
Contains: 3 strips per envelope, 50 envelopes per box.

#R1542, ¼" x 1½"
(777-0843)... 300/box

Floseal Hemostatic Matrix
BAXTER ADVANCED SURGERY
Fast-acting, effective adjunct hemostatic agent that performs consistently, regardless of the patient's coagulation status. All-in-one package with human thrombin and prefilled sodium chloride syringe allow for easy preparation.

5 mL Syringes
(146-7315)...6 per Case

10 mL Syringes
(146-7316)...6 per Case

Disposable, Curved Applicators
(146-7206)... 10 per Pkg.

13cm Malleable Applicator Tips
(146-8066)... 6 per Case

PERCLOT Absorbable Hemostatic Powder
BAXTER ADVANCED SURGERY
Sterile
Provides superior absorption and adhesive strength for use in open and minimally invasive surgical procedures across a broad variety of surgical specialties. Composed of absorbable polysaccharides and derived 100% from purified plant starch, eliminating the potential risk of disease transmission and developing hypersensitivities to human or animal component-derived products.

3-gm Powder Bellows with 9-cm Standard Tips

Henry Schein Brand Surgical Instruments

Since 1932, Henry Schein has offered an extensive range of products and solutions to optimize your practice and deliver the best care for your patients. Our surgical instruments portfolio is **high quality** and **competitively priced**, available in two grades, and tailored for a broad spectrum of specialties and procedures.

To help you maintain proper infection prevention protocols, we also provide cleaning and care solutions including instrument sterilization and reprocessing. Our ProRepair service includes manufacturer-trained technicians and highly skilled customer service representatives committed to providing quality repair services with a stress-free experience, with complete warranties backed by Henry Schein.

Our available surgical instrument grades include:

- **Maxima® by Henry Schein** – Premium surgical-grade instruments expertly crafted from German Stainless Steel* to conform to rigid specifications and standards that ensure our instruments consistently meet and exceed the high quality and performance expectations of our valued customers. Designed for your general practice needs as well as your more specialized surgical needs, such as **ambulatory surgery centers**, **plastic surgery** and **dermatology practices**.

- **Henry Schein Brand** – High-quality stainless steel instruments, designed for your medical practice/office use. Manufactured in ISO 13485 certified factories, unconditionally guaranteed against defects in quality or craftsmanship.

Disposable Vaginal Speculum

HENRY SCHEIN®

- Recommended for routine gynecological exams
- Allows examination of vaginal mucosa at a 360° angle without rotation
- Provides wide range of adjustability (angular and elevation adjustments)
- One-handed manipulation for ease of operation
- Self-holding in various opening positions
- Decreases risk of contamination
- If needed, apply lubrication for better comfort during examination
- Made of hard, clear, nontoxic, high-strength plastic resin

Disposable Vaginal Speculum—Light Source Compatible

HENRY SCHEIN®

- Disposable specula made of high-strength, clear, nontoxic plastic
- Allows examination of the vaginal mucosa at 360° angle without rotation
- Provides wide range of adjustability (angular and elevation adjustments), ease of operation and manipulation with one hand
- Self-holding in various opening positions
- Single use of speculum decreases the risk of cross contamination
- Compatible with corded light source of leading brands, eliminating the need for positioning a light source independently

California customers please use website when ordering for Prop 65 information.

MAXIZYME® Multi-Enzymatic Detergent
HENRY SCHEIN®

Improved multienzymatic detergent that cleans fast in manual, ultrasonic, and automatic cleaning systems. Low-foaming formula rapidly dissolves and carries away organic soils, including blood, protein, tissue, and more. Its corrosion-inhibiting, pH-neutral formula is safe for instruments and equipment, extending the useful life of instruments. Concentrated and economical, each 1-gallon bottle yields 128 gallons of solution. Clean, fresh scent.

(570-3275)..Gal.

