Delivering outstanding urgent care means being ready for anything—any day, any time.

In today’s fast-paced healthcare environment, urgent care providers are expected to deliver efficient, high-quality care to a growing number of patients, often under tight timeframes and unpredictable conditions. At **Henry Schein Medical**, we recognize the unique challenges you face and are committed to helping your clinic stay well-equipped, responsive, and prepared for whatever comes through your doors.

That’s why we offer a broad portfolio of essential medical supplies and innovative solutions designed specifically for urgent care settings. From foundational items like exam gloves, disinfectants, and specimen collection supplies to rapid diagnostic tools, flu tests, and respiratory care products, we provide the resources you need to support accurate, timely care—while maintaining a safe and efficient clinical environment.

Whether you’re expanding services, optimizing patient flow, or reinforcing infection prevention protocols, Henry Schein Medical is here to support your mission. Our goal is to help you care for more patients with greater ease, confidence, and consistency—so you can focus on what matters most: delivering exceptional care when it’s needed most.

IQVitals® Zone™ Vital Signs Wireless Monitor
MIDMARK

The only wireless vital signs monitor that automatically connects to a computer using zero clicks, importing data directly into the EMR to eliminate manual transcription errors. Using Midmark Zone™ technology, the IQVitals wireless monitor connects to a computer without cables or manual pairing. The Serenity BP™ linear deflation system, designed by Midmark, delivers quick and accurate measurements while ensuring greater comfort for the patient. All functions can be operated at the point of care via the computer or the user-friendly touchscreen. Each IQVitals Zone device includes an Exergen TemporalScanner™ thermometer.

Key features:

- Rechargeable lithium-ion battery
- Non-invasive oscillometric blood pressure method
- Exergen TemporalScanner infrared thermometer
- Masimo or Nellcor SpO₂ measurement options
- 3 mounting options to suit any workflow

GAMMA™ G5 Aneroid Sphygmomanometer
MIDMARK

This sphyg sets the standard for reliability and durability in its class. Its core design features a robust housing and spoon, crafted from high-strength, impact-resistant, 2-component thermoplastic. Premium construction ensures long-lasting performance, even under demanding conditions. Its innovative shock-absorbing system is meticulously designed to safeguard the device against impact and vibration. This intricate system not only enhances durability, but also ensures precise and consistent performance over time.

Reusable Blood Pressure Cuffs
MIDMARK

Designed for use with the Midmark Digital Vital Signs Device, these cuffs combine durability, precision, and patient comfort. Engineered to be leak-resistant and long-lasting, they deliver consistent, accurate, dependable readings. Crafted with patient care in mind, they provide a comfortable fit, ensuring a positive experience for both clinicians and patients. Available in a variety of sizes to accommodate a broad range of patients, they are an economical and practical solution for health care providers seeking high-quality performance and versatility.

© 2025 Midmark Corporation, Versailles, Ohio USA

Getting to Know the Standard

Accessible equipment can make a crucial difference in patient outcomes and caregiver safety. Are your exam and procedure chairs compliant?

- 01 Seat Height:** 17" or lower and 25" or higher
- 02 Transfer Surface:** 21" wide and 17" deep
- 03 Base Clearance:** 26" wide or less
- 04 Transfer Supports:** $1\frac{1}{2}$" from surface edge, capable of supporting transfer on each side, >math>15\frac{1}{2}</math>" long, 6" - 18" high, 1 $\frac{1}{4}$ " - 2" grip diameter, continuous gripping surface
- 05 Leg Supports:** Supports the patient's thigh, knee and calf

626 Barrier-Free® Examination Chair MIDMARK

Many health care providers are not aware of current standards for proper blood-pressure measurement. If this isn't addressed, it leaves health systems at serious risk. 9.8% of the population is affected by overestimation of high blood-pressure errors. Multiply the cost of treatment for hypertension by the typical patient panel size and the cost of overtreatment could be as much as \$135,000 per each practicing physician. The impact of overmedication can also result in complications such as dizziness, fainting, exhaustion, or even patient falls. The Midmark 626 is the first exam chair of its kind designed to promote proper patient positioning for a more accurate blood-pressure measurement.

