IQvitals® Touch-screen Device
MIDMARK

This affordable, Windows®-based, touch-screen device provides automated blood pressure, temperature, SpO₂ and pulse rate readings with a touch of the screen. An alphanumeric keyboard allows for fast and easy entry of patient data, and the intuitive design increases productivity and simplifies staff training. IQvitals™ can be used as a stand-alone unit, connect to a computer with IQmanager® software, or will connect seamlessly to select EHR/EMRs.

GAMMA™ G5 Aneroid Sphygmomanometer
MIDMARK

The GAMMA G5 sets the standard for reliability and durability in its class. Its core design features a robust housing and spoon, crafted from high-strength, impact-resistant, 2-component thermoplastic. This premium construction ensures long-lasting performance, even under demanding conditions. The GAMMA G5's innovative shock-absorbing system is meticulously designed to safeguard the device against impact and vibration. This intricate system not only enhances durability, but ensures precise and consistent performance over time.

IQVitals® Zone™ Vital Signs Wireless Monitor
MIDMARK

The only wireless vital signs monitor that automatically connects to a computer using zero clicks, importing data directly into the EMR to eliminate manual transcription errors. Using Midmark Zone™ technology, the IQVitals wireless monitor connects to a computer without cables or manual pairing. The Serenity BP™ linear deflation system, designed by Midmark, delivers quick and accurate measurements while ensuring greater comfort for the patient. All functions can be operated at the point of care via the computer or the user-friendly touchscreen. Each IQVitals Zone device includes an Exergen TemporalScanner™ thermometer. Key features:

- Rechargeable lithium-ion battery
- Non-invasive oscillometric blood pressure method
- Exergen TemporalScanner infrared thermometer
- Masimo or Nellcor SpO₂ measurement options
- 3 mounting options to suit any workflow

Reusable Blood Pressure Cuffs
MIDMARK

Designed for use with the Midmark Digital Vital Signs Device, these cuffs combine durability, precision, and patient comfort. Engineered to be leak-resistant and long-lasting, they deliver consistent, accurate, dependable readings. Crafted with patient care in mind, they provide a comfortable fit, ensuring a positive experience for both clinicians and patients. Available in a variety of sizes to accommodate a broad range of patients, they are an economical and practical solution for health care providers seeking high-quality performance and versatility.

Improving Women's Health Better BP[®]

Recent data shows heart disease mortality rates are declining, yet improvements in women lag behind men—narrowing the gap between genders. Women now account for nearly half of heart disease-related deaths in the US.¹ Improving blood pressure measurement accuracy is vital to reducing women's risk. **That's why Midmark designed the first and only fully integrated point of care ecosystem that has been clinically validated to achieve improved accuracy for a resting BP.²**

- 01** Low-height exam chair helps patients keep their back supported and feet flat on the floor
- 02** Articulating arm rail supports the patient's arm and cuff at heart height
- 03** Automated vital signs promote consistency and data accuracy
- 04** EMR connectivity improves workflow efficiency and reduces errors

Scan to explore the latest study reporting the cumulative effect of poor positioning that occurs when BP is taken with the patient sitting on a typical clinical exam room table.

Point of Care Ecosystem BP Checklist

Standardization, whether it be in one facility or across a network of sites, poses challenges for today's health systems. One area that can be especially challenging is blood pressure (BP) measurement. BP capture continues to be one of the most inconsistently performed tests in the clinical environment.¹ In fact, many healthcare providers have admitted to not following AMA recommendations for more accurate BP measurement.² Left unaddressed, this lack of adherence can pose serious risk for health systems. We hope you will use this checklist to help ensure an accurate, precise and repeatable BP measurement—every patient, every time.

7 SIMPLE STEPS FOR AN ACCURATE BP READING³

- ☐ **No Talking**
Neither the patient nor the person taking the measurement should talk during the procedure. The patient talking or actively listening can increase the measurement by 10 mmHg.
- ☐ **Cuff Placed on Bare Arm**
The upper arm should be bare. Any clothing covering the cuff location should be removed. Placing the cuff over clothing can add 5 to 50 mmHg. Clothing covering the cuff location should not be rolled, so as to not have a tourniquet affect above the BP cuff.
- ☐ **Arm Supported at Heart Height**
The patient's arm should be supported at heart height (the middle of the cuff on the upper arm should be at the height of the right atrium). An unsupported arm can add 10 mmHg to the measurement.
- ☐ **Empty Bladder**
Having a full bladder during BP acquisition can add 10 mmHg to the BP reading.
- ☐ **Back Supported**
The patient should be seated comfortably with the back supported. If the patient's back is not properly supported, the measurement can increase 6 mmHg.
- ☐ **Legs Uncrossed**
The patient should be seated comfortably with legs uncrossed. If the patient's legs are crossed, the measurement can increase 2 to 8 mmHg.
- ☐ **Feet Flat on the Floor**
The patient should be seated comfortably with feet flat on the floor. If the patient's feet are not flat on the floor, the measurement can increase 6 mmHg.

Welch Allyn Braun
ThermoScan® PRO 6000
Ear Thermometer

BAXTER
Offers speed and accuracy for all types of patients. Exclusive ExacTemp technology provides an active user feedback system to ensure proper positioning and improved accuracy. Lightweight, simple, fast, and accurate. Preheated probe tip and sensor provide reliable temperature readings. Has automatic probe-cover eject button for quick-and-easy disposal of used probe covers. 3-year limited warranty.

- Innovative PerfectTemp™ technology adjusts for variability in probe placement
- ExacTemp™ technology detects stability of the probe during measurement
- Designed to take quick and accurate readings, to improve patient satisfaction
- 60-second pulse timer assists with manual measurement of pulse rate and respiration
- Electronic security features help prevent theft and loss
- Small or large cradles for probe cover storage that pop up for easy attachment
- Optional charging station stores 200 probe covers, with rechargeable battery
- 6-ft or 9-ft security tether options keep device attached to cradle

EXAM ROOM & DIAGNOSTIC EQUIPMENT

Welch Allyn Spot™ Vision Screener

BAXTER

A handheld, portable device designed to help users quickly and easily detect vision issues on patients from 6 months of age through adult. Spot screens both eyes at once from a nonthreatening 3-ft distance. The touch-screen display allows for one-touch activation, simple management of patient data entry, and easy configuration for both vision screening and autorefraction applications.

Features:

- Supports AAP screening guidelines for early detection of amblyopic risk factors
- Automated screening provides thorough, objective, and easy-to-understand results
- Easy to use, easy to implement, with minimal user training required
- Adequately powered for mass screening events
- Captures readings 97% of the time, helping to screen otherwise difficult patients
- Wireless printing and WiFi-enabled for easy export of data
- Manual exports available via USB port
- Uses lights and sounds to help engage children
- Convenient carrying case

#VS100S-B, Vision Screener Set

Welch Allyn SureTemp® Plus 690 Electronic Thermometer

BAXTER

Combines the speed of ear thermometry with the accuracy and reliability of traditional oral thermometry. Takes fast, 4–6-second oral temperatures, 10-second pediatric axillary and rectal temperatures, and 15-second adult axillary temperatures.