MAXIZYME® Tabs
HENRY SCHEIN®

Enzyme cleaning tablets for ultrasonic cleaning, evacuation system cleaning, and instrument presoak. 2 tablets dissolve easily in 1 gallon of warm tap water. Easy to use; requires less storage space.
- Enzyme cleaning tablets
- Contain protease enzymes that break down hard-to-clean deposits such as blood, bone, and food particles that chemical detergents leave behind
- A single cleaner with 2 uses: ultrasonic and evacuation systems
- Gentle on instruments: nontoxic, neutral pH, biodegradable, and noncorrosive formula that contains no chlorine or harsh alkalines to damage expensive stainless steel instruments
- Refreshing minty scent
- Easy to store

(900-0475).. 64/box

MaxiTabs®
HENRY SCHEIN®

General Purpose Cleaner
Provide safe and effective cleaning properties in multiple cleaning cycles throughout the day. Does not leave a residue on instruments or inside tank. One tablet makes 1 gallon of solution; 1 box makes 32 gallons.
- Provide safe and effective cleaning properties in multiple cleaning cycles throughout the day
- Do not leave a residue on instruments or inside tank
- 1 tablet makes 1 gallon of solution

(900-4088)...32/box

Ultrasonic Cleaning Solutions
HENRY SCHEIN®

General Purpose Cleaner
- Nonammoniated concentrate
- Dilute 1:10 for use
- Effectively cleans items such as dried blood, bone, tissue, oxide compounds, and more
- Removes ions from instrument's surface to enhance effectiveness of ultrasonic cleaning unit

1-gal Bottle
(100-3836)..ea

Tartar and Stain Remover
- Used in a beaker in an ultrasonic unit to remove tartar and stains from dentures
- Ready to use, so it's easy and convenient
- Potent stain remover eliminates stains on dentures, crowns, and bridges

(100-4263)..ea

Temporary Cement and Stone Remover
- Ready-to-use formula
- Strong, fast-acting formula removes cement and stone quickly and completely

(100-5168)... ea

Plaster and Stone Remover ◆
(101-3277)... ea

◆ Hazardous material

Super Concentrated Ultrasonic Cleaning Solutions
HENRY SCHEIN®

Fast-acting solutions clean quickly and effectively. Nontoxic and noncorrosive. In small, easy-to-store, 16-oz bottles, which are less expensive to ship, handle, and stock. Metered-dose dispenser top ensures exact dose. To use: loosen cap ½ turn, squeeze to 1-oz mark, and remove cap and pour into glass beaker. Available in 3 formulas.

16-oz Metered Dose Bottles....................................... ea

Specify:
General Purpose Cleaner
(Makes 16 gal) Used for very fast cleaning of blood, mucus, and tissue. **(101-4412)**

Tartar and Stain Remover (Makes 96 oz) Its citric acid formula is noncorrosive and cleans quickly. **(101-0827)**

Enzymatic Cleaning Solution (Makes 16 gal) Effective against blood, tissue, and mucus found on instruments. **(1026472)**

Start with Workflow

1

STEP 1
Receiving + Cleaning

Reusable instruments, supplies and equipment should be received, cleaned and disinfected in one section of the processing environment.

STEP 2
Preparation + Packaging

Cleaned, dried instruments and other supplies should be inspected for residual debris and damage, assembled into sets or trays, and wrapped or packaged for sterilization.

STEP 3
Sterilization

The sterilization area should include the sterilizer and related supplies with adequate space for loading and unloading the sterilizer. Follow the instructions for use (IFU) on cleaning and sterilizing for each instrument.

midmark®

Designing better care.

Follow a dirty-to-clean instrument processing workflow as recommended by the CDC[1] to help contain contamination and maximize the efficiency of your instrument cleaning and sterilizing process.

For more information, visit: henryschein.com/medical

STEP 4
Monitoring/Sterility Assurance

Mechanical, chemical and biological monitoring should be used to ensure the efficacy of the sterilization process. Results of sterilization need to be recorded.