- Easily position patients for a better BP measurement
- Powered movement of the back section ensures the patient's back is supported
- A Barrier-Free® low chair-height allows the majority of patients, even female patients with heights in the 3rd percentile, to place their feet flat on the floor

#626-001, Base Model (133-0301)	ea
#626-002, With Heated Upholstery (133-0312)	ea

#626-004, With Heated Upholstery and Scale (133-0334)	ea

Ritter® 225 Barrier-Free® Examination Chair MIDMARK

The number of elderly and obese in the U.S. is steadily growing, and over one fifth of adults in America are disabled.

Assisting patients with mobility limitations onto exam chairs has become a frequently performed task. Although caregivers working in health-care facilities are in one of the most at-risk professions for musculoskeletal disorders, little has been done to evaluate and reduce risk. The Ritter 225 is designed to offer low and high positioning heights so you can provide the best care to all patients, whether treating the elderly, expectant mothers, or patients with disabilities.

#225-002, Without Clean Assist Roller System (133-0279)	ea
#225-003, With Clean Assist Roller System (133-0290)	ea

830 Series Procedure Chair

MTI

The highly versatile 830 Series chairs are ADA compliant in all base versions (standard, swivel, or mobile) using the transfer support, providing easy patient ingress/egress, and equal access for patients with disabilities and caregivers. All 830 chairs come equipped with SmartTech™ technology to enhance safety, reduce energy consumption, and provide smoother movement, additional memory options, and more user preferences.

- 725-lb patient load capacity
- 4 programmable positions
- Programmable home and ADA-compliant home positions
- Power lift, back, tilt, and foot extension
- Hand and foot controls
- Oval articulating headrest
- 22" or 25" seat width
- 18¾"-39" seat height
- Leg rest features knee-break with 7" power foot extension
- Optional patient arms: removable, floating (compensating) arms, or seat rail or back rail mounted arms
- Removable upholstery: seamless or designer
- Tapered backrest for easier caregiver access
- Sturdy all-steel frame
- Multiple G2 accessory options

Ultra™ Sensitive Face Masks Level 3 CROSSTEX

Exceeds ASTM's fluid-resistant performance class specifications as a high-barrier medical face mask: PFE 99.75% at 0.1 micron; layer for sensitive skin that will NOT lint, tear, or shred, combined with a high-filtration filter media. Entire mask is void of all inks, dyes, and chemicals to avoid any potential skin sensitivity. Secure Loop™ ear loops are sonically attached to outside of mask to eliminate another source of skin irritation.

Full-length aluminum nosepiece. Not made with natural rubber latex.

Office Pack	
(107-7191).....	50/box

Procedural Face Masks with SecureFit™ Technology Level 2

CROSSTEX

Same excellent features as the Procedural Mask but offers a tighter custom fit for enhanced protection. Its full-length aluminum nosepiece and 3" aluminum chin piece help create a seal that significantly reduces gapping at the bottom and sides of mask. Not made with natural rubber latex. Made in the USA.

CaviWipes™ Bleach METREX

CaviWipes Bleach with patent-pending Enhanced Chlorine Technology™ (ECT) are multipurpose cleaning wipes that are gentle on surfaces, yet tough on pathogens. They also meet the CDC recommended 1:10 bleach dilution.

- Kills *C. diff* in 3 minutes—no other surface wipe is faster
- No personal protection equipment is required. (Special instructions for cleaning prior to disinfection against *Clostridium difficile* spores, HIV-1, HBV, and HCV.)
- Compatible with most medical device equipment (See medical device equipment manual for compatibility information.)
- One-step cleaner and disinfectant
- Low odor

#13-9100, 6" x 10½"
(129-6430).....90/canister

CaviWipes™ METREX

Durable, non-woven, nonabrasive towelettes that offer quick, easy-to-use, time-saving convenience. Recommended for use on nonporous surfaces and fixtures.

- Kills TB in 3 minutes and MRSA, HIV-1, HBV and HCV in 2 minutes
- Effective against odor-causing organisms on hard, nonporous surfaces
- All-in-one cleaner and disinfectant

Easy Screen™ Cleaning Touch-Screen Wipes PDI

Compatible with touch-screen healthcare equipment, including tablets, electronic medical record equipment, and OR and procedural lights. Works on smooth as well as etched glass, acrylic, and stainless steel surfaces. Rapidly cleans dirt, grime, fingerprints, and smudges with the cleaning power of 70% isopropyl alcohol (IPA). Antifogging and antistreaking, fast drying, and leaves no residue.