- Accurate to within $\pm 0.2^{\circ}\text{F}$ (0.1°C)
- Interchangeable, removable probe wells to reduce the risk of cross contamination
- Large LCD that can display temperatures in Fahrenheit or Celsius
- Last-temperature recall
- Mode selection and recall buttons
- Four different temperature modes
- Convenient storage for 25 probe covers
- Takes about 6000 readings on 3 AA batteries (included)

ADView 2 Diagnostic Station AMERICAN DIAGNOSTIC CORP

The ADView 2 is the only truly modular diagnostic station that grows with your needs. Start with blood pressure and choose temperature or pulse oximetry options at the time of purchase; we'll ship your ADView 2 fully configured and ready to go. Or add new modules and accessories in the field, anytime, as you need them. Our user-expandable, connect-and-go construction makes upgrading effortless.

- Clinical-grade Advantage™ BP technology from SunTech Medical
- Contemporary, compact design with an integrated handle and easy-to-read display
- Manual blood pressure mode for real-time verification
- Customizable average mode options
- Next-generation EMR-ready with HL7 messaging for electronic data transfer
- Network-enabled with built-in Ethernet or optional Wi-Fi
- Lithium-ion power for longer-lasting battery life and a lighter weight
- Built-in memory with up to 99 charting sessions
- New Pediatric Mode to ensure accurate measurements for younger patients
- Firmware upgradable

Connex® Spot Monitor BAXTER

Features an easy-to-use, vivid touch-screen display and provides accurate vital signs measurement, including blood-pressure averaging, spot checking, interval monitoring and custom scoring across patient populations. Device connects wirelessly to an EMR and accurately sends vitals to the patient chart from the point of care to help improve efficiency.

- Designed for the physician-office environment with an easy-to-use, vivid touch-screen display
- More accurate hypertension diagnosis without slowing down your workflow thanks to automated blood-pressure averaging
- Improved capabilities for assessing respiratory conditions such as COPD, asthma, and community-acquired pneumonia (CAP), thanks to integrated professional-grade pulse oximetry
- Increase staff efficiency and eliminate data-entry errors with wireless transfer of vital signs directly into an EMR

ePM 10A Configured Patient Monitor MINDRAY

Exceptional user interface and enhanced parameter functionality, delivering a monitoring solution to fit multiple care environments. Immediate and measurable benefits of the smartphone-like user interface that delivers 98% of all common monitoring functions with just 2 gestures, reducing time clinicians spend navigating monitor functions, and more time on what matters most: patient care. Advanced monitoring options include 3- and 5-lead ECG, SpO2, NIBP, respiration, and temperature supporting multiple clinical workflows. ePM 10A has a compact, ergonomic design that is perfectly suited for healthcare facilities managing a steady flow of patients daily. Add optional CO2 capability to aid clinicians to identify signs of patient deterioration due to respiratory distress. Manufactured with industry-leading plastics that stand up to the most stringent medical-grade cleaners. The concealed grab-and-go handle eliminates hard-to-clean crevices and eases clinical workflow while on the move. Flexible mounting options for bedside and transport.

- Dimensions: 10.6" x 9.9" x 6.3"

Vscan Extend* R2 Dual Probe DICOM Handheld Ultrasound GE HEALTHCARE

A general-purpose diagnostic ultrasound imaging system that can enable qualified and trained health care professionals to visualize and measure anatomical structures and fluid. Its pocket-sized portability and simplified user interface enable integration into examination and training sessions. Information can be used for basic or focused assessments, procedural guidance, and in conjunction with other medical data for clinical diagnostic purposes during routine periodic monitoring and triage assessments for adult and pediatric patients. Unit supports applications for cardiac, abdominal, renal, obstetrics and gynecology, urology, fetal, adult cephalic, peripheral vascular imaging (arteries, veins, lower extremity, and carotid), small organs including thyroid and musculoskeletal (long bone, hip, shoulder, elbow, and knee joints), evaluation of presence of fluid, thoracic/lung (pleural motion/sliding and line artifacts), pediatrics, imaging guidance for needle/catheter placement (paracentesis, pericardiocentesis, thoracentesis, and amniocentesis), and procedure guidance for arterial or venous vessels (central lines and upper extremity). DICOM** configuration provides the ability to export images wirelessly to DICOM servers or to shared Windows*** network folders, along with wireless access to the GE Marketplace for download and installation of Vscan Extend apps. It also allows the transfer of images or videos via USB cable connection to a PC. The product is complemented with a Vscan* web portal, including online access to product and clinical information. In some countries, 1–60-gm bottle of gel may also be included in the standard configuration.

#H8038VP, DICOM Base Package (133-4462)..... ea

Contains: 1 control unit with standard components, 1 global AC adapter with interchangeable region-specific plugs, 1 USB cable, 2 rechargeable batteries, 1 external battery charger, 2 micro-SD memory cards (for potential service needs only), 1 soft case & 1-hour session of clinical applications training to be provided via telepresence.

(570-1663)	20/case

ChloraPrep™ Patient Preoperative Skin Preparation

BD

Sterile

- 2% chlorhexidine gluconate (CHG) with 70% isopropyl alcohol
- CHG has demonstrated a 50% reduction in the incidence of catheter-related bloodstream infections, compared to povidone iodine
- Rapid activity against gram-positive and gram-negative bacteria
- Nonlatex, nonallergenic tip
- Convenient packaging
- Maintains a 2-year shelf life

1.75-mL Swabstick, Single	
(147-3823)	48/box
5.25-mL Swabsticks, Triple	
(147-3826)	40/box

Fenestrated Drapes

HENRY SCHEIN®

Sterile, with 3" Round Fenestration
Tissue/Poly/Tissue

- Allows access to the operative site while it protects surrounding area
- 3" round fenestration option is die cut and heat sealed, leaving a smooth, even edge that prevents linting
- Not made with natural rubber latex

White, 18" x 26"	
(900-4685)	50/box

Non-Fenestrated Drapes

HENRY SCHEIN®

Sterile, Polylined, Tissue/Poly/Tissue
White, 18" x 26"

(900-4686)	50/box
------------	--------

ChloraPrep™ Patient Preoperative Skin Preparation with Sterile Solution™

BD

- Sterile solution: Patented sterilization process of the antiseptic solution achieves a minimum sterility assurance level (SAL) of 10⁻⁶
- Sterile delivery: The sterile, single-use applicator facilitates aseptic touchless technique by moving the clinician's hand away from the patient's skin, helping to reduce the risk of extrinsic contamination
- Proven efficacy: The FDA-approved dual antiseptic of 2% chlorhexidine gluconate (CHG) + 70% isopropyl alcohol (IPA) kills bacteria more effectively than single agents, providing both immediate and persistent activity
- Preoperative indication: The only CHG and IPA skin antiseptic to offer 2-log reduction for dry sites, and 3-log reduction for wet sites, on its entire portfolio

Henry Schein Brand Surgical Instruments

Since 1932, Henry Schein has offered an extensive range of products and solutions to optimize your practice and deliver the best care for your patients. Our surgical instruments portfolio is **high quality** and **competitively priced**, available in two grades, and tailored for a broad spectrum of specialties and procedures.

