California customers please use website when ordering for Prop 65 information.

At **Henry Schein Medical**, we recognize the essential role orthopedic care teams play in helping patients recover, regain mobility, and return to their daily lives. That’s why we offer a comprehensive range of high-quality products and reliable support to meet the specific needs of orthopedic practices. Whether you’re treating post-operative patients or supporting recovery after an injury, our solutions are designed to help you deliver effective, efficient care every step of the way.

From bracing and casting materials to rehabilitation tools, wound care supplies, and mobility aids, Henry Schein provides the trusted products your practice relies on. We carry offerings from leading manufacturers as well as cost-effective alternatives, giving you access to the right supplies at the right price—so you can stay focused on patient outcomes and operational efficiency.

What sets Henry Schein Medical apart is our commitment to being more than just a supplier—we’re a true partner to orthopedic practices. Along with a wide range of trusted products, we provide fast shipping, exceptional customer service, and a knowledgeable team that understands the unique needs of your specialty. From the exam room to post-op recovery, we offer the tools and support your team needs to deliver the highest standard of care and enhance the overall patient experience.

Performance® Padded Fiberglass Pre-Cut Splints CNF MEDICAL

CNF Medical offers a complete line of quality fiberglass splints made in the USA. The company is a pioneer in this technology and is cost-competitive. All splints are made with a stretchable hydrophobic polypropylene felt covering with a 7-layer substrate on both sides for patient protection, preventing wrong-side application. Setup time is 3 to 4 minutes and weight bearing is approximately 20 minutes. CNF offers complete education and training support.

Ultimate Arm Sling®

BROWNMED

Designed for extraordinary comfort, this patented sling is made of soft, breathable cotton spandex fabric, and is lightweight and soft to the touch. The sling pouch stretches to adjust to the length of the arm from elbow to wrist. Two fabric loops keep the arm held gently and securely in place.

- Evenly distributes weight of an arm to eliminate pressure points and reduce neck fatigue
- Hook-and-loop closure for easy adjustability
- Not made with natural rubber latex
- Machine washable

Arm Sling..... ea

Specify:

Child, X-small	(137-9643)	Pro, 3X	(137-9646)
Child, Small	(137-9644)	Goliath	(137-9647)
Adult, Regular	(137-9645)		

Stax Finger Splints

BROWNMED

Protect and support distal joint of finger in extension while permitting unrestricted movement of proximal interphalangeal joint. Stax-mallet is normally used without padding and is taped to the middle phalanx, elevating the distal joint to properly extended position. Use in clinics, hospital emergency departments, industrial clinics, and athletic training rooms for quick response to finger injuries.

Splints..... ea

2nd Skin® Moist Hydrogel Burn Pads

SPENCO

Made primarily from water to cool and soothe skin on contact, these dressings will not stick to the skin. To use, simply cut to desired size and remove the blue backing before applying the gel to the skin. If the hydrogel skin dries on the skin, simply soak it in water before removing it. Should be changed daily.

- Revolutionary hydrogel dressing protects against blisters, pressure, and friction
- Brings cooling relief to stings, bites, poison ivy, and blisters
- Non-irritant
- Odorless
- Provides instant relief
- Protects and cushions

Polysorb Walker Runner Insoles

SPENCO

Cradles the feet with targeted cushioning that improves athletic performance and prolongs the life of shoes. Ideal for walking, running, training, and sports. 4-way stretch fabric with antimicrobial helps prevent blisters while controlling odor. A ½" layer of Spencore material absorbs shock and impact to provide comfort and cushioning. Lightweight Polysorb polyurethane foam provides heel cupping and contoured arch support. Spencore heel plug provides extra cushioning and shock absorption in the heel.

Insoles.....	pair
Specify:	
#38-385-01, Women's 5–6	(128-6146)
#38-385-02, Women's 7–8, Men's 6–7	(128-6147)

#38-385-06, Men's 14–15	(128-6151)

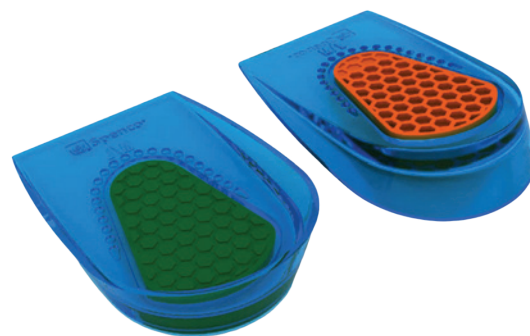

Gel Comfort Insoles

SPENCO

Advanced, triple-density design provides comfort, cushioning, and support. Ideal for everyday wear, especially when standing for long periods of time. TPR comfort gel thermoplastic rubber combines cushioning and energy return for comfort. Metatarsal arch support relieves pressure from the ball of the foot. Top cloth treated with antimicrobial helps eliminate odor-causing bacteria and reduces friction. Stability cradle supports the arch and heel for greater comfort. Makes it easier to place into the shoe. Extra heel cushioning: softer gel in the heel absorbs impact at heel strike.

Gel Heel Cups

SPENCO

Slip-resistant design, deep heel cupping, and honeycomb impact protection for heel comfort.

- TPR comfort gel: thermoplastic rubber combines cushioning and energy return for comfort
- Anatomical cushioning system: dual-density gels absorb impact and shock where the heel needs it most
- Heel cup provides extra cushioning for the heel

Heel Cups.....	pair
Specify:	
#39-826-02, Women's 5–8, Men's 4–7½	(695-8929)

DARCO Med-Surg Shoe™

DARCO INTERNATIONAL

This versatile, postoperative shoe has a fully customizable insole that is double-padded and removable to accommodate the DARCO PegAssist™ off-loading insole.