Large, 6" x 9"
(125-0248).....70/cont

Super Sani-Cloth® Germicidal Disposable Wipes PDI

Effective against 32 microorganisms in 2 minutes, including multi-drug-resistant organisms (MDROs), bloodborne pathogens, TB, and viruses. Fast contact time allows for a quick room turnover; compatible with a broad range of surfaces and equipment in health care. Meets CDC, OSHA, and infection control guidelines. Quaternary ammonium and IPA formulation. Contains 55% alcohol. EPA-registered intermediate-level disinfectant.

- Quaternary/high-alcohol formula: 55%
- Bactericidal, tuberculocidal, and virucidal
- One-step cleaner/disinfectant (however, a precleaning step is required for blood and body fluids)

- Kills a broader range of bacteria and viruses including TB and RSV in 1 minute; HBV and HIV-1 in 2 minutes; and MRSA, VRE, *Staphylococcus aureus*, *Pseudomonas aeruginosa*, *E. coli*, *Klebsiella pneumoniae*, adenovirus Type 5, *Rhinovirus vaccinia*, influenza A2/Hong Kong, and herpes simplex type 2 in 5 minutes
- Also kills *Candida albicans* and rhinovirus
- Unique deep-well lid seals securely to prevent moisture loss

The Right Tape for the Right Care

As a living breathing organ, our skin behaves differently from person to person, making selecting the correct wound care supplies essential to proper care.

Elastic Tape

Strong adhesive with stretchable, flexible elasticity. Cut with scissors after application.

Cloth Tape

The standard and most versatile medical tape, cloth medical tape, is a durable option designed for strength. Easy to tear, designed for bilateral tearing without the need for scissors. The gentle adhesive will leave minimal residue on skin.

Soft Cloth Tape

Soft cloth medical tape is a flexible option that conforms and moves with the patient. Can accommodate swelling and the gentle adhesive has minimal impact on skin.

Transparent Tape

A high-quality, porous, clear medical tape perforated for added breathability and bidirectional tearing. Transparent medical tape conforms and stretches to accommodate movement making it excellent for IV sites, dressings, and tubing retention.

Paper Tape

Gentle on skin, lightweight and microporous, and won't harm delicate wounds, paper medical tape is a great option for delicate or elderly skin. Will hold even when wet.

Waterproof Tape

Seen primarily in the industrial safety market and first aid kits, waterproof tape has a more aggressive adhesion while retaining self-tearing properties for easy application.

Retention Tape

Retention tape is a soft and flexible medical tape ideal for difficult-to-tape areas. It provides light compression without constriction and is perforated every two inches for ease of use. The printed grid pattern on the s-curve release liner allows for greater wound reference and monitoring, while allowing simple removal of the liner even when wearing gloves.

Serving US healthcare providers for over 30 years, Dukal's trusted and extensive line of medical tapes ensures clinicians have the right product for the right care.

Medical tapes and wraps

Drive efficiency in your clinical practice and reduce tape SKUs

A choice that's critical to care. At Solventum, formerly 3M Health Care, we've made it easy to choose the right securement for each patient and application, with four classes of securement that can work harder and smarter.

Non-adhesive

3M™ Coban™ NL Non-Latex Self-Adherent Wrap* →

Non-adhesive securement for clinical applications such as blood draws, dressings, immobilization, securement for difficult to dress areas (head, fingers, toes) and support and mild compression for soft tissue injuries (i.e. strains, sprains).*

Multi-purpose

3M™ Micropore™ S Surgical Tape* →

Multi-purpose securement for clinical applications such as blood draws, light-weight dressings, IV lines and tubing (secondary securement) and non-critical tubes.

Flexible

3M™ Medipore™ H Soft Cloth Surgical Tape →

Flexible securement for clinical application such as dressing and added pressure, IV lines and tubing (secondary securement), when swelling or movement is anticipated, central venous catheters (secondary securement), chest tubes and surgical drain tubes.

High-adhesion

3M™ Durapore™ Surgical Tape →

High-strength securement for clinical applications such as urinary catheters, nasogastric tubes, orogastric tubes and patient positioning.