STEP 5
Storage

The storage area should be adequately sized, closed or covered, and located apart from contaminated instruments in an area protected from moisture. Supplies and instruments should not be stored under the sink.

[1] https://www.cdc.gov/infection-control/hcp/disinfection-sterilization/sterilizing-practices.html?CDC_AAref _Val=https://www.cdc.gov/infectioncontrol/guidelines/disinfection/sterilization/sterilizing-practices.html

solventum

The Bowie-Dick revolution begins

3M™ Attest™ eBowie-Dick Test System
Automated, digitized sterilization testing is here. Save time, enhance workflow, boost confidence, and get the reassurance that your sterile processing team is operating at its best. The same testing method you've always trusted, now digital.

- **Definitive:** Get pass/fail results without guesswork or subjective interpretation
- **Efficient:** Removes the burden of paperwork and eliminates manual recordkeeping
- **Innovative:** The FDA created a new category for it

Simplify. Standardize. Streamline.

Aaron® Smoke Shark™ Smoke Evacuator
ASPEN SURGICAL

Designed to be easy to use and is extremely effective at smoke and particle removal at the operative site. While designed for use with all electrosurgical generators, it is also excellent for use in controlling laser smoke.

• Easy to operate
• Quiet and effective smoke evacuation
• Long-life, 18-hour filter
• Low cost per procedure
• Excellent particle capture

#SE02
(119-3868)...ea

Aaron® Surgi-Center|Pro Electrosurgical Generator
ASPEN SURGICAL

The Aaron ® Surgi-Center|Pro is a 200-watt, high-power operating-room generator. The unit incorporates the power and safety of a premium OR generator at a significant savings to the medical facility. The system delivers 12 monopolar and bipolar RF energy modalities to provide a high level of surgical precision.

• Offers pure cut, 4 modes of blend, 3 modes of coagulation, bipolar coagulation, and Bovie FCFS™ technology
• Designed with state-of-the-art safety features
• Backed by a 4-year manufacturer's limited warranty

High-Frequency Desiccator
Ⓗ HENRY SCHEIN®

Designed and engineered to be the most reliable and durable desiccator available today, this unit's life is prolonged by incorporating the latest in chip technology and reducing the number of internal parts, thereby generating less internal heat. Post-procedure and long-term cleanup are simplified by its nonabsorbing, nonstaining, high-impact plastic case.

• 40-watt high-frequency desiccator
• Adjustable in ¹⁄₁₀-watt increments in the first 10 watts, in monopolar and bipolar
• More accurate power with Universal Power Control 100–240-volt AC
• Less to do and less to buy makes this the most cost-effective and user-friendly unit on the market
• This desiccator is a ground reference unit, which means no grounding pad is required
• 4-year warranty

#A942
(570-0583).. ea

Electrosurgical Generator and High-Frequency Desiccator
Ⓗ HENRY SCHEIN®

This electrosurgical generator is a high-frequency desiccator with cutting ability. One half of the unit is the Henry Schein High Frequency Desiccator. The other half is an electrosurgical generator that features 50 watts of cutting power and coag capabilities—plenty of power for most cutting procedures performed in the doctor's office.

• 40-watt high-frequency desiccator
• 2 machines in 1 convenient package
• Adjustable in ¹⁄₁₀-watt increments in the first 10 watts, in monopolar and bipolar
• No grounding pad is required during desiccation mode
• 4-year warranty

MEDICAL EQUIPMENT PLATINUM PROGRAM

ASC EQUIPMENT PLANNING FOR DE NOVO CENTERS

Embark on a collaborative effort with our Capital Equipment Specialists and Surgical Solutions Specialists as they expertly handle every step of your journey. From procurement to installation and training, they work seamlessly to ensure a hassle-free experience for you.

Equipment Recommendations from Pre-op to Post-op and Beyond

Dedicated Capital Equipment Specialists will work closely with you to assess your ASC's equipment needs room by room, offering cost-effective solutions.

Sale

Once you place your equipment order, we'll oversee every detail for a seamless delivery and implementation process.