- Square-toe design provides additional bumper protection when K-wires are present
- Rocker sole reduces plantar pressure on the forefoot and heel by over 25%
- Strapless forefoot closure eliminates buckle pressure and expands to accommodate a 17" dressing
- Ankle strap eliminates heel slippage
- Zoned outsole provides traction under the midfoot
- MetaShank protection provides more rigid control under the metatarsal heads
- Removable insole fully customizable with over twice the padding

HOT/COLD THERAPY

Instant Heat Compresses

- Squeeze to activate
- Maintains therapeutic heat for up to 20 minutes
- Recommended for muscular pain relief
- Helps improve circulation
- Conforms to body contours
- Flexible material
- Disposable: one-time-use only
- Non-sterile

6" x 8 1/4" (499-0813)..... 24/case

Instant Cold Compresses

- Single squeeze allows for easy activation of packs
- Provides immediate relief to injured area
- Ideal for minor sprains, swelling, aches, sore joints, burns, nosebleeds, and headaches
- Flexible material conforms to body contours
- Single use
- Non-sterile
- No refrigeration needed

Buzzy® Pro PAINCARELABS

Buzzy Pro's patented M-Stim technology combination of high-frequency mechanical vibration stimulation and ice are clinically proven to reduce pain from needle procedures on contact. Slim, rectangular design is great for adults for use for a variety of needle procedures, including orthopedic injections, such as cortisone shots, PRP, and other ultrasound-guided injections. It may be used with a standard tourniquet for blood-draw procedures, lab work, dialysis cannulation, blood donation, long venipuncture procedures, and infusion. With the same clinically proven technology as Buzzy Healthcare, Buzzy Pro can also be used for IV access, vaccinations, dental injections or other subcutaneous or intramuscular injections. Buzzy Pro's patented technology supports 2024 Infusion Nurses Society Level 1 standards recommendation "Vibration & Ice for Adult and Pediatric Pain Management."

- Patented M-Stim technology works on contact
- Portable, reusable slim rectangular unit with toggle on/off switch for continuous high-frequency vibration
- Vibration unit is for multi-patient use and can be disinfected
- Large, rectangular single-patient ice packs are reversible for patient preference of more or less cold; reusable ice packs for single-patient use
- Yellow silicone, non-latex starter straps are adjustable and may be used to hold unit in place for longer procedures

#BZP CASE, Vibrational Cold Pack (148-8514)..... ea

Contains: 1 of each: Buzzy Pro M-Stim vibrational unit (pre-installed with 2 AAA batteries) and hex wrench (for changing batteries); 2 non-latex silicone straps & 5 rectangular single-patient ice packs.

VibraCool® Pro ERAS Lower Extremity Kit PAINCARELABS

The only wearable neuromodulation device using mechanical stimulation (M-Stim™) vibrational therapy. Multimodal hot or cold therapy and patented high frequency M-Stim combine to optimize gate-control pain relief on contact, without the side effects of medications. M-Stim technology helps enable patients to get moving quickly after surgery and throughout recovery. It is FDA 510-K cleared for the temporary relief of minor injuries (muscle or tendon aches) and the treatment of myofascial pain post-surgery. It is also indicated for use prior to or during physical therapy to treat myofascial pain caused by trigger points, restricted motion and muscle tension. Dual, low-profile M-Stim units surround the knee with stimulating relief on both sides of the knee, simultaneously. The M-Stim units can also slide on brace straps or under brace/compression sleeves. Customizable relief: for injury or pain, use the attached VibraCool Pro compression cuff with heat for spasm or chronic pain, or ice for acute injury, inflammation, or post-surgery. The kit includes a pre- or post-op "What Works for Pain" patient workbook with evidence-based interventions. VibraCool Pro's portable design facilitates pain relief for patients from ASC/hospital/clinic to home.

- Relieves pain on contact
- Simple, portable modality
- Clinical research: found to reduce pain 3.4 times better than e-stim
- Safe with pacemakers

#VCP-LE, Cooling Kit (148-5968)..... ea

Contains: 1 of each: 30" neoprene compression strap, 4-chamber freeze-solid ice pack, reusable instant hot pack and "What Works for Pain" workbook & 2 low-profile professional M-Stim vibration units (pre-installed with 2 AAA batteries).

Medical tapes and wraps

Drive efficiency in your clinical practice and reduce tape SKUs

A choice that's critical to care. At Solventum, formerly 3M Health Care, we've made it easy to choose the right securement for each patient and application, with four classes of securement that can work harder and smarter.

Non-adhesive

3M™ Coban™ NL Non-Latex Self-Adherent Wrap*

Non-adhesive securement for clinical applications such as blood draws, dressings, immobilization, securement for difficult to dress areas (head, fingers, toes) and support and mild compression for soft tissue injuries (i.e. strains, sprains).*

Multi-purpose

3M™ Micropore™ S Surgical Tape*

Multi-purpose securement for clinical applications such as blood draws, light-weight dressings, IV lines and tubing (secondary securement) and non-critical tubes.

Flexible

3M™ Medipore™ H Soft Cloth Surgical Tape

Flexible securement for clinical application such as dressing and added pressure, IV lines and tubing (secondary securement), when swelling or movement is anticipated, central venous catheters (secondary securement), chest tubes and surgical drain tubes.

High-adhesion

3M™ Durapore™ Surgical Tape

High-strength securement for clinical applications such as urinary catheters, nasogastric tubes, orogastric tubes and patient positioning.

Contact your Henry Schein representative or visit [Solventum.com/MedicalTapes_Wraps](https://www.solventum.com/MedicalTapes_Wraps) to learn more

*Skin performance: Designates products that deliver the securement power you need while minimizing damage to skin.

*May use as a component in a compression wrap system support only under supervision of a wound care specialist.

The Right Tape for the Right Care

As a living breathing organ, our skin behaves differently from person to person, making selecting the correct wound care supplies essential to proper care.

Serving US healthcare providers for over 30 years, Dukal's trusted and extensive line of medical tapes ensures clinicians have right product for the right care.

