3M Medical Securement Solutions

Drive efficiency in your clinical practice and reduce tape SKUs.

A choice that's critical to care. At Solventum, formerly 3M Health Care, we've made it easy to choose the right securement for each patient and application, with four classes of securement that can work harder and smarter.

Non-adhesive

3M™ Coban™ NL Non-Latex Self-Adherent Wrap†
Non-adhesive securement for clinical applications such as blood draws, dressings, immobilization, securement for difficult to dress areas (head, fingers, toes) and support, and mild compression for soft tissue injuries (i.e. strains, sprains).*

Multi-purpose

3M™ Micropore™ S Surgical Tape†
Multi-purpose securement for clinical applications such as blood draws, light-weight dressings, IV lines and tubing (secondary securement), and non-critical tubes.

Flexible

3M™ Medipore™ H Soft Cloth Surgical Tape
Flexible securement for clinical application such as dressing and added pressure, IV lines and tubing (secondary securement), when swelling or movement is anticipated, central venous catheters (secondary securement), chest tubes, and surgical drain tubes.

High-adhesion

3M™ Durapore™ Surgical Tape
High-strength securement for clinical applications such as urinary catheters, nasogastric tubes, orogastric tubes, and patient positioning.

Contact your Henry Schein representative or visit 3M.com/MedicalSecurement to learn more.

†Skin performance: Designates products that deliver the securement power you need while minimizing damage to skin.
*May use as a component in a compression wrap system support only under supervision of a wound care specialist.

3M™ Coban™ Self-Adherent Wrap

Used to secure dressings and other devices, compress or protect wound sites, and immobilize injuries.

• Comfortable: soft, breathable, lightweight, and conformable
• Self-adherent: will not stick to skin, hair, clothing, or drapes
• Residue-free: gentle on fragile skin
• Slip-minimizing cohesion: ideal for active patients
• Available in sterile and nonsterile versions and in a variety of widths and 2 colors

Non-Sterile

3M™ Durapore™ Medical Tape

A silk-like cloth tape in the High-Strength Securement Class. For clinical jobs, including securing catheters/tubes and patient positioning.

• Offers strong adhesion: good initial and long-term adhesion to dry skin
• Easy to use: can be torn lengthwise and crosswise to create a variety of sizes as needed
• Adheres to dry skin, tubes, devices, and itself
• Helps reduce risk: individually packaged single-use length rolls can help protect patients by reducing the risk of cross contamination
• Not made with natural rubber latex

3M™ Medipore™ H Soft Cloth Surgical Tape

Very adhesive, breathable, soft cloth tape categorized in the Flexible Securement Class. Appropriate for clinical applications such as dressings and added pressure, when swelling or movement is anticipated, chest tubes, and surgical drain tubes.

• Conformability: bidirectional stretch accommodates swelling, distension, and movement
• Easy to tear at perforations: no scissors necessary
• Helps reduce risk: individually packaged, single-use length rolls can help protect patients by reducing the risk of cross contamination
• Not made with natural rubber latex

Ritter 224 Barrier-Free® Examination Chair

The number of elderly and obese in the U.S. is steadily growing, and over one fifth of adults in America are disabled. Assisting patients with mobility limitations onto exam chairs has become a frequently performed task. Although caregivers working in health care facilities are in one of the most at-risk professions for musculoskeletal disorders, little has been done to evaluate and reduce risk. The Ritter 224 is designed to offer low and high positioning heights so you can provide the best care to all patients, whether treating the elderly, expectant mothers, or patients with disabilities.

Ritter #230 Universal Power Procedures Table

Features eight-way power for effortless patient positioning. Whether it is power height, back, foot, or tilt, it does the lifting for the physician—minimizing back stress, reducing workplace injury, and keeping patients comfortable.

- Power height, back, foot, and tilt
- 450-lb patient weight capacity
- 22½" to 40" seat height adjustment
- "Knee-chest" position configurable
- Hand control standard
- Seamless upholstery top
- Articulating headrest
- Adjustable stirrups
- 18" paper roll holder
- Meets UL 60601-1 and CAN/CSA C22.2 No.60101-M90 safety standards
- Hospital grade electrical outlets and table rotation also available
- Optional foot control
- Available in 8 seamless upholstery colors

626 Barrier-Free® Examination Chair

Many health care providers are not aware of current standards for proper blood-pressure measurement. If this isn't addressed, it leaves health systems at serious risk. 9.8% of the population is affected by overestimation of high blood-pressure errors. Multiply the cost of treatment for hypertension by the typical patient panel size and the cost of overtreatment could be as much as $135,000 per each practicing physician. The impact of overmedication can also result in complications such as dizziness, fainting, exhaustion, or even patient falls. The Midmark 626 is the first exam chair of its kind designed to promote proper patient positioning for a more accurate blood-pressure measurement.