Install Manager & Lead Install Tech. Introduction

Our lead installers will be on-site throughout your equipment journey, collaborating with contractors, electricians, plumbers, and other stakeholders to ensure a hassle-free setup.

ASC Site Evaluation

Whether building or expanding your ASC, the lead installer will conduct a thorough pre-install site evaluation, identifying potential service requirements to streamline your installation.

Installation

The day has arrived! Our team of experts will assemble and install your equipment and handle packing debris removal and staging, ensuring the utmost care.

Punch List

We will meticulously inspect your new equipment to confirm it meets your expectations and is patient-ready, safeguarding your investment.

Warranty

At Henry Schein Medical, we stand behind our equipment. We guarantee correct installation and uphold manufacturer warranties, providing peace of mind.

Manufacturer Training

We'll assist you in coordinating additional training with manufacturer representatives to maximize the value of your equipment investment.

i-STAT® Handheld System
ABBOTT

Real-time, lab-quality results in minutes—not hours. The i-STAT® Handheld is an advanced, easy-to-use blood analyzer that provides a wide range of tests using just 2 or 3 drops of blood
- Speed: With components of a full-scale lab in each cartridge, results occur in minutes
- Accuracy: A unique combination of biosensors and calibrants deliver high-quality results
- Reliability: Single-use cartridges reduce many of the problems inherent in multi-use systems

#04J60-20, iSTAT Handheld System

Piccolo Xpress® Chemistry Analyzer
ABBOTT

Three steps, 12 minutes. The Piccolo Xpress® chemistry analyzer allows health care practitioners to perform routine multichemistry panels using 0.1 cc—only 3 or 4 drops—of whole blood, serum, or plasma.
- Speed: Add the sample, insert the reagent disc, and in approximately 12 minutes receive a report suitable for the patient file or transferred to a computer, printer, or LIS/EMR.
- Ease: A fully automated system requiring no special operating skills.
- Exclusivity: Offers the only CLIA-waived comprehensive metabolic panel (CMP) blood test on the market.
- Accuracy: Self-calibrates with each run. The onboard continuous intelligent Quality Control (iQCT) monitors the analyzer, reagent reactions, and sample to ensure chemistry and instrument integrity.

Glucose 201 Analyzer
HEMOCUE

The HemoCue Glucose Systems are based on a glucose-dehydrogenase method and consist of a small, dedicated analyzer and a unique, disposable microcuvette. They will produce lab-accurate results for diagnosing or monitoring diabetes, as well as monitoring neonatal blood glucose levels.
• More accurate and 68% higher reimbursement than glucose meters
• FDA-compliant unit when screening and diagnosing
• Analyzer: 0–444 mg/dL (0–24.6 mmol/L)
• Only 5 µL of capillary, venous, or arterial blood is needed
• No inherent limitations related to hematocrit or known drug interferences
• No recalibration needed between cuvette lots
• 3-year warranty

HBA1C TESTING

A1CNow®+ Test
HENRY SCHEIN®

The handheld monitor provides accurate, in-office A1C results, enabling physicans to make on-the-spot treatment decisions for diabetes patients.
• In-office testing: no waiting for lab results
• Results in just 5 minutes
• Hands-on procedure time is less than 1 minute
• Simple, 3-step procedure
• CLIA waived
• No calibration, no daily controls, and no maintenance
• No refrigeration necessary if used within 3 months
• No capital equipment required
• Enables A1C testing in every exam room
(570-3428).. 20/box

DCA™ Vantage Analyzer
SIEMENS

Point-of-care immunoassay analyzer for diabetes management. Provides precise and accurate quantitative test results for HbA1c in whole blood during a patient's visit to help improve decision making. With a single urine sample, the analyzer also provides quantitative test results for low levels of albumin, creatinine, and A:C ratio in the physician's office or clinic.