To help you maintain proper infection prevention protocols, we also provide cleaning and care solutions including instrument sterilization and reprocessing. Our ProRepair service includes manufacturer-trained technicians and highly skilled customer service representatives committed to providing quality repair services with a stress-free experience, with complete warranties backed by Henry Schein.

Our available surgical instrument grades include:

- **Maxima® by Henry Schein** – Premium surgical-grade instruments expertly crafted from German Stainless Steel* to conform to rigid specifications and standards that ensure our instruments consistently meet and exceed the high quality and performance expectations of our valued customers. Designed for your general practice needs as well as your more specialized surgical needs, such as **ambulatory surgery centers, plastic surgery and dermatology practices**.

- **Henry Schein Brand** – High-quality stainless steel instruments, designed for your medical practice/office use. Manufactured in ISO 13485 certified factories, unconditionally guaranteed against defects in quality or craftsmanship.

*Excludes products marked by †
Maxima® by Henry Schein

Disposable Vaginal Specula—Light Source Compatible

- Disposable specula made of high-strength, clear, nontoxic plastic
- Allow examination of the vaginal mucosa at 360° angle without rotation
- Provide wide range of adjustability (angular and elevation adjustments), ease of operation and manipulation with one hand
- Self-holding in various opening positions
- Single use of speculum decreases the risk of cross contamination
- Compatible with corded light source of leading brands, eliminating the need for positioning a light source independently

NEW!

Disposable Biopsy Punch

HENRY SCHEIN®

Seamless, stainless steel, sharpened blade for safe, clean, and easy sample extraction.

- Rigid, closed-end translucent guard protects blade from damage
- Ergonomic, ribbed-grip handle provides comfort, control, and a clear view of the biopsy site
- Handle is color coded for clear identification, and blade size is clearly marked
- Free from phthalates
- Sterile
- Single use
- Not made from natural rubber latex

Biopsy Punch.....ea

Specify:

1.5 mm, White	(570-3435)
2 mm, Ivory	(570-3436)
2.5 mm, Green	(570-3437)
3 mm, Gray	(570-3438)

#12B
(112-6188).....10/box

Maxima® Safety Scalpels

HENRY SCHEIN®

- Sterile
- Single use
- Retractable
- Easily extend or retract the blades while avoiding contact with the sharp blade edges
- Color coded for easy identification of blade size

Safety Scalpels.....10/box

Specify:

Size 10	(570-0243)	Size 12	(570-0244)
Size 11	(570-0245)	Size 15	(570-0246)

SURGICAL INSTRUMENTS/INSTRUMENT REPROCESSING

Dermablade ACCUTEC

Sterile
This flexible, one-piece shave biopsy instrument has easy-to-pick-up grips that provide stability and control of excision. MicroCoat® surgical blade has a polymer coating to provide sharp, smooth, resistance-free cutting. Individually packaged.

(143-0556)..... 50/box

Cervical Rotating Biopsy Punch SUMMIT MEDICAL

This single-use punch provides a sharp, clean cut, reducing cervical trauma and potentially minimizing patient discomfort. Top jaw is stronger than titanium, ensuring the extraction of high-quality samples. Low-profile jaw facilitates better access to the transformation zone, while 360° rotation enables enhanced positioning.

#CBR1041
(141-2009)..... 10/box

Pipelle® Endometrial Suction Curette COOPERSURGICAL

Sterile, Disposable
Single-use suction curette for obtaining a histologic biopsy of the uterine mucosal lining for examination or culturing.

#8200
(127-1434)..... 25/box

Enzymax® Ultrasonic Solution HUFRIEDYGROUP

Specially formulated enzymatic line with dual enzymes that quickly remove and prevent biofilms and Steelgard®, which protects instruments from harmful minerals in water for added corrosion protection and sparkling restoration. Multipurpose applications include ultrasonic, presoak, and evacuation cleaner. Available in liquid or fast-acting, concentrated liquid.

INSTRUMENT REPROCESSING

MAXIZYME®
Multi-Enzymatic Detergent

Improved multienzymatic detergent that cleans fast in manual, ultrasonic, and automatic cleaning systems. Low-foaming formula rapidly dissolves and carries away organic soils, including blood, protein, tissue, and more. Its corrosion-inhibiting, pH-neutral formula is safe for instruments and equipment, extending the useful life of instruments. Concentrated and economical, each 1-gallon bottle yields 128 gallons of solution. Clean, fresh scent.

MAXICIDE®

OPA 28 High-Level Disinfectant

Nongluteraldehyde 0.575% orthophthaldehyde (OPA) solution. Ready-to-use high-level disinfectant that achieves disinfection in just 10 minutes at room temperature (20°C) and offers a reuse period of up to 28 days. Significantly reduces the risk of occupational hazards including eye, skin, and respiratory tract irritations and sensitization. Test strips should be used to verify the minimum recommended concentration (MRC) prior to each use.

MAXICIDE®
3% Glutaraldehyde

This advanced 3% glutaraldehyde high-level disinfection solution is twice as fast as leading competitors, taking only 25 minutes to process. It provides effective sterilization in 10 hours and can be reused for up to 28 days. The moderate pH is compatible with heat-sensitive medical devices and contains a rust inhibitor to prevent corrosion. Once the powdered activator is added, the solution turns blue and has a mild lemon scent. Makes 1 gallon with powdered activator bottle.

Autoclave Bags

HENRY SCHEIN®

Heavy-duty, tape-seal, surgical-grade kraft paper bags with autoclave and chemical vapor sterilization indicator ink. For use in steam sterilizers.

- Wet-strength, sterilizable paper permits sterilant penetration and acts as a barrier after sterilization
- Chemical indicator on each bag verifies exposure to sterilization process
- Indicator ink will have noticeable color change when exposed to sterilization conditions
- Safety fold design to enhance effectiveness of sterile field
- Cost-effective alternative to paper/poly pouch; biodegradable

Super Sani-Cloth® Germicidal Disposable Wipes

PDI

Effective against 32 microorganisms in 2 minutes, including multi-drug-resistant organisms (MDROs), bloodborne pathogens, TB, and viruses. Fast contact time allows for a quick room turnover; compatible with a broad range of surfaces and equipment in health care. Meets CDC, OSHA, and infection control guidelines. Quaternary ammonium and IPA formulation. Contains 55% alcohol. EPA-registered intermediate-level disinfectant.

- Quaternary/high-alcohol formula: 55%
- Bactericidal, tuberculocidal, and virucidal
- One-step cleaner/disinfectant (however, a precleaning step is required for blood and body fluids)
- Kills a broader range of bacteria and viruses including TB and RSV in 1 minute; HBV and HIV-1 in 2 minutes; and MRSA, VRE, *Staphylococcus aureus*, *Pseudomonas aeruginosa*, *E. coli*, *Klebsiella pneumoniae*, adenovirus Type 5, *Rhinovirus vaccinia*, influenza A2/Hong Kong, and herpes simplex type 2 in 5 minutes
- Also kills *Candida albicans* and rhinovirus
- Unique deep-well lid seals securely to prevent moisture loss

EXAM GLOVES/WOUND CARE

ULTRA 3.5 Coral (Flamingo)

VENTYV®

Nitrile Powder-Free Exam

Suitable for use in a large variety of clinical settings. This high-end glove is a must-have for its aloe and vitamin E coating, which provides protection against dry and cracking skin. 4-mil finger thickness. Coral color.