- Easily position patients for a better BP measurement
- Powered movement of the back section ensures the patient's back is supported
- A Barrier-Free® low chair-height allows the majority of patients, even female patients with heights in the 3rd percentile, to place their feet flat on the floor

midmark®

Designing better care.

Improving Patient Health Better BP®

Heart disease is the leading cause of death for Americans today and hypertension is a contributing and modifiable risk factor for heart disease and stroke.[1] **Proper patient positioning** alone can lower resting blood pressure (BP) measurements by 7 mmHg systolic and 4.5 mmHg diastolic.[2] That's why, Midmark designed the first and only fully integrated point of care ecosystem that has been clinically validated to achieve improved accuracy for a resting BP.

01 Low-height exam chair helps patients keep their back supported and feet flat on the floor

Articulating arm rail supports the patient's arm and cuff at heart height

02 Automated vital signs promote consistency and data accuracy

03 EMR connectivity improves workflow efficiency and reduces errors

Learn more about 3 key considerations (and products) at: henryschein.com/midmark

Scan to explore the latest study reporting the cumulative effect of poor positioning that occurs when BP is taken with the patient sitting on a typical clinical exam room table.

SIMPLICITY & ACCURACY, DELIVERED.

When it comes to hypertension management, are you following the American Heart Association (AHA) and American College of Cardiology (ACC) recommended guidelines?

Diagnosing and managing hypertension starts with accurate BP measurements — so you need technology you can trust. The **Welch Allyn Spot Vital Signs** 4400 device and **Connex** Spot Monitor offer:

- Accurate BP Measurement with **SureBP**
- Built-In BP Averaging
- Easy-to-Use Touchscreen
- Adherence to AHA/ACC Guidelines

Learn the BP measurement guidelines and see it in action with an interactive demo today.

Welch Allyn Spot™ Vision Screener

A handheld, portable device designed to help users quickly and easily detect vision issues on patients from 6 months of age through adult. Spot screens both eyes at once from a nonthreatening 3-ft distance. The touch-screen display allows for one-touch activation, simple management of patient data entry, and easy configuration for both vision screening and autorefraction applications. Features:
- Supports AAP screening guidelines for early detection of amblyopic risk factors
- Automated screening provides thorough, objective, and easy-to-understand results
- Easy to use, easy to implement, with minimal user training required
- Adequately powered for mass screening events
- Captures readings 97% of the time, helping to screen otherwise difficult patients
- Wireless printing and WiFi-enabled for easy export of data
- Manual exports available via USB port
- Uses lights and sounds to help engage children
- Convenient carrying case

CRITERION™ Nitrile N100

Powder-Free Nitrile Exam, Non-Sterile
Durable nitrile construction for reliable protection and tactility. Chlorinated for reduced friction and easy donning. Textured fingers provide an enhanced grip. Chemotherapy tested to the ASTM D6978 standard. Beaded cuff. 3.15-mil thickness at the palm. Blue.

Gloves...100/box
Specify:

X-small	(111-8533)	Large	(111-8537)
Small	(111-8535)	X-large (90/box)	(111-8539)
Medium	(111-8536)		

CRITERION™ Nitrile Low Derma

Powder-Free Nitrile Exam, Non-Sterile
Made from a soft, durable nitrile formulation without the use of chemical accelerators or sulfur, preventing Type-IV allergic reactions. Reduces the potential for dermatitis for glove wearers, yet still provides softness and comfort and maintains superior protection. Chlorinated for reduced friction and easy donning. Textured fingers promote sure handling of instruments and materials. Chemotherapy tested to the ASTM D6978 standard. Beaded cuff. 2.0-mil thickness at the palm. Slate Blue.