Contact your Henry Schein representative or visit [Solventum.com/MedicalTapes_Wraps](https://www.solventum.com/MedicalTapes_Wraps) to learn more

*Skin performance: Designates products that deliver the securement power you need while minimizing damage to skin.
*May use as a component in a compression wrap system support only under supervision of a wound care specialist.

Aircast® AirSelect™ Short Walking Boot DJO

Offers a solution to a number of indications related to forefoot, midfoot and hindfoot injuries, as well as some ankle injuries.

Has a durable, semi-rigid shell that helps support the limb while providing protection. The preinflated front panel and 2 adjustable distal air cells, housed within the shell, provide compression and support. SoftStrike technology absorbs and dissipates shock, while the lightweight and lab-tested rocker sole combine to encourage a natural gait and a continuation of everyday activities.

Main indications:

- Metatarsal fracture
- Stress and stable fracture of the foot
- Bunionectomy, hallux valgus
- Soft tissue injury
- Severe ankle sprain

- #79-84007, Large, 8½"D x 17½"L (120-0628)
- #79-84008, X-large, 9"D x 20"L (120-4568)

Surround® Gel Ankle DJO

- Rigid thermoplastic shell with adjustable heel strap to prevent inversion/eversion
- Air and gel bladder may be used for cold therapy to treat tender or swollen ankles
- Suitable for wear from acute to active phases of ankle recovery and rehabilitation

- #79-97863, 8½", Small (600-5874)..... ea
- #79-97865, 9", Trainer (676-7667)..... ea
- #79-97867, 10", Regular (233-9885)..... ea

Instant Cold Compresses

- Single squeeze allows for easy activation of packs
- Provides immediate relief to injured area
- Ideal for minor sprains, swelling, aches, sore joints, burns, nosebleeds, and headaches
- Flexible material conforms to body contours
- Single use
- Non-sterile
- No refrigeration needed

- 5" x 5½" (112-6147)..... 50/case
- 5" x 7" (112-6146)..... 48/case
- 6" x 9" (112-6145)..... 24/case

Instant Heat Compresses

- Squeeze to activate
- Maintains therapeutic heat for up to 20 minutes
- Recommended for muscular pain relief
- Helps improve circulation
- Conforms to body contours
- Flexible material
- Disposable: one-time-use only
- Non-sterile

- 6" x 8¼" (499-0813)..... 24/case

Reusable Cold or Hot Gel Packs

- Easy to use: freeze for cold therapy, microwave for hot therapy
- Different styles and sizes make application easy
- Nontoxic and environmentally friendly
- Effective hot/cold therapy is a proven pain reliever—used to relieve arthritis and joint pain, muscle strains, and stiffness
- Can be washed easily and remains odor- and bacteria-free
- Remains soft and flexible when frozen
- Contours readily to all parts of the body
- Not made with natural rubber latex
- Non-sterile

- 4" x 6½" (570-2140)..... ea
- 5¼" x 10" (570-2139)..... 24/case

Aluminum Crutches

- Push-pin adjustment makes it easy to adjust crutch height in 1" increments
- Nonskid, jumbo-size, vinyl-contoured tips provide excellent traction
- Easy wing-nut adjustments for hand grips
- 300-lb weight capacity on aluminum crutch

- Crutches..... pair
- Specify:
- Youth, Patient Height: 4'6"–5'2", Crutch Height: 37"–46" (570-1466)
- Adult, Patient Height: 5'2"–5'10", Crutch Height: 45"–53" (570-1464)
- Tall Adult, Patient Height: 5'10", Crutch Height: 53"–61" (570-1465)

Non-Fenestrated Drapes

Sterile, Polylined, Tissue/Poly/Tissue

- Heat sealed along 2 outer edges to ensure a pinhole-free plastic layer that guarantees maximum protection against bacterial strike-through from below
- Features polyethylene lining between 2 layers of absorbent-strength tissue, virtually eliminating risk of bacterial migration and strike-through
- Using blue-tissue side up prevents glare
- All sterile fields are available in convenient dispenser boxes of 50 each

White, 18" x 26"
(900-4686).....50/box

Fenestrated Drapes

Sterile, with 3" Round Fenestration
Tissue/Poly/Tissue

- Allows access to the operative site while it protects surrounding area
- 3" round fenestration option is die cut and heat sealed, leaving a smooth, even edge that prevents linting
- Not made with natural rubber latex

White, 18" x 26"
(900-4685).....50/box

COLD STORAGE

Pharma-Vac Performance Series Vaccine Refrigerators **ACCUCOLD**

This line of refrigerators supports meeting regulations and guidelines from the CDC, State Agencies, World Health Organization, and other health ministries on vaccine storage and handling. Designed with a hydrocarbon refrigerant, they provide an energy-efficient solution to vaccine storage. Units are Pyxis, Omnicell, and AcuDose RX compatible.