Gloves.....200/box

Specify:

X-Small	(136-4752)	Large	(136-4755)
Small	(136-4753)	X-Large*	(136-4757)
Medium	(136-4754)		

*180/box

LUXE™

CRANBERRY

Nitrile Powder-Free Exam

Features form-fitting NuSoft formulation for enhanced fingertip textured grip. Coated with lanolin and vitamin E for minimized skin irritation. 2.5-mil thick. Blue.

Gloves.....300/box

Specify:

X-Small	(133-9221)	Large	(133-9224)
Small	(133-9222)	X-Large*	(133-9225)
Medium	(133-9223)		

*250/box

Microflex® Ultraform® ANSELL

Nitrile Powder-Free Exam

Designed with ERGOFORM™ Ergonomic Design Technology, providing musculoskeletal support with 20% less muscle exertion when performing repetitive tasks. Thin design for superior tactile sensitivity. Soft nitrile formulation forms to hands for comfort during extended wear. Protection from Type I latex allergy in health-care workers or patients. Textured fingertips. 9.1" length. 3.9-mil fingertip thickness. Cobalt Blue.

Gloves.....300/box

Specify:

X-Small	(141-1425)	Medium	(141-1427)
XS/S	(142-6336)	M/L	(142-6338)
Small	(141-1426)	Large	(141-1428)
S/M	(142-6337)	X-Large**	(141-1429)

*250/box

AQUASOFT®

HALYARD

Nitrile Powder-Free Exam

Provides more comfort and tactile sensitivity than latex gloves, but without the risk of latex skin irritation and allergies. Thinner than typical nitrile gloves, which take up less storage space, so they generate less waste. Textured fingertips. Blue.

Gloves.....300/box

Specify:

X-Small	(643-0401)	Large	(643-0404)
Small	(643-0402)	X-Large*	(643-0406)
Medium	(643-0403)		

*250/box

BeeSure® Slim™

ECOBEE

Nitrile Powder-Free Exam

Textured fingertips. Soft white. Ultrasoft and slim formulation provides latex-like comfort. Higher box count means less packaging waste.

Gloves.....200/box

Specify:

X-Small	(116-1889)	Large	(116-1892)
Small	(116-1890)	X-Large	(116-1893)
Medium	(116-1891)		

Lavender™

HALYARD

Nitrile Powder-Free Exam

LAVENDER® Exam Gloves are tested extensively to ensure they will protect users in a wide range of situations. They are an ideal choice when expected fluid exposure and abrasion potential are low to moderate. Low Dermatitis Potential. 9.5-inch cuff. Tested for 42 Chemotherapy drugs and Fentanyl per ASTM D6978.

Gloves.....250/box

Specify:

X-small	(111-3868)	Large	(111-7965)
Small	(111-8659)	X-large, 230/box	(111-8312)
Medium	(111-8088)

Premium Self-Closure Elastic Bandages DUKAL

5-yd Rolls

Non-sterile

Designed with hook-and-loop closures at both ends, which eliminate the need for clips and provide pressure from the first wrap. Crocheted construction provides a better hook to secure to skin and minimizes pulls on the fabric for repeat use.

Transparent Semi-Permeable Dressings DUKAL

- Sterile
- Microporous transparent film with high moisture vapor transmission rate (MVTR)
 - Ideal for IV sites, minor burns, ulcers, skin tears, and donor sites
 - Easy, 2-step application
 - Protects against fluid contaminants and bacteria
 - Rounded edges prevent roll-up
 - Removable patient label for chart
 - Not made with natural rubber latex

Eye Pads DUKAL

- Absorbent, cotton-filled pad with a soft, gentle, nonwoven cover that offers protection to this delicate area
- Features an easy-place tab on back to ensure clean placement
- Sealed edges provide minimal linting
- Individually wrapped and packaged in a dispenser box for your convenience
- Not made with natural rubber latex
- Sterile

#841, 1½" x 2½"	50/box
(622-6663)	

Type VII Gauze Sponges DUKAL

- Sterile
- USP Type VII gauze, 100% woven cotton
 - Packaged in rigid plastic tray with peel-back lid
 - Sponges are banded in 10s to ensure accurate count
 - Highly absorbent and provide exceptional clinical performance
 - Not made with natural rubber latex

Clinisorb Non-Woven Sponges DUKAL

- 4 Ply, 2s
- Rayon/poly blend construction
 - Highly absorbent
 - Multipurpose sponges ideal for general wound care and applying ointments
 - Virtually nonlinting
 - Not made with natural rubber latex

New Sponges DUKAL

- 4-ply
- Rayon/poly-blend construction
 - Effective combination of weight and open aperture allows each sponge to wick quicker and offer superior absorbency
 - Virtually nonlinting
 - Not made with natural rubber latex

Laparotomy Sponges DUKAL

- Prewashed, 100% high-quality cotton with tight weave
- Cross-stitched with super-locked edges to minimize linting and loose threads
- X-ray detectable
- Banded 5s
- Not made with natural rubber latex

Non-Adherent Pads DUKAL

- Absorbent pad with nonstick outer facing
- Allows dressing to absorb, without adhering to the wound
- Ease of removal helps minimize trauma to the wound site
- Can be cut to fit any size wound without separating
- Sterile
- Not made with natural rubber latex

Combine ABD Pads DUKAL

- Highly absorbent multilayer dressing
- Soft, nonwoven outer facing wicks moisture into the cellulose core that quickly absorbs and disperses fluid
- Moisture-resistant barrier prevents fluid strike-through
- All edges are sealed to prevent linting and leakage
- Not made with natural rubber latex

TOPICAL SKIN ADHESIVE - OCTYL

High-Strength 2-Octyl Cyanacrylate Formulation

Advantages

Rapid set time

Flexibility without a plasticizer

Ergonomic ampule designed for ease of handling and targeted application

Provides an effective microbial barrier and water-resistant protection

High tensile strength

Unique formulation will not solidify in ampule, allowing all .5 ml to be used

Gravity fed applicator delivery system - no need to squeeze ampule

Glass-free reservoir containing 0.5mL of Topical Skin Adhesive

Rigid sleeve helps prevent bending of applicator during adhesive application

Angled applicator tip changes color in the presence of adhesive

Perforation in the middle, allowing ease of adhesive flow

Additional Information

Polymerization starts when adhesive comes in contact with tissue or fluid.

All 0.5 ml of adhesive can be used on the patient, as adhesive will not solidify in the ampule.

Topical Skin Adhesive will remain attached to the skin surface until natural cellular regeneration occurs (approx. 5-7 days). If needed, any standard adhesive remover product may be used to release the adhesive from the skin. Peel off the film, do not pull the skin apart.

Henry Schein® Topical Skin Adhesive - Octyl

0.5mL ampules, 12/box.....(570-3554)

Surgical Sutures

From A Name You Can Trust.

Maxima® Sutures by Henry Schein®

POLYLITH CARD

Helps reduce moisture content, an advantage with absorbable suture materials that degrade by hydrolysis.