Gloves...200/box
Specify:

X-Small	(570-0630)	Large	(570-0633)
Small	(570-0631)	X-large (180/box)	(570-0634)
Medium	(570-0632)		

CRITERION™ Nitrile N300

Powder-Free Nitrile Exam, Non-Sterile
Ultrathin formulation for excellent tactile sensitivity and dexterity. Chlorinated for reduced friction and easy donning. Textured fingers promote sure handling of instruments and materials. Chemotherapy tested to the ASTM D6978 standard. Ecofriendly packaging—with 300 gloves in a box—reduces waste and save space. Beaded cuff. 2.0-mil thickness at the palm. Ice Blue.

Gloves...300/box
Specify:

X-Small	(112-6829)	Large	(112-6832)
Small	(112-6830)	X-Large (250/box)	(112-6833)
Medium	(112-6831)		

CRITERION™ Nitrile N200

Powder-Free Nitrile Exam, Non-Sterile

Slightly thinner than the N100, the durable nitrile construction provides reliable protection and tactility. Chlorinated for reduced friction and easy donning. Textured fingers provide an enhanced grip. Chemotherapy tested to the ASTM D6978 standard. Beaded cuff. 2.36-mil thickness at the palm. Available in both Periwinkle Blue and Sky Blue.

Periwinkle Blue..200/box
Specify:

X-Small	(900-7437)	Large	(900-7440)
Small	(900-7438)	X-large (180/box)	(900-7441)
Medium	(900-7439)		

Sky Blue..200/box

CRITERION

CRITERION™ Chloroprene

Powder-Free Chloroprene Exam, Non-Sterile
Provides the comfort and fit of latex, but with the synthetic strength of nitrile. Excellent dexterity for precision procedures and extended-wear comfort. Latex-like feel for enhanced softness, extended wear comfort, and better fit. Strong puncture-resistance and tear-resistance for high-risk procedures. Textured fingertips for superior grip. Proprietary polymer coating for ''glide-on'' donning. 3.15-mil thickness at the palm. Beaded cuff. Green.

Small	**(112-6858)**	X-large	**(112-6861)**
Medium	**(112-6859)**		

CRITERION

CRITERION™ Chloroprene Ultrathin

Powder-Free Chloroprene Exam, Non-Sterile
Ultrathin chloroprene glove that offers the best of both worlds: the comfort and fit of latex, but with the synthetic strength of nitrile. Excellent dexterity for precision procedures and extended-wear comfort. Latex-like feel for enhanced softness and better fit. Strong puncture-resistance and tear-resistance for high-risk procedures. Textured fingertips for a superior grip. Proprietary polymer coating for ''glide-on'' donning. 2.0-mil thickness at the palm. Beaded cuff. Lime.

PRACTICE GREEN

HENRY SCHEIN®

Together, we can build a healthier world for all.

Practice Green is designed to empower the health care community to positively impact the future of the planet by reducing the ecological footprint and promoting sustainability—both in daily life and while at work.

A product included in the Practice Green portfolio has been carefully selected by Henry Schein as "green" based on the product information provided by the supplier partner that it is either reusable, contains recycled materials, can be recycled, is biodegradable, or is from a sustainable source.

CRITERION™ Earloop Masks, Level 1

Formerly known as Henry Schein Earloop Level 1 Procedure Masks. Same Great Product, New Criterion™ Packaging
- Light, comfortable masks for extended wear when necessary
- Ear loops are made from special stretch yarn: no irritating rubber or plastic touches the skin
- 3-ply, glass-free filter media
- Soft, nonirritating inner and outer facing
- Full-width flexible nosepiece provides fit and security
- Manufactured to exceed all current ASTM F2100-04 standards
- Not made with natural rubber latex
- ASTM Level 1

Masks...50/box
Specify:

Blue	**(104-3809)**	Yellow	**(104-2849)**
Lavender	**(104-8600)**	White	**(104-6611)**
Pink	**(104-3730)**		

CRITERION™ Sensitive Skin Earloop Masks, Level 1

Non-Latex, Blue
- Fluid resistant
- Earloops and a flexible nosepiece for a secure fit
- Hypoallergenic and free of chemicals, inks, and dyes
- Made in the USA
- Not made with natural rubber latex

Ultrasoft..50/box
Specify:

Blue	**(104-8072)**	Pink	**(104-8073)**

CRITERION™ Extra Breathing Room Earloop Masks, Level 1

Formerly known as Maxi-Gard™ Air Procedure Masks With Air Space™ Technology Level 1. Same Great Product, New Criterion™ Packaging
- Contoured design that enhances air flow space for added breathing room
- Fluid resistant
- Adjustable, full-width nosepiece
- Fiberglass-free
- Not made with natural rubber latex
- ASTM Level 1

Masks...50/box
Specify:

Trusted & Trustworthy

It's true. The PURELL® brand is trusted and preferred by healthcare workers.