- Certified to the NSF/ANSI 456 Vaccine Storage Standard
- Adjustable-cycle defrost operation ensures the unit avoids temperature spikes and ice buildup
- Battery-powered alarm sounds if the power connection is interrupted
- Digital controls with a large LED readout in Celsius or Fahrenheit for intuitive temperature management
- Multiple shelf positions spaced at ½" to accommodate virtually any size
- Ecofriendly hydrocarbon-based refrigerant for a greener footprint that meets current CARB regulations
- Environmentally friendly design without ozone-damaging chemicals

GeneXpert® Xpress

CEPHEID

Unlock the Power of PCR at Point of Care
The Cepheid GeneXpert Xpress brings the power of CLIA-waived PCR testing to the physician office lab and beyond.

- CLIA-waived PCR testing: Flu, FLU/RSV, and Strep A
- Scalable design: 2-module and 4-module options available for customized throughput needs
- Random access: True on-demand, walkaway testing system that runs up to 4 tests at one time
- Operator and QC lockout: Customizable features to meet the needs of every practice
- Built-in redundancy: Each module operates as its own independent analyzer
- No specialized training or daily maintenance—simple to operate with minimal setup needs
- Bidirectional interface: Interface to LIS (HL7, ASTM) available

BDVeritor.com

**BD Veritor™ Plus System
 BD**

The wireless BD Veritor™ Plus System provides health-care providers and laboratorians in physician offices, clinics, hospitals, and integrated delivery networks (IDNs) with objective, lab-quality immunoassay test results within minutes. This fast and accurate solution streamlines the point-of-care (POC) diagnostic workflow and allows providers to quickly review patient results and determine the appropriate treatment in a single consultation. The new system can help detect infectious diseases such as influenza A and B, respiratory syncytial virus (RSV), and group A strep while the patient is still on site, which can enable faster decision-making for an earlier intervention opportunity.

- **Faster access to test results:** Help inform appropriate and targeted treatment decisions
- **Improved workflow:** The BD Veritor™ Plus Analyzer improves workflow with an Analyze Now or Walk Away mode, providing test results (with a print-enabled function) and aiding in decision-making while the patient is on site
- **Improved traceability:** The BD Veritor™ InfoScan module can scan 3 different identifiers (operator ID, specimen ID, and test kit/lot) that can be locally recorded, printed, or downloaded, and reduces hands-on time through automated documentation
- **Modularity:** Provides a unique solution to meet each testing site's preference
- **Connectivity:** BD Veritor™ InfoSync module provides the same benefits as BD Veritor™ InfoScan. Connects and documents tests results across multiple sites and can integrate with a hospital electronic medical record or laboratory information system
- **Advanced particle technology:** Enhances sensitivity by using a proprietary process to produce highly stable, modified colloidal metal particles
- **Adaptive read technology:** Compensates for background. Nonspecific binding helps improve specificity to reduce false-positive results

DASH® SARS-CoV-2 & Flu A/B Test

NUCLEIN

Provides qualitative PCR test results in 15 minutes at the point of care, allowing the user to test and treat with increased confidence in a single patient visit.

- FDA-cleared, CLIA-waived
- Sensitivity: SARS-CoV-2: 95.2%, Flu A: 94.3%, Flu B: 97.3%
- Specificity: SARS-CoV-2: 99.5%, Flu A: 98.1%, Flu B: 99.2%
- Anterior nasal swab sample collection rather than more invasive nasopharyngeal swabs
- Test up to 30 specimens per 8-hour shift*

#CN-0006, Test	
(148-3897).....	20/case
#CN-0008-CON, Control, Negative/Positive

*The DASH SARS-CoV-2 & Flu A/B Test requires up to 1 minute of hands-on time and has a 15-minute test time, which allows for up to 30 tests to be processed in a standard 8-hour workday.