NEEDLE PARK

Two needle parks to accommodate a wide range of needle types, sizes, and double-arm sutures. Needle park also protects needles from damage.

RACETRACK FEATURES AND BENEFITS

LARGER DIAMETER

Larger overall diameter to ensure less suture memory and minimize the number of suture rotations around track.

PRESS-PUSH NEEDLE LIFT

The tab, when pressed from behind, lifts for easy needle removal.

- Silicone-coated 300 series stainless needles give finer point geometry for superior penetration
- Precision needles are strong enough to resist bending, yet ductile enough to resist breaking
- Racetrack packaging helps reduce material memory as the suture is released from the track
- Large breadth of suture and needle combination for a range of surgeries
- Significant cost savings for your clinic compared to the leading brand

WOUND CLOSURE

Wound Closure Strips

HENRY SCHEIN®

Includes top-quality, high-grade materials in a variety of sizes of all of your wound-closure needs.

- Adhesive wound closures with an exceptionally porous, spun-bond fiber backing include bilateral nylon filaments for high tensile strength
- Each size is in a color-coded package for quick and easy size identification
- Hypoallergenic: Designed for patient comfort and longer-term exposure
- Porous: Allows breathing for advanced healing and moisture control
- Not made with natural rubber latex

1/8" x 3"250/box
Contains: 5 strips per envelope, 50 envelopes per box.

1/4" x 3"150/box
(900-4315)150/box
Contains: 3 strips per envelope, 50 envelopes per box.

1/4" x 4"500/box
(900-4318)500/box
Contains: 10 strips per envelope, 50 envelopes per box.

1/4" x 1 1/2"300/box
(900-4316)300/box
Contains: 6 strips per envelope, 50 envelopes per box.

Contains: 6 strips per envelope, 50 envelopes per box.

1" x 4"100/box
(900-7506)100/box
Contains: 4 strips per envelope, 25 envelopes per box.

ER Laceration Tray

HENRY SCHEIN®

Sterile, Single-Use

Not made with natural rubber latex.

Hard plastic tray includes:

- 1-9 3/4" x 12" large center strip bag
- 1 precut 24" x 24" CSR wrap
- 2-19 1/2" x 23" blue absorbent towels, scrim
- 1-18" x 26" fenestrated drape (black & white)
- 1-10-cc L/F Luer-lock syringe
- 1-18 ga x 1 1/2" needle
- 1-27 ga x 1 1/2" needle
- 1-25 ga x 5/8" needle
- 1-5" Webster needle holder with large finger loops and beveled hinges
- 1-4 1/2" pair of straight Iris scissors with large loops and tip protector (sharp/sharp)
- 1-5" curved mosquito hemostat with large finger loops
- 1-4 3/4" pair of Adson tissue forceps, 1" x 2"
- 2-2-oz medicine cups
- 1 sheet of universal medication labels (10/sheet)
- 5-2" x 2", 8-ply gauze dressings
- 10-4" x 4", 8-ply gauze pads

True Metrix® Pro Strips

From a Name You Can Trust.

Advanced technologies—the meter, a complex algorithm, chemistry, and electrodes—on the test strip work together as part of the True Metrix® Pro system to produce accurate results. Featuring Triple Sense Technology™, the system provides proven accuracy and confidence in results.

Features & Benefits:

- No-coding technology eliminates need for coding of meter
- Code is assigned during manufacturing process
- Code is printed onto contacts on end of test strip
- Meter reads code on insertion

Hb 801 Analyzer HEMOCUE

The HemoCue® Hb 801 system seamlessly integrates point-of-care testing into your workflow.

- Wireless connectivity through middleware
- Results in under 1 second
- Reagent-free cuvettes, improving open-vial stability
- Large display with intuitive on-screen symbols
- Internal quality control self-test
- USB adapter (included) or 3 AA batteries (not included) power supply

Hb 801 Analyzer

Contains: 25 per bottle, 4 bottles per box.

Hb 201+ Handheld Hemoglobin Analyzer HEMOCUE

Offers the same important benefits as its predecessor, the B-Hemoglobin Photometer. Smaller size gives more flexibility and mobility to use the system anytime and anywhere. Performs an internal self-test. No control cuvette required.

- Produces results in less than 1 minute with lab-quality accuracy
- 3 easy steps
- Precalibrated, portable analyzer that requires minimal maintenance
- No calibration or instrument manipulation (between cuvette/reagent batches) is needed
- Safe and easy to use
- Reimbursable
- CLIA '88 waived
- 3-year warranty

Glucose 201 Analyzer HEMOCUE

The HemoCue Glucose Systems are based on a glucose-dehydrogenase method and consist of a small, dedicated analyzer and a unique, disposable microcuvette. They will produce lab-accurate results for diagnosing or monitoring diabetes, as well as monitoring neonatal blood glucose levels.

- More accurate and 68% higher reimbursement than glucose meters
- FDA-compliant unit when screening and diagnosing
- Analyzer: 0–444 mg/dL (0–24.6 mmol/L)
- Only 5 µL of capillary, venous, or arterial blood is needed
- No inherent limitations related to hematocrit or known drug interferences
- No recalibration needed between cuvette lots
- 3-year warranty

CardioChek® Plus Analyzer

Fast, Accurate, Efficient Lipid and Glucose Results at the Point of Care

Recognizing the strong connection between heart attack, stroke, and diabetes, the CardioChek® Plus Analyzer provides rapid, on-site blood-chemistry values and measurements to help identify at-risk individuals.

- Fast: On-site lipid and glucose results in as little as 90 seconds; simple, quality-control testing
- Portable: compact and lightweight, easy to transport and store; handheld and battery-operated; and room-temperature test strips
- Patient-friendly: fingerstick with sample size of 1.1 µL to 40 µL
- Wireless communication: easy data transfer
- Measures total and HDL cholesterol, triglycerides, and glucose
- Calculates LDL and non-HDL cholesterol as well as TC/HDL and LDL/HDL ratios
- Certified accuracy
- CLIA waived
- Meets NCEP guidelines for accuracy and precision
- FCC- and ISO-certified wireless communications
- CRMLN-certified for CHOL and HDL tests
- FDA cleared

THE MARKET LEADER
FOR HbA1c TESTING

Afinion 2™

Simply More Efficient

The Afinion 2 Analyzer enables fast and easy quantitative determinations of hemoglobin A1c (HbA1c) and albumin-creatinine ratio (ACR). Its compact size and rapid result time make it ideal for managing patients with diabetes.

Benefits of HbA1c testing with Afinion 2

Small, 1.5 µL

Afinion 2 Analyzer ABBOTT

With its compact size and panel of tests, the Afinion 2 system is ideal for point-of-care testing in physician offices, clinics, community health centers, and hospital outpatient clinics. From just a small urine or fingerstick whole-blood sample, lab-accurate results for ACR and HbA1c are made available during the consultation. With built-in connectivity, the Afinion 2 Analyzer can communicate with LIS and HIS systems to share and manage data more effectively, contributing to better patient management everywhere.