But more importantly, we work tirelessly to earn that trust.

Our hand hygiene is gentle on hands, even with frequent use. And our powerful surface products can even be used near patients and on electronics.

The Difference Is Clear.

CaviWipes™ 1 2 3

Easy as

CaviWipes™ HP

Features (S.A.F.E.)

Simple
1-minute universal contact time for all pathogens listed on product label.

Alcohol-free
Suitable for sensitive patient populations. Better cleaning efficacy than alcohol-based products[1].

Fast
1-step cleaning/disinfection[2] against 67 pathogens.

Effective
Fully qualified for the EPA Emerging Viral Pathogen (EVP) Claim for all virus types (enveloped, large and small non-enveloped viruses) to meet current and potentially future infection prevention needs[3].

CaviWipes™ 2.0

Features

2-Minute Universal Contact Time
for bacteria, viruses, and pathogenic fungi provided by a Quat/Low-Alcohol formulation.

Excellent Material Compatibility
with hard, non-porous surfaces.

1-Step Cleaning/Disinfection[2]
Effective against over 60 pathogens including Norovirus, SARS-CoV-2 and *Candida auris*.

Prepared for Today's and Tomorrow's Pathogens
Fully qualified for the EPA Emerging Viral Pathogen (EVP) Claim for all virus types (enveloped, large and small non-enveloped viruses) to meet current and potentially future infection prevention needs[3].

CaviWipes™ Bleach

Features

3-Minute Universal Contact Time
against 43 pathogens including *C. Diff*, TB, *C. auris*, Norovirus, 8 MDROs (Multidrug Resistant Organisms).

No Signal Word
No Personal Protective Equipment (PPE) required, which means there is no need for gloves, mask, googles, protective eyewear or even a face mask.

Minimal Residue
With our patented chemistry, our multi-purpose cleaning wipes are made of high-substrate quality and have a mild odor.

Fully qualified for the EPA Emerging Viral Pathogen (EVP Level III) Claim
for all virus types (enveloped, large and small non-enveloped viruses) to meet current and potentially future infection prevention needs[3].

Aaron® Surgi-Center|Pro Electrosurgical Generator

The Aaron ® Surgi-Center|Pro is a 200-watt, high-power operating-room generator. The unit incorporates the power and safety of a premium OR generator at a significant savings to the medical facility. The system delivers 12 monopolar and bipolar RF energy modalities to provide a high level of surgical precision.
- Offers pure cut, 4 modes of blend, 3 modes of coagulation, bipolar coagulation, and Bovie FCFS™ technology
- Designed with state-of-the-art safety features
- Backed by a 4-year manufacturer's limited warranty

#A2350
(124-9073)...ea

Aaron® Smoke Shark™ Smoke Evacuator

Designed to be easy to use and is extremely effective at smoke and particle removal at the operative site. While designed for use with all electrosurgical generators, it is also excellent for use in controlling laser smoke.
- Easy to operate
- Quiet and effective smoke evacuation
- Long-life, 18-hour filter
- Low cost per procedure
- Excellent particle capture

#SE02
(119-3868)...ea

HENRY SCHEIN®

Electrosurgical Generator and High-Frequency Desiccator

This electrosurgical generator is a high-frequency desiccator with cutting ability. One half of the unit is the Henry Schein High Frequency Desiccator. The other half is an electrosurgical generator that features 50 watts of cutting power and coag capabilities—plenty of power for most cutting procedures performed in the doctor's office.
- 40-watt high-frequency desiccator
- 2 machines in 1 convenient package
- Adjustable in $\frac{1}{10}$-watt increments in the first 10 watts, in monopolar and bipolar
- No grounding pad is required during desiccation mode
- 4-year warranty

#A952
(570-0582)...ea

HENRY SCHEIN®

High-Frequency Desiccator

Designed and engineered to be the most reliable and durable desiccator available today, this unit's life is prolonged by incorporating the latest in chip technology and reducing the number of internal parts, thereby generating less internal heat. Post-procedure and long-term cleanup are simplified by its nonabsorbing, nonstaining, high-impact plastic case.
- 40-watt high-frequency desiccator
- Adjustable in $\frac{1}{10}$-watt increments in the first 10 watts, in monopolar and bipolar
- More accurate power with Universal Power Control 100–240-volt AC
- Less to do and less to buy makes this the most cost-effective and user-friendly unit on the market
- This desiccator is a ground reference unit, which means no grounding pad is required
- 4-year warranty

Discover the difference **BD Vacutainer® UltraTouch™** push button blood collection sets can make.