Elastic Tape

Strong adhesive with stretchable, flexible elasticity. Cut with scissors after application.

Cloth Tape

The standard and most versatile medical tape, cloth medical tape, is a durable option designed for strength. Easy to tear, designed for bilateral tearing without the need for scissors. The gentle adhesive will leave minimal residue on skin.

Soft Cloth Tape

Soft cloth medical tape is a flexible option that conforms and moves with the patient. Can accommodate swelling and the gentle adhesive has minimal impact on skin.

Transparent Tape

A high quality, porous, clear medical tape perforated for added breathability and bi-directional tearing. Transparent medical tape conforms and stretches to accommodate movement making it excellent for IV sites, dressings, and tubing retention.

Paper Tape

Gentle on skin, lightweight and microporous; paper tape won't harm delicate wounds making it a great option for delicate or elderly skin.

Waterproof Tape

Seen primarily in the industrial safety market and first aid kits, waterproof tape has a more aggressive adhesion while retaining self-tearing properties for easy application.

Retention Tape

Retention tape is a soft and flexible medical tape ideal for difficult-to-tape areas. It provides light compression without constriction and is perforated every two inches for ease of use. The printed grid pattern on the s-curve release liner allows for greater wound reference and monitoring, while allowing simple removal of the liner even when wearing gloves.

*When no gross debris is present.

CaviWipes™ Bleach METREX

CaviWipes Bleach with patent-pending Enhanced Chlorine Technology™ (ECT) are multipurpose cleaning wipes that are gentle on surfaces, yet tough on pathogens. They also meet the CDC recommended 1:10 bleach dilution.

- Kills *C. diff* in 3 minutes—no other surface wipe is faster
- No personal protection equipment is required. (Special instructions for cleaning prior to disinfection against *Clostridium difficile* spores, HIV-1, HBV, and HCV.)
- Compatible with most medical device equipment (See medical device equipment manual for compatibility information.)
- One-step cleaner and disinfectant
- Low odor

#13-9100, 6" x 10½"	90/canister
(129-6430)	

CaviWipes™ 2.0 Disinfectant Wipes METREX

- Effective against over 40 pathogens
- 2-minute efficacy against norovirus, influenza A and B, SARS-CoV-2, TB, HIV-1, and more
- Qualified for the EPA's Emerging Viral Pathogen claim for all virus types
- Compatible with hard, nonporous surfaces

Large, 6" x 6¾"	160/cont
(140-3081)	
X-Large: 9" x 12"	65/cont
(140-3082)	

CaviCide™ METREX

A convenient, ready-to-use, intermediate-level surface disinfectant that is effective against TB, HBV, HCV, viruses (hydrophilic and lipophilic), bacteria (including MRSA and VRE), and fungi.

- Effective against TB in 3 minutes, and HIV-1, HCV, HBV, and MRSA in 2 minutes
- Disinfectant, cleaner, and decontaminant all in one
- May be used on most medical device materials
- For use on hard, nonporous surfaces

CaviWipes™ HP METREX

- Alcohol-free, hydrogen-peroxide wipes that do not require PPE and are safe for use for both clinicians and patients
- Offer a 1-minute universal contact time against over 50 pathogens
- Qualified for EPA emerging viral pathogen claims for enveloped viruses (e.g., influenza A and B, HIV-1, and HBV) as well as small/large nonenveloped viruses (e.g., norovirus and rhinovirus types 1A and 37)

6" x 6¾"	160/canister
(640-0122)	
9" x 12"	160/canister
(142-5192)	

Super Sani-Cloth® Germicidal Disposable Wipes PDI

Effective against 32 microorganisms in 2 minutes, including multi-drug-resistant organisms (MDROs), bloodborne pathogens, TB, and viruses. Fast contact time allows for a quick room turnover; compatible with a broad range of surfaces and equipment in health care. Meets CDC, OSHA, and infection control guidelines. Quaternary ammonium and IPA formulation. Contains 55% alcohol. EPA-registered intermediate-level disinfectant.

- Quaternary/high-alcohol formula: 55%
- Bactericidal, tuberculocidal, and virucidal
- One-step cleaner/disinfectant (however, a precleaning step is required for blood and body fluids)
- Kills a broader range of bacteria and viruses including TB and RSV in 1 minute; HBV and HIV-1 in 2 minutes; and MRSA, VRE, *Staphylococcus aureus*, *Pseudomonas aeruginosa*, *E. coli*, *Klebsiella pneumoniae*, adenovirus Type 5, *Rhinovirus vaccinia*, influenza A2/Hong Kong, and herpes simplex type 2 in 5 minutes
- Also kills *Candida albicans* and rhinovirus
- Unique deep-well lid seals securely to prevent moisture loss

Easy Screen™ Cleaning Touch-Screen Wipes

PDI

Compatible with touch-screen healthcare equipment, including tablets, electronic medical record equipment, and OR and procedural lights. Works on smooth as well as etched glass, acrylic, and stainless steel surfaces. Rapidly cleans dirt, grime, fingerprints, and smudges with the cleaning power of 70% isopropyl alcohol (IPA). Antifogging and antistreaking, fast drying, and leaves no residue.
Large-6" x 9"
(125-0248)..... 70/canister

EPA Registered Sani-Cloth® Bleach Germicidal Disposable Wipes PDI

A 1:10 dilution of sodium hypochlorite for the disinfection of hard, nonporous surfaces and equipment. Bactericidal, fungicidal, tuberculocidal and virucidal, these wipes are effective against 38 microorganisms in 4 minutes or less.