- Size: 7.2" x 7.5" x 13"
- Weight: 7½ lb
- Patient/operator ID and patient/control results stored in memory
- No maintenance required
- No operator calibration
- Extensive and comprehensive failsafe systems prevent the possibility of erroneous results
- QC and operator lockout
- Afinion tests can be used with both the Afinion 2 Analyzer and the Alere Afinion AS100 Analyzer

Cholestech LDX™ System ABBOTT

Complete Lipid Profile, Glucose

Lab-accurate lipid profile and glucose results in about 5 minutes from a simple fingerstick. Allows provider to get results while patient is still in office—provider can counsel and intervene face-to-face. This improves patient compliance and increases control and management of heart disease and diabetes. Reimbursable by Medicare and most private payers.

- CLIA waived
- Procedure saves time and enhances productivity
- Small, tough, and portable
- Eliminates anxiety of venipuncture; requires only a fingerstick
- On-the-spot adjustment of therapy and improved patient compliance
- Accuracy comparable to laboratory tests
- Saves time: fewer follow-up visits required
- Enhances compliance through teachable moments between health care providers and patients

DCA™ Vantage Analyzer SIEMENS HEALTHINEERS

Point-of-care immunoassay analyzer for diabetes management. Provides precise and accurate quantitative test results for HbA1c in whole blood during a patient's visit to help improve decision making. With a single urine sample, the analyzer also provides quantitative test results for low levels of albumin, creatinine, and A:C ratio in the physician's office or clinic.

Urispec™ Plus Urinalysis Reader & Urispec™ 11-Way Urine Strip Promotion

HENRY SCHEIN®

Provides dependable urine status results to detect early stages of many diseases, such as diabetes, kidney disease, and urinary tract infections. Instrument-read results have long proven to be advantageous for both busy health care professionals and patients. Comprehensive interface options and the optimized printouts minimize risk associated with manual transcriptions. Reliable results can be obtained virtually immediately at the point of care. Easy switch between different test strips: Urispec Plus is for use with the Urispec 11-Way, 5-Way Plus, 4-Way, and GP+A urine test strips for up to 11 parameters for the semiquantitative detection of occult blood, urobilinogen, bilirubin, protein, nitrate, ascorbic acid, ketones, glucose, pH, specific gravity, and leukocytes. Use of these test strips on the Urispec Plus analyzer is CLIA-waived.

- CLIA-waived
- Readings eliminate subjectivity of visual color interpretation, which makes urinalysis simpler and more reliable
- Features no-touch operation: After strip placement, measurement starts automatically, which makes urinalysis faster and more hygienic
- Easy switch between different test strips: Urispec Plus is for use with Urispec 11-Way, 5-Way Plus, 4-Way, and GP+A urine test strips

Urispec™ Urinalysis Controls

HENRY SCHEIN®

For Most Brands of Routine Urine Dip Sticks and Pregnancy Tests
A bilevel product packaged in plastic tubes and dropper bottles. Controls are liquid, ready-to-use, and are designed to validate urinalysis reagent strips. Packaged in plastic dip tubes and dropper bottles, they are convenient and easy to use. Long open- and closed-vial stability at 2°C–8°C for 2 years unopened, or 90 days once the Dip Control is opened, and 180 days once the Drop Control is opened. This allows the user ample time to utilize the product before expiration, resulting in cost savings.

- Values for all pregnancy test brands
- Assays for common brands of urine dip for routine urinalysis (2 parameter-10SG)
- Includes values for microalbumin, creatinine, and hCG
- Two distinct levels (normal and abnormal)
- Closed-vial dating up to 2 years with refrigerator storage
- 30-day stability at room temperature

3 Bilevel Sets, 15 mL/Tube (6 Vials)
Dip stick in tube, with open-vial stability of 90 days at 2°C–8°C.
(112-6841).....ea

2 Bilevel Sets, 25 mL/Dropper Bottle (4 Bottles)
Open-vial stability of 180 days at 2°C–8°C.
(112-6842).....ea

As many as

50%

of women with vaginitis
are misdiagnosed,
creating a frustrating
cycle of ineffective
treatment, repeat visits,
and an increased
risk of recurrence.¹

**Women's health is our health.
We all deserve to know more.**

¹ Brown H and Drexler M. Popul Health Manag. 2020;23(S1):S3-S12.
US-IVD. In Vitro Diagnostic Medical Device.

Introducing **Xpert® Xpress MVP**, a **CLIA-waived multiplex vaginal panel** designed to aid clinicians in accurately diagnosing three distinct vaginal infections: Bacterial Vaginosis, Vulvovaginal Candidiasis, and Trichomoniasis.

GeneXpert® Xpress CEPHEID

Unlock the Power of PCR at Point of Care
The Cepheid GeneXpert Xpress brings the power of CLIA-waived PCR testing to the physician office lab and beyond.

- CLIA-waived PCR testing: Flu, FLU/RSV, and Strep A
- Scalable design: 2-module and 4-module options available for customized throughput needs
- Random access: True on-demand, walkaway testing system that runs up to 4 tests at one time
- Operator and QC lockout: Customizable features to meet the needs of every practice
- Built-in redundancy: Each module operates as its own independent analyzer
- No specialized training or daily maintenance—simple to operate with minimal setup needs
- Bidirectional interface: Interface to LIS (HL7, ASTM) available

Xpert® Xpress MVP Test CEPHEID

This new, FDA-cleared, on-demand PCR test is intended to aid in the diagnosis of vaginal infections in symptomatic women within an hour. This test introduces a BV-flora-specific algorithm for bacterial vaginosis combined with the detection of *Candida* species (*Candida* group and *Candida glabrata/krusei*) and *Trichomonas vaginalis*, from a single sample on Cepheid's easy-to-use GeneXpert systems.

On-demand molecular testing—an ideal solution:

- Actionable diagnostic aid for bacterial vaginosis, vulvovaginal candidiasis, and trichomoniasis within 60 minutes, including potential co-infections
- On-demand results for 4 separate callouts: bacterial vaginosis, *Candida* group, *C. glabrata/krusei*, and *T. vaginalis* from a single sample collection
- Implementing easy-to-use testing with GeneXpert technology
- Easy-to-use, multiplex, real-time PCR panel test
- Less than 1 minute hands-on time and objective PCR results within 60 minutes
- Detect mixed and diverse vaginal conditions from 1 sample
- Designed to enable appropriate treatment the first time

Savanna® Platform QUIDELORTHO

This compact benchtop instrument utilizes real-time PCR to deliver automated, customized molecular results in minutes. Molecular sensitivity with rapid turnaround can detect multiple pathogens in a single sample. Eliminates the need for dedicated lab space. Facilitates decentralization of testing and allows multiplex, syndromic panel testing at point of care.