The **BD Vacutainer® UltraTouch™** blood collection set improves the overall phlebotomy experience for both patients and clinicians:

- Reduction in perceived overall patient pain[1]
- Faster tube fill times[2]
- Ability to use a 25-gauge needle without compromising sample quality[3]
- Up to 88% reduction in needlestick injuries[4]

Visit **bd.com/Vacutainer/UltraTouch** to learn more.

* Tube fill time evaluation is based on a bench study. Bench study results may not necessarily be indicative of clinical performance.

Pharma-Vac Performance Series Vaccine Refrigerators

This line of refrigerators supports meeting regulations and guidelines from the CDC, State Agencies, World Health Organization, and other health ministries on vaccine storage and handling. Designed with a hydrocarbon refrigerant, they provide an energy-efficient solution to vaccine storage. Units are Pyxis, Omnicell, and AcuDose RX compatible.

- Certified to the NSF/ANSI 456 Vaccine Storage Standard
- Adjustable-cycle defrost operation ensures the unit avoids temperature spikes and ice buildup
- Battery-powered alarm sounds if the power connection is interrupted
- Digital controls with a large LED readout in Celsius or Fahrenheit for intuitive temperature management
- Multiple shelf positions spaced at ½" to accommodate virtually any size
- Ecofriendly hydrocarbon-based refrigerant for a greener footprint that meets current CARB regulations
- Environmentally friendly design without ozone-damaging chemicals

i.Series® iLF105-GX Laboratory Freezer
5.3-cu-ft Capacity, Solid Door, -15 to -30°C

A GX Solutions professional medical-grade, -30°C freezer. Designed for the unique needs of critical health care applications, such as storing samples, reagents, controls, and frozen vaccines. It delivers optimized control in 3 important areas: temperature, noise, and energy management.
- Powered by OptiCool™ technology, this freezer provides improved performance and user experience through energy efficiency, low noise levels, and stable storage environments to safeguard valuable patient samples, frozen vaccines, and more
- 30% more efficient than traditional technology
- Digital microprocessor temperature controller, with built-in alarms, includes minimum/maximum display and reset
- Energy Star® certified
- Powerful i.C3® Information Center is exclusive to i.Series® models and provides constant temperature monitoring, multiple information logs, and security features
- GX Solutions is the first professional medical-grade line of freezers for clinical laboratories, pharmacies, and other health care facilities
- NSF/ANSI 456 Vaccine Storage Standard certified

#5222105-1
(141-9439)...ea

i.Series® iPR120-GX Pharmacy Refrigerator
20.2-cu-ft Capacity, Glass Door, 2 to 10°C

GX Solutions and the i.C3® Information Center set i.Series® models apart by providing a professional medical-grade refrigerator with advanced monitoring and control. This pharmaceutical-grade refrigerator is designed for storing medications, vaccines, and other pharmaceuticals. It is NSF/ANSI 456 vaccine storage-certified and provides superior stability, uniformity, and recovery. It also has the added benefits of quiet operation, low heat output, and energy savings, all thanks to the advanced OptiCool™ technology.
- Provides continuous temperature monitoring, event logs, temperature graphs, and more
- Designed specifically for the central pharmacy, medication rooms, clean rooms, satellite locations, and outpatient clinics
- 50–65% more efficient than traditional technology
- Quiet operation (47 dB) to create fewer distractions and better working environment
- Audible and visual alarms include power failure, high- and low-temperature alarms, door ajar, condenser temperature, and low battery
- Includes Certificate of Calibration generated with an ISO 17025 reference thermometer
- Energy Star® certified

ID NOW™ Molecular Instrument

ID NOW is a rapid, instrument-based, isothermal system for the qualitative detection of infectious diseases. The unique ID NOW isothermal nucleic acid amplification technology provides molecular results in just minutes, allowing you to make effective clinical decisions sooner.