Ritter® 225 Barrier-Free®
Examination Chair
MIDMARK

The number of elderly and obese in the U.S. is steadily growing, and over one fifth of adults in America are disabled. Assisting patients with mobility limitations onto exam chairs has become a frequently performed task. Although caregivers working in health-care facilities are in one of the most at-risk professions for musculoskeletal disorders, little has been done to evaluate and reduce risk. The Ritter 225 is designed to offer low and high positioning heights so you can provide the best care to all patients, whether treating the elderly, expectant mothers, or patients with disabilities.

626 Barrier-Free®
Examination Chair
MIDMARK

Many health care providers are not aware of current standards for proper blood-pressure measurement. If this isn't addressed, it leaves health systems at serious risk. 9.8% of the population is affected by overestimation of high blood-pressure errors. Multiply the cost of treatment for hypertension by the typical patient panel size and the cost of overtreatment could be as much as $135,000 per each practicing physician. The impact of overmedication can also result in complications such as dizziness, fainting, exhaustion, or even patient falls. The Midmark 626 is the first exam chair of its kind designed to promote proper patient positioning for a more accurate blood-pressure measurement.
• Easily position patients for a better BP measurement
• Powered movement of the back section ensures the patient's back is supported
• A Barrier-Free® low chair-height allows the majority of patients, even female patients with heights in the 3rd percentile, to place their feet flat on the floor

Versa Exam Table
BREWER

The Versa exam table provides the ability to readily and cost-effectively adapt to changing needs. When it comes to care, the Standard model provides a new standard of quality and efficiency for most practices. Easily convert to a pediatric top to safely and effectively care for children from newborns to adolescents.

- Improves the patient experience with a stable platform to support patients of all builds, and supports patient self-positioning
- Easy to connect and a removable upholstery top is available in standard adult and pediatric sizes to meet the changing needs of a facility
- Customizable to choose the options that fit within a budget
- Includes an ergonomically designed pass-through side drawer purposefully positioned at waist height to reduce bending and twisting for caregivers, while providing a generous 3.7 cubic feet of storage space

Connex® Spot Monitor
BAXTER

Features an easy-to-use, vivid touch-screen display and provides accurate vital signs measurement, including blood-pressure averaging, spot checking, interval monitoring and custom scoring across patient populations. Device connects wirelessly to an EMR and accurately sends vitals to the patient chart from the point of care to help improve efficiency.

- Designed for the physician-office environment with an easy-to-use, vivid touch-screen display
- More accurate hypertension diagnosis without slowing down your workflow thanks to automated blood-pressure averaging
- Improved capabilities for assessing respiratory conditions such as COPD, asthma, and community-acquired pneumonia (CAP), thanks to integrated professional-grade pulse oximetry
- Increase staff efficiency and eliminate data-entry errors with wireless transfer of vital signs directly into an EMR

Advantage™ 2200 Fingertip Pulse Oximeter
AMERICAN DIAGNOSTIC CORPORATION

This portable device is perfect for use at home, during sports activities, or in aviation. It offers precise readings with an SpO_2 accuracy of +/-2% and a heart rate accuracy of +/- 5 BPM.
Key features include:

• 2 adjustable display modes
• Bright red LED display
• Compatible with finger thickness of 0.31" to 0.79"
• Includes a carry lanyard and instruction booklet
• Powered by 2 AAA batteries (included)
• 1-year limited warranty

Advantage™ 6021N Automatic Digital Blood Pressure Monitor
AMERICAN DIAGNOSTIC CORPORATION

This fully automatic upper-arm digital blood-pressure monitor is designed for home use. It measures systolic and diastolic pressure as well as pulse. Equipped with Smart Logic Modulation (SLM) technology, it ensures a gentle inflation process for optimal comfort and accuracy. The monitor features a self-adjusting, extended-range non-latex D-bar cuff that fits arms from 8.7" to 16.5".
Key features:

• Automatic inflation and deflation control
• Irregular heartbeat detector
• Stores the last 99 readings with date and time stamp for 2 users
• Automatic shut-off function
• Made without natural rubber latex
• Includes 4 AA batteries
• 5-year warranty