- Sample-to-result technology
- Decreased hands-on time with no upfront sample or reagent preparation required
- Superior molecular accuracy and confidence in a multiplex, real-time PCR assay
- Single-use, self-contained cartridge with no sample or reagent prep prior to testing
- Fully automated and easy to use with touchscreen display results in 24 minutes

Faster Results, Better Care

Prioritizing Reproductive Health & Sexual Wellness With Same-Visit Chlamydia & Gonorrhea Testing

With a majority of chlamydia and gonorrhea (CT/NG) infections in women being asymptomatic, same day results are essential in preventing complications such as infertility, pelvic inflammatory disease (PID) and other long-term health issues if these infections are left untreated.¹

With the binx *io*, CT/NG test results are made available in minutes rather than days. A true test & treat model for chlamydia and gonorrhea can decrease the risk of empiric treatment, loss to follow-up and further infection spread.^{2,3}

The binx *io* device is the first FDA (510k), CLIA-waived, molecular PCR CT/NG test for males and females in about 30 minutes enabling clinics to deliver central lab equivalent test accuracy, in-house.

Support your patients' reproductive health and wellness through early diagnosis, improved treatment timelines and enhanced quality of care with binx health.

binx health® io CT/NG Test

BINX HEALTH

Designed for use with the binx health io Instrument, this fully automated, rapid, qualitative test is intended for use in point-of-care or clinical laboratory settings for the detection of *Chlamydia trachomatis* and *Neisseria gonorrhoeae* DNA by polymerase chain reaction. The system delivers central lab-quality results in around 30 minutes for both male and female patients. The rapid turnaround time supports test-and-treat patient care at the time of visit for those who need it and curbs unnecessary empiric treatment for those who don't. Additionally, the binx io CT/NG Assay provides clinics with the ability to make a profit performing the testing in-house while providing superior patient care.

- FDA-cleared and CLIA-waived
- Point-of-care (POC) molecular
- Results in 30 minutes
- Sample collection—Male: first catch urine; Female: vaginal swabs (self- or clinician-collected)
- Single-visit results and treatment
- Easy-to-use platform requires no calibration, preventative maintenance, or interpretation of results, and can be used by non-lab-trained personnel

Rapid and accessible syphilis testing for women's health

- Newborns in 2022 were diagnosed with congenital syphilis 10 times more than newborns in 2012.
- Almost 90% of congenital syphilis cases could have been prevented with timely testing and treatment during pregnancy.
- Testing pregnant individuals reduces the costs associated with congenital syphilis by up to 80%. Same-day treatment lowers the risk of transmission to newborns, reducing future treatment costs.

Rapid, chromatographic immunoassay for the qualitative detection of human chorionic gonadotropin (hCG) in urine to aid in the early detection of pregnancy.

- Urine test
- CLIA waived
- 25 mIU/mL detection level
- Sensitivity: 99%
- Room-temperature storage
- Read time 3 minutes or less

(900-4072).....25/box

Contains: 25 pouched tests per kit & 1 package insert.
CPT® Code: 81025QW* (Urine)

OneStep+ Pregnancy Combo Cassette Tests

HENRY SCHEIN®

- Urine or serum test
- CLIA waived for urine only
- 25 mIU/mL detection level
- Sensitivity: 99%
- Room-temperature storage

25-Patient Kit
(900-4075).....25/box
Contains: 25 pouched tests per kit & 1 package insert.

CPT® Codes: 81025QW* (Urine); 84703* (Serum)

25MS6599

OneStep Pro+ FIT Tests

HENRY SCHEIN®

This fecal immunochemical test (FIT) is a simple strip procedure that provides qualitative results in 5 minutes. It utilizes colloidal gold to enhance test-line intensity and clarity and requires no dietary or medicinal restrictions, while ensuring quick and accurate results.

Personal Use Kit
(570-0607).....20/box
Contains: 20 sampling bottles & 20 mailing envelopes.

Complete Kit
(570-0609).....50/box
Contains: 50 test strips, 50 sampling bottles & 50 collection papers.

Strips Kit
(570-0610).....50/box
Contains: 50 test strips.

One Step+ ER Tests

HENRY SCHEIN®

A rapid, convenient, and noninvasive qualitative method for detecting occult blood in the stool. It is intended for professional use as an aid in the diagnosis of asymptomatic gastrointestinal conditions that may manifest themselves by the presence of occult blood in the stool.

- Patented grid design minimizes the number of unreadable slides due to patient oversampling
- Easier to read borderline specimens
- Provides an intense blue reaction, resulting in better readability than traditional guaiac test kits
- 21-day on-slide stability
- 3-year shelf life with room temperature storage
- Familiar patient collection
- Made in the USA

OneStep+ ER Triple Slides Kit
(112-7141).....50/box

Contains: 3 x 10-mL ER Developer and 50 mailing envelopes containing triple slide, 3 applicators & patient instructions.

OneStep+ ER Single Slides Kit
(112-7140).....100/box

OneStep+ ER Developer
(112-7142).....ea

OneStep+ iFOBT Occult Blood Monoclonal Antibody Kits

HENRY SCHEIN®

Innovative dry-base collection method that utilizes 1 sampling card for the collection of 2 fecal specimens, and requires only 1 immunochemical specimen preparation tube/test cassette system for analysis.

- Meets the American Cancer Society and the US Task Force for Colorectal Cancer (CRC) Foundation recommendation of multiple-day testing
- The sampling tab technology replaces unpleasant liquid buffer tubes and eliminates human error due to patient oversampling
- No dietary or drug restrictions
- 30-day stability/24-month shelf life from date of manufacture
- CLIA waived
- Made in the USA

25-Test Complete Kit
(900-4413).....25 tests/kit
Contains: 25 test cassettes, 25 buffer tubes & 25 patient return mailers.

Cassettes
(900-7458).....30/box
Contains: 30 test cassettes & 30 buffer tubes.

20-Patient Mailer Kits
(900-4416).....20/pkg
Contains: 20 postal-approved envelopes, each containing 1 sampling card slide, 2 applicators & patient instructions.

25-Test Complete Kit
CPT® Codes: 82274QW*/G0328QW*

POINT-OF-CARE TESTING

FECAL OCCULT-IMMUNOCHEMICAL

InSure® ONE™ Fecal Immunochemical Tests (FIT) ENTERIX

Test provides high sensitivity and ease of use with a simple, water-based collection method designed to be more patient-friendly. The patented brush sampling replaces unpleasant fecal collection or smearing. No dietary or medicinal restrictions, enhanced specificity and sensitivity for more productive colonoscopies. The InSure® ONE™ is based on the immunochemical detection of human hemoglobin (Hb) as an indicator of blood in the stool. The assay uses a monoclonal antibody to capture Hb on a test strip during test development. Since globin does not survive passage through the upper gastrointestinal (GI) tract, the presence of globin in the stool indicates bleeding in the colon or rectum. Clinical studies have demonstrated high sensitivity and specificity of the InSure® ONE™ test in colorectal cancer screening.

- Proven clinical performance
- Reliable and accurate results from a single bowel movement
- Samples toilet water only; no handling of feces
- Patented brush collection method shown to increase patient compliance by 66% in one study*

#90030, Combo Kit
(129-7738)..... ea
Contains: 1–25-pack of InSure ONE patient collection kits (#90025) & 1 developer kit (25 test strips and 1–9-mL bottle of run buffer).

INDICATOR PAPER

Compare to Nitrazine™

pHizatest™ Nitrazine Indicator Paper MICRO ESSENTIAL LABORATORY

Designed for the *in vitro* determination of body-fluid pH in the 4.5–7.5 range. Typically used to measure vaginal pH, including detecting amniotic fluid in late-term pregnancy, a sign of premature amniotic-sac rupture, nitrazine-indicator paper is also used to aid in diagnosing bacterial vaginosis, measuring ocular pH, and more. Packaged in a familiar, convenient, and easy-to-use dispenser and includes a color chart. Each roll provides approximately 100 tests.