**OSOM® Strep A Tests
SEKISUI**

Achieve fast results for better treatment. Aids in the diagnosis of strep A, preventing the unnecessary use of antibiotics.

- Simple to use: get easy-to-read results in 4 easy steps, with no need for additional equipment
- Trust the results: high sensitivity and specificity with results in just 5 minutes
- Easy-to-read, 2-color results: blue test line and red control line
- Collect and detect: qualitative detection of group A streptococci antigens from throat swabs; can also confirm presumptive group A streptococcal colonies recovered from cultures less than 72 hours old
- QC Inside™: 2 extra tests included at no additional charge to run external quality control testing for more confidence in the results
- Made in the USA

Cholestech LDX™ System

ABBOTT

Complete Lipid Profile, Glucose
Lab-accurate lipid profile and glucose results in about 5 minutes from a simple fingerstick. Allows provider to get results while patient is still in office—provider can counsel and intervene face-to-face. This improves patient compliance and increases control and management of heart disease and diabetes. Reimbursable by Medicare and most private payers.

- CLIA waived
- Procedure saves time and enhances productivity
- Small, tough, and portable
- Eliminates anxiety of venipuncture; requires only a fingerstick

- On-the-spot adjustment of therapy and improved patient compliance
- Accuracy comparable to laboratory tests
- Saves time: fewer follow-up visits required
- Enhances compliance through teachable moments between health care providers and patients

CardioChek® Plus Analyzer
HENRY SCHEIN®

Fast, Accurate, Efficient Lipid and Glucose Results at the Point of Care
Recognizing the strong connection between heart attack, stroke, and diabetes, the CardioChek® Plus Analyzer provides rapid, on-site blood-chemistry values and measurements to help identify at-risk individuals.

- Fast: On-site lipid and glucose results in as little as 90 seconds; simple, quality-control testing
- Portable: compact and lightweight, easy to transport and store; handheld and battery-operated; and room-temperature test strips
- Patient-friendly: fingerstick with sample size of 1.1 µL to 40 µL
- Wireless communication: easy data transfer
- Measures total and HDL cholesterol, triglycerides, and glucose
- Calculates LDL and non-HDL cholesterol as well as TC/HDL and LDL/HDL ratios
- Certified accuracy
- CLIA waived
- Meets NCEP guidelines for accuracy and precision
- FCC- and ISO-certified wireless communications
- CRMLN-certified for CHOL and HDL tests
- FDA cleared

Chemistry Analyzer**

ABBOTT

Three steps, 12 minutes. The Piccolo Xpress® chemistry analyzer allows health care practitioners to perform routine multichemistry panels using 0.1 cc—only 3 or 4 drops—of whole blood, serum, or plasma.

- Speed: Add the sample, insert the reagent disc, and in approximately 12 minutes receive a report suitable for the patient file or transferred to a computer, printer, or LIS/EMR.
- Ease: A fully automated system requiring no special operating skills.
- Exclusivity: Offers the only CLIA-waived comprehensive metabolic panel (CMP) blood test on the market.
- Accuracy: Self-calibrates with each run. The onboard continuous intelligent Quality Control (iQCT) monitors the analyzer, reagent reactions, and sample to ensure chemistry and instrument integrity.

#07P05-01, Piccolo Xpress® Chemistry Analyzer (106-6368).....ea

Urispec™ Urinalysis Controls

For Most Brands of Routine Urine Dip Sticks and Pregnancy Tests

A bilevel product packaged in plastic tubes and dropper bottles. Controls are liquid, ready-to-use, and are designed to validate urinalysis reagent strips. Packaged in plastic dip tubes and dropper bottles, they are convenient and easy to use. Long open- and closed-vial stability at 2°C–8°C for 2 years unopened, or 90 days once the Dip Control is opened, and 180 days once the Drop Control is opened. This allows the user ample time to utilize the product before expiration, resulting in cost savings.

Triage® System

QuidelOrtho™

Lab quality results at point-of-care speed. With its comprehensive menu, the Triage system is an easy-to-use system that provides the reliable diagnostic answers you need to make rapid, cost-effective treatment decisions at the point of care.

Easy to use for fast results

Runs whole blood, plasma or urine samples to generate quick results in 15-20 minutes. Patient sample testing is a simple three-step procedure with user-friendly test cartridges that are easy to manage.