• Small footprint enables ease of use at point of care
• Simple operation via visual touchscreen
• Requires minimal training
• Connectivity can be provided to your network

ID NOW™ Strep A 2

Now the fastest Strep A test without the need for culture confirmation, the CLIA-waived ID NOW Strep A 2 test provides molecular results in 6 minutes or less on the unique ID NOW platform. This allows you to confidently test, and with a positive result, treat, during the patient's visit.

• Early detection: positive results in as few as 2 minutes, with 99% detected within 3 minutes
• Negative results in 6 minutes
• No culture confirmation of negative results
• Nearly 90% fewer false negatives than RADTs
• No incubation time or thermocycling required
• CLIA waived
• Allows for the accurate detection of group A strep
• Provides the confidence to make clinical decisions sooner
• Facilitates effective patient management
• Aids targeted antiviral therapy and antimicrobial stewardship
• Room temperature storage

ID NOW™ Influenza A & B 2

Delivers molecular flu results in less than 5 minutes on our unique ID NOW platform, making it significantly faster than other molecular methods and more accurate than conventional rapid tests.

• Small footprint enables ease of use at point of care
• Simple operation via visual touchscreen
• CLIA waived
• Positive results detected in as few as 5 minutes, with 95% detected within 7 minutes, negative results in 13 minutes
• Detects up to 42% more true positives than RADT
• Specimen type: nasal or nasopharyngeal swabs, direct or eluted in viral transport media
• Room temperature storage

GeneXpert® Xpress

Unlock the Power of PCR at Point of Care

The Cepheid GeneXpert Xpress brings the power of CLIA-waived PCR testing to the physician office lab and beyond.

- CLIA-waived PCR testing: Flu, FLU/RSV, and Strep A
- Scalable design: 2-module and 4-module options available for customized throughput needs
- Random access: True on-demand, walkaway testing system that runs up to 4 tests at one time
- Operator and QC lockout: Customizable features to meet the needs of every practice
- Built-in redundancy: Each module operates as its own independent analyzer
- No specialized training or daily maintenance— simple to operate with minimal setup needs
- Bidirectional interface: Interface to LIS (HL7, ASTM) available

*Follow-up testing by culture is required if the Xpert Xpress Strep A test result is negative and clinical symptoms persist, or there is an outbreak of acute rheumatic fever (ARF).

Solana Molecular Testing Platform

Solana is a benchtop instrument that combines Quidel's proprietary helicase-dependent amplification (HDA) with fluorescence detection to deliver molecular results you can trust, faster than ever before. The Solana testing system is easily accessible and can be seamlessly integrated. Solana's workflow is easy and flexible, capable of testing a single specimen or batching up to 12 tests at a time. Solana offers an intuitive, touch-screen interface with guided operation and customizable settings. The instrument possesses 4 USB ports, bar-code technology, an external printer, and LIS connectivity. Results are reported on the screen, stored in the instrument and can be saved to a USB drive, printed, and/or sent to the LIS. Solana also comes with the power of Virena®, Quidel's proprietary wireless data management and surveillance ecosystem.

BD Veritor™ Plus System

The wireless BD Veritor™ Plus System provides health-care providers and laboratorians in physician offices, clinics, hospitals, and integrated delivery networks (IDNs) with objective, lab-quality immunoassay test results within minutes. This fast and accurate solution streamlines the point-of-care (POC) diagnostic workflow and allows providers to quickly review patient results and determine the appropriate treatment in a single consultation. The new system can help detect infectious diseases such as influenza A and B, respiratory syncytial virus (RSV), and group A strep while the patient is still on site, which can enable faster decision-making for an earlier intervention opportunity.