- Economical
- Instant, easy-to-read results
- Reliable: manufacturer has made nitrazine-indicator paper for more than 50 years
- Made in the USA

#934

Triple Facet Back Cut Needle
Provides ease of insertion and reduced trauma to puncture site

Push Off Tab
Assists with catheter advancement

Push Button Mechanism
Retracts needle fully and safely into catheter chamber

Fully Encapsulating Needle Shield
Reduces exposure to blood borne pathogens via needle stick injuries

Gently Tapered Catheter Tip
Provides smooth transition from needle to catheter during insertion

Contoured Housing
Ergonomically designed grips allows for one handed or two handed techniques

Large-Volume Chamber
Allows clear visual confirmation through flash-back and easy handling

Needle
(Featured in sizes 20g - 24g)
The notched needle promotes fast confirmation of venipuncture

Catheter Material
PUR material designed to remain kink free and soften within the body

VITROS[®] Syphilis Assay

Accurate and early infection detection

The American College of Obstetricians and Gynecologists (ACOG) highlights that syphilis screening is crucial for pregnant women to prevent the transmission of congenital syphilis, which can pose significant prenatal risks. The VITROS Syphilis Assay helps clinicians accurately detect infections early to treat and prevent the spread of the disease.

Now available on the VITROS[®] 3600 Immunodiagnostic System and VITROS[®] 5600 and VITROS[®] XT 7600 Integrated Systems in the U.S.

New QuidelOrtho branding may not be available in all markets, subject to country-specific regulatory approval. Please confirm with your local commercial team.

VITROS[®] 3600 Immunodiagnostic System QUIDELORTHO

Product features:

- Productivity of up to 189 tests per hour
- More predictable turnaround times and uninterrupted workflow
- High-quality, high-reportable result efficiency
- A world-class immunoassay menu on a high-productivity platform
- Proven, easy-to-use, self-monitoring VITROS[®] technologies
- Single-use tips for patient samples and reagents to address carryover and cross-contamination concerns
- Reagent standardization with other VITROS[®] Systems
- Ability to change reagents, consumables, and waste while operating
- More predictable turnaround times and uninterrupted workflow
- A greener eco-footprint that uses no water and minimizes waste

#6802783

VITROS[®] 5600 QUIDELORTHO

Overview:

- Increases capacity with 150 reagent positions that allow over 100 assays to be on-board at once
- Provides greater efficiency, lower maintenance, and minimal calibration by integrating our proven MicroSlide, MicroTip, MicroWell, Intellicheck, and MicroSensor technologies
- Optimizes turnaround time and productivity through innovative Sample-Centered Processing
- Verifies system processing and result reporting while reducing errors

- Features:
- Microsensor Technology:
- Reagent-less determination of sample quality indices without additional sample volume or impact on throughput
- Reduces the time, labor, and error potential of manual interpretation
- Sample Centered Processing:
- Chemistry and immunoassay sample are processed in parallel
- Eliminates the need to move trays or aliquot samples
- Improves turnaround time and increases efficiency
- Single-use tips for sample and reagent metering
- Eliminates sample and reagent carryover
- Automatically detects clots and bubbles to avoid reporting erroneous results
- e-Connectivity[®]/Proactive Monitoring
- Highly secure, real-time, 2-way communication between your system and our support teams for timely resolution of technical issues

(801-0000)..... ea

VITROS[®] XT 7600 Integrated Chemistry System Analyzer QUIDELORTHO

The next generation of analyzer, the VITROS[®] XT 7600, is equipped with a new digital reflectometer, is powered by Digital Chemistry[™], and features the newly imagined XT MicroSlides.

- Maintains quality and accuracy to deliver the best patient care
- Greater productivity in the same footprint
- Market-leading first pass yield (FPY) of 96.5%
- Reduced patient sample size to 3.8 µL
- Improved interference detection
- Enables XT MicroSlide technology
- Improves our proven proprietary technologies

A COMPREHENSIVE MENU TO ANSWER LIFE'S REPRODUCTIVE QUESTIONS

Beckman Coulter offers a menu that supports fertility assessment and hormone monitoring. Labs can provide accurate, reliable results to clinicians that guide patient care decisions for people with reproductive health concerns.

Our comprehensive reproductive endocrinology menu addresses

Fertility assessment and management

Support the understanding and diagnosis of the underlying causes of infertility with a complete panel of fertility testing assays.

Prenatal screening

Provide better patient care and help lower overall cost throughout pregnancy. Aid in the identification of prenatal conditions.

Reproductive aging

Give answers to women struggling with infertility or planning to become pregnant later in life by measuring ovarian reserve.

Make HORIBA Your Trusted Partner for Chemistry & Hematology in Physician Office Labs

Anemia is a disorder of the blood that is linked to a deficiency of erythrocytes. In anemia there is deficiency of hemoglobin, a protein responsible for oxygen transport in the body. Anemia symptoms include fatigue, shortness of breath, weakness, and headaches. It is diagnosed when a blood test shows a hemoglobin value of less than 12.0 g/dL in a woman.

WHO estimates that half a billion women, age 15-49 years are affected by anemia.

HORIBA Chemistry & Hematology Systems include tests for anemia.

RELY ON US™ FOR YOUR 2025–2026 FLU VACCINE NEEDS!

A Flu Vaccine Program you can trust from **A COMPANY YOU CAN RELY ON**

This is our 19th year of offering the Worry-Free Guarantee Flu Vaccine Program,
more than 91 years of expertise in pharmaceuticals!

Market-Leading Brands

- Seqirus Flucelvax® Trivalent, Afluria® Trivalent, and Flud® Trivalent
- Sanofi Fluzone® Trivalent, Fluzone® HD Trivalent, and Flublok® Trivalent
- GSK Fluarix® Trivalent and Flulaval® Trivalent

Product Choice to Meet All Your Needs

- Adult and Pediatric
- Multi-dose Vials and Prefilled Syringes
- Cell Culture and Egg-based Options Available

WORRY-FREE PROGRAM COMPONENTS

ASK YOUR SALES CONSULTANT FOR DETAILS!

- Guaranteed Ship By Date
- Extended Payment Terms to 12/18/2025[†]
- Return Privilege*
- Option to increase quantity at time of order or later in the season**
- Discounts on ancillary and companion items during flu season
- Flu Practice Marketing Kit***

Visit **www.henryschein.com/flu**

*Offer good on minimum purchase of 7 vials and/or packs of Flucelvax, Afluria, Flud, Fluzone, Flublok, Fluarix and Flulaval. Returns must be in complete unopened vials or packs of syringes and allowable return percentage is specific to brand. Ask your sales consultant for more information. Returns will be in a form of a credit toward next year's flu purchases. Allowable flu vaccine returns must be received back to Henry Schein, Inc. between February 1, 2026 and April 30, 2026 for full returns credit.

Subject to availability. *Not available in California. †Subject to credit approval.
