**PRACTICE
PINK™**

HENRY SCHEIN®

Practice Pink

Now in its 18th year, Henry Schein's "Practice Pink" program has donated more than \$2 million in the fight against breast cancer and ALL cancers. This year, Henry Schein Cares is once again supporting nonprofits through the "Practice Pink" program.

As part of this program, products featured in this supplement will raise awareness of the important work each of the following organizations is doing to fight this deadly disease:

American Cancer Society (ACS)

The American Cancer Society helps save more lives from cancer, every day and in every community. Through our support of ACS, Henry Schein is helping to ease the cancer burden by supporting breakthrough research, evidence-based guidelines and trusted information, and expanding patient support services. For nearly eighteen years, a centerpiece of this amazing partnership has been Henry Schein Cares' donation of personal care kits to guests of the Society's network of Hope Lodge's, places of comfort that offer cancer patients and their caregivers a free place to stay when their best hope for effective treatment is far from home. We consider ourselves proud partners of this important work.

Stony Brook Children's Hospital

Stony Brook Children's Hospital is a leading advanced pediatric specialty care hospital that offers a full range of comprehensive medical services for infants, children, and young adults, providing leading-edge diagnosis, treatment, and management of childhood conditions, illnesses, and injuries.

Oral Health Navigator Program at Cohen Children's Medical Center

The Henry Schein Oral Health Navigator Program is designed to help young patients avoid oral health-related complications during cancer treatments. The "Oral Health Navigator" provides a Patient Service Assistant to help young patients fighting cancer create a plan to improve their oral health. Poor oral health can complicate and even delay the provision of cancer treatment. The Oral Health Navigator facilitates a plan to achieve optimal oral health for each patient by working closely with hematologists, oncologists, and dentists through diagnosis, evaluation, and treatment. The program is based at the Cohen Children's Medical Center, in New Hyde Park, New York, a leading provider of pediatric oncology care and part of the Northwell Health System.

Advocacy, Research Patient Support:

The American Cancer Society tackles it all.

ADC is proud to be a partner in these efforts, donating 10% from the sale of our breast cancer awareness line of products.

Your support makes a difference.