(122-6355)...ea

Advantage™ 6015N Digital Wrist Blood Pressure Monitor
AMERICAN DIAGNOSTIC CORPORATION

Featuring Smart Logic™ technology and advanced memory capabilities, this monitor measures systolic and diastolic pressure as well as pulse. The Smart Logic™ technology determines the ideal inflation level.
Key features:

• Pressure accuracy: +/- 3 mm Hg
• Pulse range: 40–200 BPM
• Stores the last 99 readings for 2 users
• Wrist cuff fits sizes from 5.3" to 7.7"
• Automatic shut-off feature
• Made without natural rubber latex
• Includes 2 AAA batteries and a compact storage case
• 5-year warranty

HEM-907XL Intellisense® Professional Digital Blood Pressure Monitor and Accessories
OMRON

The most recent advancement in digital, noninvasive blood-pressure monitors. Engineered for accuracy, precision, and clinical effectiveness, it is mobile, easy to use, time-saving, and versatile. Developed specially for professional use in a clinical setting, including physician's office, hospitals, or other point-of-care environments.

- Automatic inflation level setting with IntelliSense® allows for automatic cuff inflation, eliminating the need to preset inflation levels
- Average mode measures up to 3 readings and averages the total, according to current blood pressure, for a more accurate measurement
- Large, easy-to-read display
- Auto cuff pressure control for manual (auscultatory) measurement
- Quiet operation eliminates unnecessary patient anxiety and clinical noise
- Quick-and-easy one-button operation

IQVitals® Zone™ Vital Signs Wireless Monitor
MIDMARK

The only wireless vital signs monitor that automatically connects to a computer using zero clicks, importing data directly into the EMR to eliminate manual transcription errors. Using Midmark Zone™ technology, the IQVitals wireless monitor connects to a computer without cables or manual pairing. The Serenity BP™ linear deflation system, designed by Midmark, delivers quick and accurate measurements while ensuring greater comfort for the patient. All functions can be operated at the point of care via the computer or the user-friendly touchscreen. Each IQVitals Zone device includes an Exergen TemporalScanner™ thermometer.

Key features:
- Rechargeable lithium-ion battery
- Non-invasive oscillometric blood pressure method
- Exergen TemporalScanner infrared thermometer
- Masimo or Nellcor Sp0$_2$ measurement options
- 3 mounting options to suit any workflow

ePM 10A Configured Patient Monitor
MINDRAY

Exceptional user interface and enhanced parameter functionality, delivering a monitoring solution to fit multiple care environments. Immediate and measurable benefits of the smartphone-like user interface that delivers 98% of all common monitoring functions with just 2 gestures, reducing time clinicians spend navigating monitor functions, and more time on what matters most: patient care. Advanced monitoring options include 3- and 5-lead ECG, SpO2, NIBP, respiration, and temperature supporting multiple clinical workflows. ePM 10A has a compact, ergonomic design that is perfectly suited for healthcare facilities managing a steady flow of patients daily. Add optional CO2 capability to aid clinicians to identify signs of patient deterioration due to respiratory distress. Manufactured with industry-leading plastics that stand up to the most stringent medical-grade cleaners. The concealed grab-and-go handle eliminates hard-to-clean crevices and eases clinical workflow while on the move. Flexible mounting options for bedside and transport.

- Dimensions: 10.6" x 9.9" x 6.3"

SedLine® Brain Function Monitoring & O3® Regional Oximetry

Available together on the Root® platform

Providing a more complete picture of the brain through an instantly interpretable and adaptable display:

> SedLine helps clinicians monitor the state of the brain under anesthesia with an enhanced signal processing engine and four leads of bilateral EEG.

> O3 helps clinicians monitor cerebral oxygenation in situations where pulse oximetry alone may not be fully indicative of the oxygen in the brain.