Accurate lab quality results

Test cartridges utilize advanced microfluidics and internal controls for providing consistent accurate results. Its diverse immunoassay menu delivers reliable diagnostic answers for quantitative troponin I, CK-MB, myoglobin, BNP, NT-proBNP, d-dimer and qualitative TOX drug screen.

Learn more about the Triage system by visiting quidelortho.com, or reaching out to your Henry Schein representative.

New QuidelOrtho branding may not be available in all markets, subject to country-specific regulatory approval. Please confirm with your local commercial team.

cobas® liat system

Elevating point-of-care testing for every patient

Quick

Multiplex and singleplex assays with results in 15-20* minutes, enabling you to act now

Confident

Gold-standard PCR technology offers lab quality results whenever you need it

Made for the POC

An integrated system designed to bring testing closer to the patient and enable seamless connectivity and control

*Turnaround times vary by assay

Urisys 1100™ Urine Analyzer ROCHE

This CLIA-waived urine analyzer makes urine testing easier. With the simple press of a button, the analyzer automatically evaluates urine test strips and prints a patient report. This easy-to-use system is an ideal choice for physician offices looking to standardize test results and improve office efficiency through automated urinalysis testing. Uses Chemstrip® 7, 10 MD, and 5 OB strips.

- Made in the USA
- #03617556001
(146-7719)..... ea

Chemstrip® 10 MD Test Strips ROCHE

Intended to be used for visual testing or for automated testing on the Chemstrip® 101 urine analyzer and Criterion II urine analyzer. Measures blood, protein, leukocytes, nitrate, pH, glucose, ketones, bilirubin, urobilinogen, and specific gravity.

- Made in the USA
- #3260763
(891-4205).....100/btl

Chemstrip® GP Test Strips ROCHE

Test for glucose and protein.

- Made in the USA

(891-4564).....100/btl

Faster Results, Better Care

Streamline & Optimize Clinic Workflow With Same-Visit Chlamydia & Gonorrhea Testing

In the fast-paced world of urgent care, quick and confident clinical decisions are critical. With up to 40% of patients not returning to the clinic for follow-up treatment and care¹ same-visit diagnostics are vital to ensure appropriate care delivery. With the true test & treat model enabled by binx health, providing patients with an enhanced quality of care without adding additional stress to your staff, can be achieved in your urgent care.²

With the binx *io*, CT/NG test results are made available in minutes rather than days. A true test & treat model for chlamydia and gonorrhea can decrease the the risk of empiric treatment, loss to follow-up and further infection spread.^{3,4}

The binx *io* device is the first FDA (510k), CLIA-waived, molecular PCR CT/NG test for males and females in about 30 minutes enabling clinics to deliver central lab equivalent test accuracy, in-house.

Equip your staff with the resources to deliver timely, accurate, and reliable care decisions with binx health.

For more information, contact your local Henry Schein medical representative or visit henryschein.com/medical

Safety Hypodermic Needles and Syringes

From a Name You Can Trust.

Features & Benefits:

- 3 single-handed safety activation methods: hard-surface, thumb, or finger
- Double-locking mechanism with an audible “click”
- Needle hub-compatible with all standard Luer lock and Luer slip-tip syringes
- ISO color coded—easy and quick identification of the needle gauge
- Bevel-up needle—allows for low-angle injections

SOL-CARE™ Luer-Lock Syringes with Safety Needles

SOL-MILLENNIUM

Allows for single-handed activation of safety feature. Safety mechanism is an integrated part of the needle and provides an audible click to indicate safety activation. Can be used with any standard Luer-lock or slip-tip syringes. Bevel up needle allows for low-angle injections. Once activated, needle remains securely fastened via a double-lock mechanism.

Introcan Safety[®] 2 IV Catheter with Multi-Access Blood Control

Now enhanced with multi-access blood control to automatically reduce the risk of blood exposure during insertion and every time the hub is accessed*

The Introcan Safety 2 IV Catheter is intended for insertion into a patient's vascular system for short-term use to sample blood, monitor blood pressure or administer fluids and blood intravascularly. The catheters may be used intravascularly with power injectors at a maximum pressure of 325 psi with a Luer lock connection only.