- Faster access to test results: Help inform appropriate and targeted treatment decisions
- Improved workflow: The BD Veritor™ Plus Analyzer improves workflow with an Analyze Now or Walk Away mode, providing test results (with a print-enabled function) and aiding in decision-making while the patient is on site
- Improved traceability: The BD Veritor™ InfoScan module can scan 3 different identifiers (operator ID, specimen ID, and test kit/lot) that can be locally recorded, printed, or downloaded, and reduces hands-on time through automated documentation
- Modularity: Provides a unique solution to meet each testing site's preference
- Connectivity: BD Veritor™ InfoSync module provides the same benefits as BD Veritor™ InfoScan. Connects and documents tests results across multiple sites and can integrate with a hospital electronic medical record or laboratory information system
- Advanced particle technology: Enhances sensitivity by using a proprietary process to produce highly stable, modified colloidal metal particles.
- Adaptive read technology: Compensates for background. Nonspecific binding helps improve specificity to reduce false-positive results

FreeStyle Libre Pro™ System

The FreeStyle Libre Pro Flash Glucose Monitoring System is a professional continuous glucose monitoring (CGM) device. It is indicated for detecting trends and tracking patterns and glucose level excursions above or below the desired range, facilitating therapy adjustments in persons (age 18 and older) with diabetes. The system is intended for use by health-care professionals and requires a prescription.

- One reader device is used to scan and activate multiple FreeStyle Libre Pro sensors
- Sensor is applied to back of patient's arm, and can be worn for up to 14 days
- The small, easy-to-wear sensor requires no fingerstick calibrations
- Simple reports show your patients' hidden glucose patterns for up to 14 days at a glance
- Water resistant up to 3 feet (1 meter); do not immerse longer than 30 minutes
- Very thin filament
- Bluetooth wireless capability
- CLIA exempt

HENRY SCHEIN®
Urispec™ Plus Urinalysis Reader & Urispec™ 11-Way Urine Strip Promotion

Provides dependable urine status results to detect early stages of many diseases, such as diabetes, kidney disease, and urinary tract infections. Instrument-read results have long proven to be advantageous for both busy health care professionals and patients. Comprehensive interface options and the optimized printouts minimize risk associated with manual transcriptions. Reliable results can be obtained virtually immediately at the point of care. Easy switch between different test strips: Urispec Plus is for use with the Urispec 11-Way, 5-Way Plus, 4-Way, and GP+A urine test strips for up to 11 parameters for the semiquantitative detection of occult blood, urobilinogen, bilirubin, protein, nitrate, ascorbic acid, ketones, glucose, pH, specific gravity, and leukocytes. Use of these test strips on the Urispec Plus analyzer is CLIA-waived.
• CLIA-waived
• Readings eliminate subjectivity of visual color interpretation, which makes urinalysis simpler and more reliable
• Features no-touch operation: After strip placement, measurement starts automatically, which makes urinalysis faster and more hygienic
• Easy switch between different test strips: Urispec Plus is for use with Urispec 11-Way, 5-Way Plus, 4-Way, and GP+A urine test strips

Urine Reagent Test Strips
For urinalysis by the dip-and-read technique. Similar to all Multistix® 10 SG Plus Ascorbic Acid. Tests for glucose, bilirubin, ketone, specific gravity, blood, pH, protein, urobilinogen, nitrite, and leukocytes. Also includes additional ascorbic acid analyte pad. The importance of the addition of an ascorbic acid analyte pad is that the glucose test must be repeated if the ascorbic acid reaction is positive. An ascorbic acid content of as little as 5 mg/dL (0.3 mmol) can interfere with a glucose assay in low concentrations. As with glucose detection, blood detection is also disturbed by low concentrations of ascorbic acid, whereas high ascorbic acid concentrations can interfere with the nitrate and bilirubin test zones.
• Unique "read all" feature at 60 seconds
• Similar to Multistix® 10 SG Plus Ascorbic Acid Test and all brands of 10 SG products
• Glucose, bilirubin, ketone, specific gravity, blood, pH, protein, urobilinogen, nitrite, and leukocytes
• Reader available
• Ascorbic acid pad to ensure uncompromised results
• Room-temperature storage
• Strips for visual read or for use with Urispec Plus Urinalysis Reader

HENRY SCHEIN®
Urispec™ Urinalysis Controls
For Most Brands of Routine Urine Dip Sticks and Pregnancy Tests
A bilevel product packaged in plastic tubes and dropper bottles. Controls are liquid, ready-to-use, and are designed to validate urinalysis reagent strips. Packaged in plastic dip tubes and dropper bottles, they are convenient and easy to use. Long open- and closed-vial stability at 2°C–8°C for 2 years unopened, or 90 days once the Dip Control is opened, and 180 days once the Drop Control is opened. This allows the user ample time to utilize the product before expiration, resulting in cost savings.
• Values for all pregnancy test brands
• Assays for common brands of urine dip for routine urinalysis (2 parameter-10SG)
• Includes values for microalbumin, creatinine, and hCG
• Two distinct levels (normal and abnormal)
• Closed-vial dating up to 2 years with refrigerator storage
• 30-day stability at room temperature
3 Bilevel Sets, 15 mL/Tube (6 Vials)
Dip stick in tube, with open-vial stability of 90 days at 2°C–8°C.
(112-6841)...ea
2 Bilevel Sets, 25 mL/Dropper Bottle (4 Bottles)
Open-vial stability of 180 days at 2°C–8°C.