TOPICAL SKIN ADHESIVE - OCTYL **NEW!**
High-Strength 2-Octyl Cyanarculate Formulation

Advantages

Rapid set time

Flexibility without a plasticizer

Ergonomic ampule designed for ease of handling and targeted application

Provides an effective microbial barrier and water-resistant protection

High tensile strength

Unique formulation will not solidify in ampule, allowing all .5 ml to be used

Gravity fed applicator delivery system - no need to squeeze ampule

Glass-free reservoir containing 0.5mL of Topical Skin Adhesive

Rigid sleeve helps prevent bending of applicator during adhesive application

Angled applicator tip changes color in the presence of adhesive

Perforation in the middle, allowing ease of adhesive flow

Additional Information

Polymerization starts when adhesive comes in contact with tissue or fluid.

All 0.5 ml of adhesive can be used on the patient, as adhesive will not solidify in the ampule.

Topical Skin Adhesive will remain attached to the skin surface until natural cellular regeneration occurs (approx. 5-7 days). If needed, any standard adhesive remover product may be used to release the adhesive from the skin. Peel off the film, do not pull the skin apart.

Henry Schein® Topical Skin Adhesive - Octyl
0.5mL ampules, 12/box..**(570-3554)**

Rely on Us™

Surgical Sutures
From A Name You Can Trust.

Maxima® Sutures by Henry Schein®

RACETRACK FEATURES AND BENEFITS

POLYLITH CARD
Helps reduce moisture content, an advantage with absorbable suture materials that degrade by hydrolysis.

NEEDLE PARK
Two needle parks to accommodate a wide range of needle types, sizes, and double-arm sutures. Needle park also protects needles from damage.

LARGER DIAMETER
Larger overall diameter to ensure less suture memory and minimize the number of suture rotations around track.

PRESS-PUSH NEEDLE LIFT
The tab, when pressed from behind, lifts for easy needle removal.

- Silicone-coated 300 series stainless needles give finer point geometry for superior penetration
- Precision needles are strong enough to resist bending, yet ductile enough to resist breaking
- Racetrack packaging helps reduce material memory as the suture is released from the track
- Large breadth of suture and needle combination for a range of surgeries
- Significant cost savings for your clinic compared to the leading brand

HENRY SCHEIN® *Maxima*™ PTFE SURGICAL SUTURES

- Maxima PTFE (polytetrafluoroethylene) sutures are an excellent choice for dental bone grafting and implant procedures.
- Proprietary monofilament construction reduces the potential for bacterial migration into the surgical site.
- Ultrasoft, high-density material is designed with a low surface porosity.
- Black premium needles are made from 300-series stainless steel.

Disposable Skin Stapler
HENRY SCHEIN®
- Enables the user to work with higher efficiency and assists in avoiding cross infection effectively
- Specially designed for surgical skin suturing
- Novel structure and application security allow for quick speed when sewing up during operation, modest histological reaction, and good wound-matching and healing
- No pain during removal
- Scarring is minimal

Wound Closure Strips

HENRY SCHEIN®

Includes top-quality, high-grade materials in a variety of sizes of all of your wound-closure needs.

- Adhesive wound closures with an exceptionally porous, spun-bond fiber backing include bilateral nylon filaments for high tensile strength
- Each size is in a color-coded package for quick and easy size identification
- Hypoallergenic: Designed for patient comfort and longer-term exposure
- Porous: Allows breathing for advanced healing and moisture control
- Not made with natural rubber latex

⅛" x 3"
(900-4317)...250/box
Contains: 5 strips per envelope, 50 envelopes per box.

3M Medical Securement Solutions

Drive efficiency in your clinical practice and reduce tape SKUs.

A choice that's critical to care. At Solventum, formerly 3M Health Care, we've made it easy to choose the right securement for each patient and application, with four classes of securement that can work harder and smarter.