TOPICAL SKIN ADHESIVE — OCTYL

High-Strength 2-Octyl Cyanacrylate Formulation

Advantages

Rapid set time

Flexibility without a plasticizer

Ergonomic ampule designed for ease of handling and targeted application

Provides an effective microbial barrier and water-resistant protection

High tensile strength

Unique formulation will not solidify in ampule, allowing all 0.5 mL to be used

Gravity fed applicator delivery system — no need to squeeze ampule

Glass-free reservoir containing 0.5 mL of Topical Skin Adhesive

Rigid sleeve helps prevent bending of applicator during adhesive application

Angled applicator tip changes color in the presence of adhesive

Perforation in the middle, allowing ease of adhesive flow

Additional Information

Polymerization starts when adhesive comes in contact with tissue or fluid.

All 0.5 mL of adhesive can be used on the patient, as adhesive will not solidify in the ampule.

Topical Skin Adhesive will remain attached to the skin surface until natural cellular regeneration occurs (approx. 5-7 days). If needed, any standard adhesive remover product may be used to release the adhesive from the skin. Peel off the film, do not pull the skin apart.

Henry Schein® Topical Skin Adhesive — Octyl

0.5 mL ampules, 12/box.....(570-3554)

Surgical Sutures

From A Name You Can Trust.

Maxima® Sutures by Henry Schein®

RACETRACK FEATURES AND BENEFITS

POLYLITH CARD

Helps reduce moisture content, an advantage with absorbable suture materials that degrade by hydrolysis.

NEEDLE PARK

Two needle parks to accommodate a wide range of needle types, sizes, and double-arm sutures. Needle park also protects needles from damage.

LARGER DIAMETER

Larger overall diameter to ensure less suture memory and minimize the number of suture rotations around track.

PRESS-PUSH NEEDLE LIFT

The tab, when pressed from behind, lifts for easy needle removal.

- Silicone-coated 300 series stainless needles give finer point geometry for superior penetration
- Precision needles are strong enough to resist bending, yet ductile enough to resist breaking
- Racetrack packaging helps reduce material memory as the suture is released from the track
- Large breadth of suture and needle combination for a range of surgeries
- Significant cost savings for your clinic compared to the leading brand

RELY ON US FOR QUALITY, SELECTION, PERFORMANCE, AND VALUE!

SUPERIOR POINT

Needles are honed with a unique multiedged point to provide greater ease of penetration.

SUPERIOR ATTACHMENT

Needles are drilled for a seamless needle-suture juncture, providing a smoother transition with less tissue disruption.

SUPERIOR PACKAGING

Unique double-sterile barrier packaging ends costly waste.

NON-ABSORBABLE SUTURES

Wound Closure Strips

- Adhesive wound closures with an exceptionally porous, spun-bond fiber backing include bilateral nylon filaments for high tensile strength
- To be used in addition to or in place of sutures
- Each size is in a color-coded package for quick and easy size identification
- Medical-grade adhesive properties: Affords excellent adhesion, resistance to moisture, superior longevity, and is gentle to the skin
- Hypoallergenic: Designed for patient comfort and longer-term exposure
- Not made with natural rubber latex

1/8" x 3" (900-4317).....250/box
 Contains: 5 strips per envelope, 50 envelopes per box.

1/4" x 3" (900-4315).....150/box
 Contains: 3 strips per envelope, 50 envelopes per box.

1/4" x 4" (900-4318).....500/box
 Contains: 10 strips per envelope, 50 envelopes per box.

3/4" x 1 1/2" (900-4316).....300/box
 Contains: 6 strips per envelope, 50 envelopes per box.

1/2" x 4" (900-4314).....300/box
 Contains: 6 strips per envelope, 50 envelopes per box.

1" x 4" (900-7506).....100/box
 Contains: 4 strips per envelope, 25 envelopes per box.

Disposable Skin Stapler

- Enables user to work with higher efficiency and assists in avoiding cross infection effectively
- Specially designed for surgical skin suturing
- Novel structure and application security allow quick speed when sewing up during operation, modest histological reaction, and good wound matching and healing
- No pain during removal
- Scarring is minimal

Skin Stapler, 35 Wide (570-2956).....ea

Skin Stapler, 35 Regular (570-2957).....ea

Skin Staple Remover (900-7011).....ea

What Makes This Box Special?

We ship over 141,000 boxes daily—
each made with up to 23% recycled content.

Sustainable Packaging,
Every Day