- Effective against 50 microorganisms in 4 minutes
- Meets CDC, OSHA and CMS Tag F441 guidelines
- Bactericidal, fungicidal, tuberculocidal, virucidal
- Compatible with a broad range of surfaces and equipment in healthcare
- For use when taking a pathogenic-specific approach to disinfection

Sani-Cloth® AF3 Germicidal Disposable Wipes PDI

Germicidal, nonwoven disposable wipes. Presaturated with a quaternary disinfectant. Effective against 44 microorganisms, including 12 multidrug-resistant organisms and TB, with an overall contact time of 3 minutes. Fragrance-, alcohol-, bleach-, acid-, phenol-, acetone-, and ammonia-free formulation: no harsh odors. Provides enhanced cleaning power—cleans, disinfects, and deodorizes. Use on hard, nonporous surfaces and equipment. Efficient and easy-to-use dispensing system.

Sani-HyPerCide™ Germicidal Disposable Wipes PDI

- Ideal for general, everyday, isolation, and terminal room disinfection
- Ready to use: no mixing or measuring required
- One-step cleaner and disinfectant
- EPA registration #9480-16/EPA-registered intermediate-level disinfectant
- 1-minute kill time for 23 microorganisms; 5 minutes for *C. diff*
- Deep-well lid provides ample space to store and access next wipe
- Prominent contact-time icons for easy identification and improved compliance with accreditation standards: 1-minute contact time icon for general disinfection; 5-minute contact time icon for *C. diff*. Categorization of pathogens allows for quick identification of relevant efficacy claims

Sure-Check® Self-Sealing Sterilization Pouches CROSSTEX

These are the first and only pouches with built-in internal/external multiparameter steam sterilization indicators giving you the assurance that all 3 sterilization parameters (time, temperature and presence of steam) have been met. Sure-check pouches are non-latex and made in the USA. All Crosstex pouches can be disposed of in regular waste.

- Built-in internal/external multiparameter indicators are printed directly on the pouch
- Eliminates the extra step of adding separate multiparameter indicators to each pouch
- Meets CDC infection-control guidelines

Attest™ Mini Auto-reader SOLVENTUM, FORMERLY 3M HEALTH CARE

Helps reduce the risk of patient exposure to contaminated dental instruments. Compatible with 3M Attest Super Rapid Readout Biological Indicators with fast, 24-minute results. Features an easy-to-read display and small footprint for space-constrained areas. Connects to a PC for digital documentation of biological indicator results.

3M™ Comply™ (SteriGage®) Chemical Integrator 1243A

SOLVENTUM, FORMERLY 3M HEALTHCARE

An ANSI/AAMI/ISO 11140-1:2005 Class 5 Integrating Indicator for use in determining whether the sterilization process conditions were met inside each pack. Can be used in all 250°F-275°F sterilization cycles.

Benefits:

- Moving front ink technology provides easy-to-read "Accept or Reject" result
- Can be used in all 250°F-275°F steam sterilization cycles
- Response correlates with a biological indicator at 3 time/temperature relationships under ideal steam sterilization conditions
- Confirmed by BSI, a leading global independent product testing service company, to meet the performance requirements of ANSI/AAMI/ISO 11140-1:2005 Class 5

EXAM CHAIRS & STOOLS

Ritter® 225 Barrier-Free® Examination Chair

MIDMARK

The number of elderly and obese in the U.S. is steadily growing, and over one fifth of adults in America are disabled. Assisting patients with mobility limitations onto exam chairs has become a frequently performed task. Although caregivers working in health-care facilities are in one of the most at-risk professions for musculoskeletal disorders, little has been done to evaluate and reduce risk. The Ritter 225 is designed to offer low and high positioning heights so you can provide the best care to all patients, whether treating the elderly, expectant mothers, or patients with disabilities.

(133-0279) ea

#225-003, With Clean Assist Roller System
(133-0290) ea

626 Barrier-Free® Examination Chair MIDMARK

Many health care providers are not aware of current standards for proper blood-pressure measurement. If this isn't addressed, it leaves health systems at serious risk. 9.8% of the population is affected by overestimation of high blood-pressure errors. Multiply the cost of treatment for hypertension by the typical patient panel size and the cost of overtreatment could be as much as \$135,000 per each practicing physician. The impact of overmedication can also result in complications such as dizziness, fainting, exhaustion, or even patient falls. The Midmark 626 is the first exam chair of its kind designed to promote proper patient positioning for a more accurate blood-pressure measurement.

- Easily position patients for a better BP measurement
- Powered movement of the back section ensures the patient's back is supported
- A Barrier-Free® low chair-height allows the majority of patients, even female patients with heights in the 3rd percentile, to place their feet flat on the floor

Connex® Spot Monitor BAXTER

Features an easy-to-use, vivid touch-screen display and provides accurate vital signs measurement, including blood-pressure averaging, spot checking, interval monitoring and custom scoring across patient populations. Device connects wirelessly to an EMR and accurately sends vitals to the patient chart from the point of care to help improve efficiency.

- Designed for the physician-office environment with an easy-to-use, vivid touch-screen display
- More accurate hypertension diagnosis without slowing down your workflow thanks to automated blood-pressure averaging
- Improved capabilities for assessing respiratory conditions such as COPD, asthma, and community-acquired pneumonia (CAP), thanks to integrated professional-grade pulse oximetry
- Increase staff efficiency and eliminate data-entry errors with wireless transfer of vital signs directly into an EMR

Eye-Level Digital Physician Scale with Handlebars HEALTH O METER

High-capacity, 660-lb/300-kg primary-care scale that provides the optimum in quality, reliability, and ease of use.

- Functions: lb/kg Conversion, lb/kg Lock Out, BMI, Zero, Tare, Pre-tare, Hold/Release, Auto Zero, Auto Off, Reweigh, Recall, and Everlock®
- Low-profile, nonskid platform with reinforced base
- Integrated height rod with 30"–84¼" measuring range
- Handlebars provide stability that many patients need without affecting the accuracy of the weight reading
- Wireless connectivity options available

#500KLHB
(138-5066) ea

TAA-Compliant Portable Stadiometer with Carrying Case HEALTH O METER

Design features an easy-to-assemble/disassemble structure, complemented by a large, sturdy, antislip base for stability. Extended headpiece ensures comfort for patients of all sizes, while the large viewfinder offers clear and accurate measurements for ease of reading. Measuring range: 7"–82.6".