OSOM iFOB Test Kits

A rapid qualitative test for the immunochemical detection of fecal occult blood/human hemoglobin (hHb) in human fecal specimens as an aid in diagnosing gastrointestinal disorders, including diverticulitis, colitis, polyps, and colorectal cancer. Device is suitable for use in laboratories and physicians' offices that are CLIA waived.

• CLIA waived
• Highly sensitive test meets recommended guidelines
• Human hemoglobin specific for reducing false positives
• Easy, one-step test procedure
• Specimen can be collected in office or at privacy of patient's home
• Patient-friendly, easy-to-follow instructions
• Noninvasive collection method
• Only one test device needed
• No dietary or drug restrictions for iFOBT

HENRY SCHEIN®

OneStep+ iFOBT Occult Blood Monoclonal Antibody Kits

Innovative dry-base collection method that utilizes 1 sampling card for the collection of 2 fecal specimens, and requires only 1 immunochemical specimen preparation tube/test cassette system for analysis.

• Meets the American Cancer Society and the US Task Force for Colorectal Cancer (CRC) Foundation recommendation of multiple-day testing
• The sampling tab technology replaces unpleasant liquid buffer tubes and eliminates human error due to patient oversampling
• No dietary or drug restrictions
• 30-day stability/24-month shelf life from date of manufacture
• CLIA waived
• Made in the USA

25-Test Complete Kit
(900-4413).. 25 tests/kit
Contains: 25 test cassettes, 25 buffer tubes & 25 patient return mailers.

Contains: 50 test strips.

HENRY SCHEIN®

One Step+ ER Tests

A rapid, convenient, and noninvasive qualitative method for detecting occult blood in the stool. It is intended for professional use as an aid in the diagnosis of asymptomatic gastrointestinal conditions that may manifest themselves by the presence of occult blood in the stool.

• Patented grid design minimizes the number of unreadable slides due to patient oversampling
• Easier to read borderline specimens
• Provides an intense blue reaction, resulting in better readability than traditional guaiac test kits
• 21-day on-slide stability
• 3-year shelf life with room temperature storage
• Familiar patient collection
• Made in the USA

OneStep+ ER Triple Slides Kit
(112-7141)...50/box
Contains: 3 x 10-mL ER Developer and 50 mailing envelopes containing triple slide, 3 applicators & patient instructions.

iScreen® OFD–Cotinine
The iScreen® OFD–Cotinine device is a rapid, oral fluid screening test that can be performed any time without the use of an instrument. The test detects elevated levels of cotinine (nicotine metabolite) in oral fluid for accurate determination of smoking status.
- Accurately screen for cotinine (primary metabolite of nicotine)
- Detects up to 1-2 days after nicotine use
- Qualitative detection of cotinine in oral fluids at a cutoff of 30 ng/mL
- Simple collection and testing procedure
- Results in as little as 10 minutes
- Integrated internal procedural control
- CLIA exempt

(395-0149)...25/box

Snap-N-Racks

globe SCIENTIFIC INC.

This line of plastic test-tube racks is shipped flat to reduce shelf space. Then, simply snap together for use. The special design allows all samples to be incubated at the same temperature. These racks can be used in freezers without deforming or going brittle. They will not rot, rust, or deform. Alphanumeric markings are molded into the racks to provide easy test-tube identification. They are available in 4 colors for color coding test samples, or simply for aesthetics in the modern laboratory. They are stackable when empty.
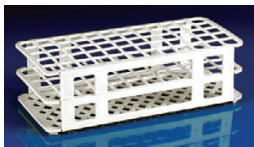

- Made of polypropylene (PP)
- Autoclavable at 250°F (121°C) for 20 minutes
- Nonfloating in a water bath
- Available in White, Blue, Yellow, and Red