Non-adhesive

3M™ Coban™ NL Non-Latex Self-Adherent Wrap†
Non-adhesive securement for clinical applications such as blood draws, dressings, immobilization, securement for difficult to dress areas (head, fingers, toes) and support, and mild compression for soft tissue injuries (i.e. strains, sprains).*

Multi-purpose

3M™ Micropore™ S Surgical Tape†
Multi-purpose securement for clinical applications such as blood draws, light-weight dressings, IV lines and tubing (secondary securement), and non-critical tubes.

Flexible

3M™ Medipore™ H Soft Cloth Surgical Tape
Flexible securement for clinical application such as dressing and added pressure, IV lines and tubing (secondary securement), when swelling or movement is anticipated, central venous catheters (secondary securement), chest tubes, and surgical drain tubes.

High-adhesion

3M™ Durapore™ Surgical Tape
High-strength securement for clinical applications such as urinary catheters, nasogastric tubes, orogastric tubes, and patient positioning.

Contact your Henry Schein representative or visit 3M.com/MedicalSecurement to learn more.

†Skin performance: Designates products that deliver the securement power you need while minimizing damage to skin.
*May use as a component in a compression wrap system support only under supervision of a wound care specialist.

3M™ Fibracol™ Plus Collagen Wound Dressing
SOLVENTUM, FORMERLY 3M HEALTHCARE

A sterile, soft, absorbent, and conformable topical wound dressing. Its unique combination of natural biopolymers are created by a process that combines the structural support of collagen and the gel-forming properties of alginates. Indicated for the management of exuding wounds, including full-thickness and partial-thickness wounds, pressure injuries, venous ulcers, ulcers caused by mixed vascular etiologies, diabetic ulcers, second-degree burns, donor sites, and other bleeding surface wounds, abrasions, traumatic wounds healing by secondary intention, and dehisced surgical incisions.

Puracyn® Plus Wound Irrigation Solution
INNOVACYN

Provides an advanced alternative to commerical wound cleansers that may inhibit wound closure. When used in conjunction with wound irrigation, debridement, and dressing procedures, this pH-balanced solution sets the stage for optimal healing conditions. Indicated for use by health-care professionals for cleansing, irrigating, moistening, and debriding acute and chronic dermal lesions that are partial or full-thickness wounds.

Premium Non-Woven Sponges
HENRY SCHEIN®

Non-sterile, 4 Ply
- General-use, non-woven rayon/polyester-blend material
- Quarter-fold design
- Less linting: minimizes lint contamination
- Soft and pliable: prevents irritation to mucosa
- Greater absorbency: reduces number of sponges required
- Closed weave
- Not made with natural rubber latex

HENRY SCHEIN® BRAND PRODUCTS

HENRY SCHEIN PRIVATE BRAND:
Quality Products, Affordable Prices and Outstanding Service.

Why choose Henry Schein Brand?

The products you use in your health care facility have to be of the highest quality, whether it's reliable tools you use for a procedure or supplies that prevent the spread of infection. But because you're running a business, the price of those products is always a factor when you're making a purchasing decision.

That's why we're proud to offer products with the Henry Schein Brand that improve both the patient experience and your bottom line. And we stand by our products with the outstanding quality that customers have known for more than 85 years.

Medical & Surgical
Henry Schein Brand features a wide selection of medical and surgical supplies designed to deliver the reliability and safety you need to run an efficient practice.

Laboratory
Explore our diverse portfolio of laboratory supplies, including equipment, POC readers and analyzers, and rapid diagnostic tests, all made to meet your practice needs.

Equipment
Diagnose, monitor, and effectively treat your patients with our comprehensive selection of medical equipment and equipment supplies.

Rely on Us for Non-Acute Supply Chain Expertise

Discover the ultimate convenience of seamless delivery with Henry Schein Medical. Serving global health care providers for more than 90 years, non-acute distribution is our core focus.

Your Single Source for Medical Supplies, Equipment, and Solutions

Get everything you need to deliver exceptional patient care in one order. Our comprehensive portfolio of high-quality products, equipment, and solutions will help you achieve operational and financial excellence.