#221HR
(139-6036) ea

Digital Glass Scale with Anti-Slip Tread and Backlight HEALTH O METER

A high-capacity scale with exclusive antislip tread, easy-to-read backlit display, and 5-second weight hold. Antislip tread provides additional traction and peace of mind.

- Functions: lb/kg button, 5-second weight hold, auto off, and auto zero
- Capacity: 440 lb/200 kg

#810KL
(138-5579) ea

Digital Electronic Eye-Height Scale HENRY SCHEIN®

Compact, eye-height digital scale that features an integrated mechanical height rod, large backlit LCD display, and BMI calculator. Weight capacity up to 500 lb (225 kg). Low profile for easy access—platform is only 2½" high. Sta-Bilt stabilizing software ensures an accurate measure, even if the patient is moving. Autohold feature allows the weight to continue to be displayed after the patient has stepped off the scale. Integrated USB interface allows data to be transferred to a computer. Includes 2-year warranty.

SURGERY PRODUCTS

Laparotomy Sponges HENRY SCHEIN®

- Prewashed, 100% high-quality cotton with tight weave
- Cross-stitched with super-locked edges to minimize linting and loose threads
- X-ray detectable
- Banded 5s
- Not made with natural rubber latex

18" x 18"
(570-1115) 5/pkg

Double-Sided Shave Prep Razors HENRY SCHEIN®

- Disposable
- Sharp stainless steel blades for smooth shaving
- Nonslip grip handle

(900-7665) 100/box

BZK Towelettes HENRY SCHEIN®

- Premoistened antiseptic towelettes used for general cleansing for patients and staff
- Cleans and cools simultaneously
- Provides sting-free cleansing of all minor cuts, scrapes, and burns
- Nontoxic and nonirritating
- Alcohol-free
- Unscented

(112-6735) 100/box

Surgical Skin Markers HENRY SCHEIN®

These surgical marking pens provide an accurate and reliable way to mark the incision site prior to surgery.

- Prep-resistant
- Nonabrasive tip
- Large ink reservoir

SURGERY PRODUCTS

Non-Fenestrated Drapes

Sterile, Polylined, Tissue/Poly/Tissue

- Heat sealed along 2 outer edges to ensure a pinhole-free plastic layer that guarantees maximum protection against bacterial strike-through from below
- Features polyethylene lining between 2 layers of absorbent-strength tissue, virtually eliminating risk of bacterial migration and strike-through
- Using blue-tissue side up prevents glare
- All sterile fields are available in convenient dispenser boxes of 50 each

White, 18" x 26" 50/box
(900-4686)

Fenestrated Drapes

Sterile, with 3" Round Fenestration
Tissue/Poly/Tissue

- Allows access to the operative site while it protects surrounding area
- 3" round fenestration option is die cut and heat sealed, leaving a smooth, even edge that prevents linting
- Not made with natural rubber latex

White, 18" x 26" 50/box
(900-4685)

Mayo Stand Cover

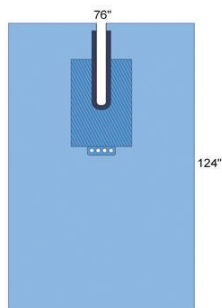

Sterile

- SMS barrier fabric reinforcement
- Not made with natural rubber latex
- Single use

Regular, 23" x 54" 30/pkg
(570-1616)

X-large, 29½" x 57" 30/pkg
(570-1618)

Split-Sheet Drapes

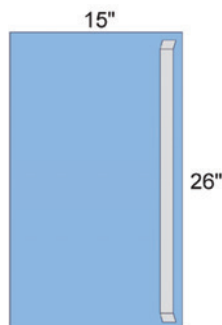

Sterile

- Trilayered SMS fabric is soft, drapable, and naturally repellent to fluids, and its construction provides an excellent barrier to strikethrough
- Low-lint-generating fabric reduces particulates and minimizes airborne particulate contamination
- Excellent flammability properties provide additional protection for the patient and staff when using lasers and electrocautery devices
- Not made with natural rubber latex
- Absorbent reinforcement
- Single use

Drape size: 53" x 76", split size: 2½" x 30" with hook-and-loop tube/cord holders, 2" adhesive tape
(570-1647) 26/case

Drape size: 76" x 110", split size: 2½" x 37" with fabric tube/cord holders, 1" adhesive tape
(570-1658) 24/case

Drape size: 76" x 124", split size: 3" x 25" with fabric tube/cord holders and 1" adhesive tape
(570-1648) 22/case

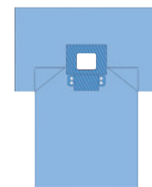

Utility Drapes with Tape

Sterile

- Trilayered SMS fabric is soft, drapable, and naturally repellent to fluids, and its construction provides an excellent barrier to strikethrough
- Low-lint-generating fabric reduces particulates and minimizes airborne particulate contamination
- Excellent flammability properties provide additional protection for the patient and staff when using lasers and electrocautery devices
- Not made with natural rubber latex
- Single use

15" x 26" 100/case
(570-1684)

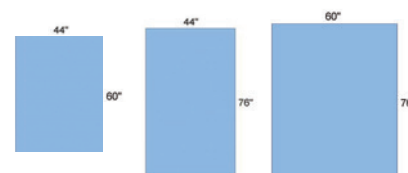

Chest Drapes

Sterile

- Trilayered SMS fabric is soft, drapable, and naturally repellent to fluids, and its construction provides an excellent barrier to strikethrough
- Low-lint-generating fabric reduces particulates and minimizes airborne particulate contamination
- Excellent flammability properties provide additional protection for the patient and staff when using lasers and electrocautery devices
- Not made with natural rubber latex
- Single use

100" x 126" 12/case
(570-1626)

General Drapes

Sterile

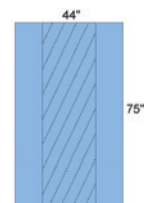

- Trilayered SMS fabric is soft, drapable, and naturally repellent to fluids, and its construction provides an excellent barrier to strikethrough
- Low lint-generating fabric reduces particulates and minimizes airborne particulate contamination
- Excellent flammability properties provide additional protection for the patient and staff when using lasers and electrocautery devices
- Not made with natural rubber latex
- Single use

Half, 44" x 60" 22/case
(570-1656)

Medium, 44" x 76" 20/case
(570-1617)

Large, 60" x 76" 20/case
(570-1657)

Large, Reverse Fold, 60" x 76" 20/case
(570-1663)

Back Table Covers, Zone Reinforced

Sterile

- Trilayered SMS fabric reinforcement
- For single use
- Not made with natural rubber latex

44" x 75" 20/case
(570-1596)

44" x 90" 20/case
(570-1597)

50" x 90" 20/case
(570-1598)

SURGERY PRODUCTS

O.R. Towels

- Prewashed, 100% high-quality cotton
- Highly absorbent and virtually lint-free
- All sterile towels are CSR-wrapped and have a special corner fold that allows for aseptic presentation into a sterile field
- Not made with natural rubber latex
- 17" x 27"
- Blue

Povidone-Iodine Swabsticks and Prep Pads

Sterile

- Topical antiseptic used for skin preparation that helps to reduce bacteria that can cause infection
- Saturated with 10% USP povidone-iodine prep solution (equivalent to 1% titratable iodine)
- Not made with natural rubber latex

Single Pack, 4"L	
(570-1549)	25 pkg/box
Contains: 1 swabstick per pkg.	

Triple Pack, 4"L	
(570-1548)	25 pkg/box
Contains: 3 swabsticks per pkg.	

Single Pouches, 1½" x 1½", Folded	
(570-1543)	1000/case
Contains: 1 per pouch.	

Spinal & Epidural Needles

MYCO MEDICAL

Reli® Brand needles are the value alternative to leading brands and offer superior quality in a broad range of sizes.

- Precision-point computerized grinding provide sharp, consistent needles
- Large, clear hubs for enhanced tactile feel and visualization of CSF
- Exact fit between stylet and cannula bevel to minimize coring and trauma
- Metric markings and echogenic stylets for improved depth visibility
- Color-coded stylet caps for easy identification of needle gauge

ChloraPrep™ Patient Preoperative Skin Preparation with Sterile Solution™

BD

ChloraPrep is the only commercially available, fully sterile chlorhexidine gluconate (CHG) antiseptic skin prep available in the U.S., with innovations designed to help improve patient safety. With assured product sterility beyond current clinical guidelines, clinicians can provide the best quality of care to their patients. Our broad portfolio also enables the standardization of antiseptic care for all procedures in a facility.

- Sterile solution: Patented sterilization process of the antiseptic solution achieves a minimum sterility assurance level (SAL) of 10-6
- Sterile delivery: The sterile, single-use applicator facilitates aseptic touchless technique by moving the clinician's hand away from the patient's skin, helping to reduce the risk of extrinsic contamination
- Proven efficacy: The FDA-approved dual antiseptic of 2% chlorhexidine gluconate (CHG) + 70% isopropyl alcohol (IPA) kills bacteria more effectively than single agents, providing both immediate and persistent activity
- Preoperative indication: The only CHG and IPA skin antiseptic to offer 2-log reduction for dry sites, and 3-log reduction for wet sites, on its entire portfolio

ChloraPrep™ Applicator

E-Z Scrub® Premium Surgical Brushes BD

Sterile, 30 Scrub Brushes/Dispenser

This line of products offers a wide range of efficacious antimicrobial formulations specifically designed to enhance performance as they reduce irritation to skin.

- Proprietary polyethylene soft bristles enhance mechanical action while reducing skin irritation
- Soft sponge provides gentle cleaning on irritated areas or when firm mechanical action is not required
- Ergonomic brush design allows greater user comfort and effectiveness, ultimately improving compliance

With PCMX, Deluxe (787-0287)	30/box
With 4% CHG (987-6022)	30/box
With Iodophor (780-3379)	30/box

ChloraPrep™ Patient Preoperative Skin Preparation

BD

Sterile

- 2% chlorhexidine gluconate (CHG) with 70% isopropyl alcohol
- CHG has demonstrated a 50% reduction in the incidence of catheter-related bloodstream infections, compared to povidone iodine
- Rapid activity against gram-positive and gram-negative bacteria
- Nonlatex, nonallergenic tip
- Convenient packaging
- Maintains a 2-year shelf life

1.75-mL Swabstick, Single (147-3823)	48/box
5.25-mL Swabsticks, Triple (147-3826)	40/box

EcoVue® HV Ultrasound Gel

EcoVue HV Ultrasound Gel is a **high viscosity formulation** for procedures that demand a thicker gel with even more staying power — suitable for musculoskeletal (MSK) ultrasound and other orthopedic procedures.

- 99% natural formula
- Dye-, paraben-, and propylene glycol-free
- Provides exceptional glide and image quality
- Also available in standard viscosity
- Made in the USA

		Item #	Description	Single or Multi-Use	Packaging

TOPICAL SKIN ADHESIVE - OCTYL

High-Strength 2-Octyl Cyanacrylate Formulation

Advantages

Rapid set time

Flexibility without a plasticizer

Ergonomic ampule designed for ease of handling and targeted application

Provides an effective microbial barrier and water-resistant protection

High tensile strength

Unique formulation will not solidify in ampule, allowing all .5 ml to be used

Gravity fed applicator delivery system - no need to squeeze ampule

Glass-free reservoir containing 0.5mL of Topical Skin Adhesive

Rigid sleeve helps prevent bending of applicator during adhesive application

Angled applicator tip changes color in the presence of adhesive

Perforation in the middle, allowing ease of adhesive flow

Additional Information

Polymerization starts when adhesive comes in contact with tissue or fluid.

All 0.5 ml of adhesive can be used on the patient, as adhesive will not solidify in the ampule.

Topical Skin Adhesive will remain attached to the skin surface until natural cellular regeneration occurs (approx. 5-7 days). If needed, any standard adhesive remover product may be used to release the adhesive from the skin. Peel off the film, do not pull the skin apart.

Henry Schein® Topical Skin Adhesive - Octyl

0.5mL ampules, 12/box.....(570-3554)

TOPICAL SKIN ADHESIVE - BUTYL

Strong Bonding and Reliable Protection

- Sterile, single-use plastic ampules of liquid skin adhesive consisting of n-butyl-2-cyanoacrylate
- Antibacterial barrier protects the wound
- Applicator tips provide precise, controlled application
- Will not clog or dry when opened
- Blue liquid color option available to enable easy control over quantity applied

EASY-TO-USE APPLICATION

Open the package and take out the tip.

Open the ampule by twisting off the ribbed tip.

Apply the tip to opened ampule.

Apply the glue in a thin layer to the wound edges and hold in position for 60 seconds.

DERMABOND™ PRINEO™ Skin Closure System

The strength, flexibility, and antimicrobial protection of DERMABOND ADVANCED™ Topical Skin Adhesive with the added support and security of self-adhering mesh^{2-8*}

Protection and Strength

- Provides a flexible microbial barrier with 99% protection in vitro for 72 hours against organisms commonly responsible for SSIs^{4,22†‡}
- Incisions closed with DERMABOND PRINEO System (22 cm) were ~40% stronger than subcuticular 4-0 suture^{1,9§}

For complete indications, contraindications, warnings, precautions, and adverse reactions, please reference full package insert.

*As demonstrated in vitro.

†Challenge organisms included Staphylococcus epidermidis, Escherichia coli, Staphylococcus aureus, Pseudomonas aeruginosa, and Enterococcus faecium.

§Study performed ex vivo.

#Clinical significance unknown

WOUND CLOSURE

Ethicon® Plus Antibacterial Sutures J&J MEDTECH SURGERY

These sterile, synthetic, absorbable, surgical sutures contain triclosan, a broad-spectrum antibacterial agent. Used extensively for nearly 50 years, triclosan is an antimicrobial agent that coats the sutures as an added layer of protection. Available in 3 absorbable polymers: PDS (monofilament), Monocryl® (monofilament), and Vicryl® (multifilament braided) in a broad array of sizes, lengths, and needle types.

#VCP416H, 3-0 Coated Vicryl® Plus Undyed, 1" x 27", SH (840-0998).....	36/box
#MCP427H, 3-0 Monocryl® Plus Undyed, 1" x 27", PS-2 (654-9300).....	36/box
#MCP426H, 4-0, Monocryl® Plus Undyed, 1" x 27", PS-2 (654-5371).....	36/box
#MCP494G, 4-0 Monocryl® Plus Undyed, 1" x 18", P-3 (654-1377).....	12/box

Dermabond™ Prineo™ Skin Closure System J&J MEDTECH SURGERY

Combines a sterile, 2-octylcyanoacrylate liquid topical skin adhesive with a self-adhering mesh (not made with natural rubber latex) for closure of surgical incisions and simple lacerations. A noninvasive alternative to skin sutures and staples.

#CLR222US, 22 cm (122-7672).....	2/box
Contains: 2–3.8-mL pens & 2 self-adhering mesh.	
#CLR422US, 42 cm (136-5543).....	2/box
Contains: 2–3.8-mL pens & 2 self-adhering mesh.	
#CLR602US, 60 cm (116-5081).....	2/box
Contains: 2–3.8-mL pens & 2 self-adhering mesh.	

Dermabond Advanced® Topical Skin Adhesive J&J MEDTECH SURGERY

- Unique formulation with an easy-to-use applicator for precise control for wide- and fine-line applications
- Angled tip for both fine and wide applications up to 15 cm
- Innovative applicator designed to easily activate and avoid clogging
- Provides greater control

0.36-mL Mini (654-0034).....	12/box

Wound Closure Strips HENRY SCHEIN®

- Adhesive wound closures with an exceptionally porous, spun-bond fiber backing include bilateral nylon filaments for high tensile strength
- To be used in addition to or in place of sutures
- Each size is in a color-coded package for quick and easy size identification
- Medical-grade adhesive properties: Affords excellent adhesion, resistance to moisture, superior longevity, and is gentle to the skin
- Hypoallergenic: Designed for patient comfort and longer-term exposure
- Not made with natural rubber latex

1/8" x 3" (900-4317).....	250/box
Contains: 5 strips per envelope, 50 envelopes per box.	
1/4" x 3" (900-4315).....	150/box
Contains: 3 strips per envelope, 50 envelopes per box.	
1/4" x 4" (900-4318).....	500/box
Contains: 10 strips per envelope, 50 envelopes per box.	
1/4" x 1 1/2" (900-4316).....	300/box

1" x 4" (900-7506).....	100/box
Contains: 4 strips per envelope, 25 envelopes per box.	

Disposable Skin Stapler HENRY SCHEIN®

- Enables user to work with higher efficiency and assists in avoiding cross infection effectively
- Specially designed for surgical skin suturing
- Novel structure and application security allow quick speed when sewing up during operation, modest histological reaction, and good wound matching and healing
- No pain during removal
- Scarring is minimal

Surgical Sutures

From A Name You Can Trust.

Maxima® Sutures by Henry Schein®

POLYLITH CARD

Helps reduce moisture content, an advantage with absorbable suture materials that degrade by hydrolysis.

NEEDLE PARK

Two needle parks to accommodate a wide range of needle types, sizes, and double-arm sutures. Needle park also protects needles from damage.

RACETRACK FEATURES AND BENEFITS

LARGER DIAMETER

Larger overall diameter to ensure less suture memory and minimize the number of suture rotations around track.

PRESS-PUSH NEEDLE LIFT

The tab, when pressed from behind, lifts for easy needle removal.

- Silicone-coated 300 series stainless needles give finer point geometry for superior penetration
- Precision needles are strong enough to resist bending, yet ductile enough to resist breaking
- Racetrack packaging helps reduce material memory as the suture is released from the track
- Large breadth of suture and needle combination for a range of surgeries
- Significant cost savings for your clinic compared to the leading brand

COLD STORAGE

i.Series® iPR120-GX Pharmacy Refrigerator HELMER SCIENTIFIC

20.2-cu-ft Capacity, Glass Door, 2 to 10°C

GX Solutions and the i.C3® Information Center set i.Series® models apart by providing a professional medical-grade refrigerator with advanced monitoring and control. This pharmaceutical-grade refrigerator is designed for storing medications, vaccines, and other pharmaceuticals. It is NSF/ANSI 456 vaccine storage-certified and provides superior stability, uniformity, and recovery. It also has the added benefits of quiet operation, low heat output, and energy savings, all thanks to the advanced OptiCool™ technology.

- Provides continuous temperature monitoring, event logs, temperature graphs, and more
- Designed specifically for the central pharmacy, medication rooms, clean rooms, satellite locations, and outpatient clinics
- 50–65% more efficient than traditional technology
- Quiet operation (47 dB) to create fewer distractions and better working environment
- Audible and visual alarms include power failure, high- and low-temperature alarms, door ajar, condenser temperature, and low battery
- Includes Certificate of Calibration generated with an ISO 17025 reference thermometer
- Energy Star® certified

General-Purpose Freestanding Undercounter Refrigerator AMERICAN BIOTECH SUPPLY (ABS)

Intended for general-purpose applications only where precise temperature control and maintenance are not essential and there are no requirements for temperature alarms.

- Swing door with keyed door lock
- 3 shelves (1 fixed/2 adjustable)
- Interior light
- HFC-free refrigerant (R600A), foam insulation, and packaging
- UL/C-UL listed
- Temperature range: 0°C to 10°C
- Capacity: 5 cu ft
- Exterior dimensions: 20¼"W x 22" D x 31½"H
- 1-year parts and labor warranty

This unit must have 4" clearance on sides and back for adequate ventilation.

High-Performance Undercounter Medical Freezer PHC CORP OF NORTH AMERICA

Designed to maintain temperatures between 5°F and -13°F (-15°C and -25°C) with a tight uniformity of ±5°C for storing critical vaccines and biologics, this model is engineered to meet CDC guidelines in a small footprint. Precise temperature control and uniformity protect vaccine and biologic viability whether the unit is loaded or empty.

- Capacity: 5 cubic ft
- 3 coated steel wire shelves: 19.2" x 14.75"
- Temperature control range: 5°F to -13°F (-15°C to -25°C) in 0.1°C increments
- Alarms: high/low temperature
- Refrigerant: 6-600a
- Door swing: right hinge
- Exterior dimensions: 34.1"H x 23.8"W x 23.7"D
- Interior dimensions: 25.6"H x 19.9"W x 17.1"D

Pharma-Vac Performance Series Vaccine Refrigerators ACCUCOLD

This line of refrigerators supports meeting regulations and guidelines from the CDC, State Agencies, World Health Organization, and other health ministries on vaccine storage and handling. Designed with a hydrocarbon refrigerant, they provide an energy-efficient solution to vaccine storage. Units are Pyxis, Omnicell, and AcuDose RX compatible.

- Certified to the NSF/ANSI 456 Vaccine Storage Standard
- Adjustable-cycle defrost operation ensures the unit avoids temperature spikes and ice buildup
- Battery-powered alarm sounds if the power connection is interrupted
- Digital controls with a large LED readout in Celsius or Fahrenheit for intuitive temperature management
- Multiple shelf positions spaced at ½" to accommodate virtually any size
- Ecofriendly hydrocarbon-based refrigerant for a greener footprint that meets current CARB regulations
- Environmentally friendly design without ozone-damaging chemicals

AVANOS

**SOL-CARE™ Luer-Lock Syringes
with Safety Needles
SOL-MILLENNIUM**

Allows for single-handed activation of safety feature. Safety mechanism is an integrated part of the needle and provides an audible click to indicate safety activation. Can be used with any standard Luer-lock or slip-tip syringes. Bevel-up needle allows for low-angle injections. Once activated, needle remains securely fastened via a double-lock mechanism.

#12558SN, 1 mL, 25 ga x 5/8", Orange (138-7044)	50 per Box
#12515SN, 1 mL, 25 ga x 1 1/2", Orange (139-6166)	50 per Box

#32310SN, 3 mL, 23 ga x 1", Blue (138-6999)	50 per Box

**SOL-CARE™ Safety Needles
SOL-MILLENNIUM**

This needle-based safety device helps users easily convert from non-safety to safety, protecting health care workers from exposure to needlestick injuries. The standard hub is compatible with all standard Luer-tip syringes, while the reduction of extra dead space minimizes medication waste. An audible click confirms activation of the safety mechanism.

Safety Hypodermic Needles and Syringes

From a Name You Can Trust.

Features & Benefits:

- 3 single-handed safety activation methods: hard-surface, thumb, or finger
- Double-locking mechanism with an audible "click"
- Needle hub-compatible with all standard Luer lock and Luer slip-tip syringes
- ISO color coded—easy and quick identification of the needle gauge
- Bevel-up needle—allows for low-angle injections
