Skin Cancer Awareness and Supporting Your Patients

Skin cancer is the most common cancer in the United States. While some individuals are at greater risk, anyone can develop skin cancer.¹ Each year, approximately 6.1 million adults are treated for basal cell and squamous cell carcinomas—totaling an estimated \$8.9 billion in treatment costs.²

As a trusted health care provider, you can play a vital role in helping your patients understand their risks and take preventive measures. Encourage your patients to check their skin regularly, including less visible areas like the soles of their feet.³ They should report any new or unusual moles or skin changes and become familiar with the A-B-C-D-Es of melanoma⁴:

A – Asymmetrical: Does the mole have an irregular shape or two halves that don't match?

B – Border: Is the edge irregular or poorly defined?

C – Color: Are there multiple colors or an uneven distribution?

D – Diameter: Is the spot larger than the size of a pea?

E – Evolving: Has it changed in size, shape, or color over time?

Skin cancer can appear in many forms, so any new growth, sore, or changing mole should be checked promptly. Encourage patients to protect against UV exposure and perform regular skin checks. With the right tools, you can provide thorough exams and timely care. **Partnering with Henry Schein Medical helps ensure your practice is ready to support prevention, diagnosis, and treatment—improving outcomes at every step.**

4. Moles to Melanoma: Recognizing the ABCDE Features (National Cancer Institute)

It's easy to protect yourself from UV exposure...

Long-sleeved shirts, pants, and a wide-brimmed hat offer the best protection. If you're wearing a baseball cap or short-sleeved shirt, make sure to put sunscreen on your ears, neck, and arms.

Use a sunscreen of at least SPF 15 on any exposed skin, and don't forget to re-apply it every two hours, as well as after swimming, sweating, or toweling off.

Seek shade as much as possible between 10 a.m. and 4 p.m., which are peak times for sunlight. Avoid indoor tanning.

If you work outdoors, ask about sun protection at your job, like wearing sun-protective clothing.

- Provides a flexible design that allows blade to be easily positioned at any angle for the intended procedure
- One-time-use only

#33-100, with Flexi-Ruler

(953-7731).....50/box

Silicone-Coated Surgical Blades INTEGRA MILTEX

Provide a smooth, sharp edge for a precise incision while, at the same time, requiring less force. The addition of a silicone coating offers a significant improvement and smoother surgical incision performance when compared to traditional standard carbon or stainless steel blades. Blades are sterile, single-use, with a 5-year shelf life. Each blade is packaged in a foil peel pack. Come in a dispensing box of 100 blades.

Surgical Blades.....100/box

Specify:

#10	(953-3949)	#15	(953-3951)
#11	(953-3950)		

Sterile Surgical Blades INTEGRA MILTEX

High-Frequency Desiccator

HENRY SCHEIN®

Designed and engineered to be the most reliable and durable desiccator available today, this unit's life is prolonged by incorporating the latest in chip technology and reducing the number of internal parts, thereby generating less internal heat. Post-procedure and long-term cleanup are simplified by its nonabsorbing, nonstaining, high-impact plastic case.

- 40-watt high-frequency desiccator
- Adjustable in 1/10-watt increments in the first 10 watts, in monopolar and bipolar
- More accurate power with Universal Power Control 100–240-volt AC
- Less to do and less to buy makes this the most cost-effective and user-friendly unit on the market
- This desiccator is a ground reference unit, which means no grounding pad is required
- 4-year warranty

Electrosurgical Generator and High-Frequency Desiccator

HENRY SCHEIN®

This electrosurgical generator is a high-frequency desiccator with cutting ability. One half of the unit is the Henry Schein High Frequency Desiccator. The other half is an electrosurgical generator that features 50 watts of cutting power and coag capabilities—plenty of power for most cutting procedures performed in the doctor's office.

- 40-watt high-frequency desiccator
- 2 machines in 1 convenient package
- Adjustable in 1/10-watt increments in the first 10 watts, in monopolar and bipolar
- No grounding pad is required during desiccation mode
- 4-year warranty

#A952 (570-0582).....	ea
--------------------------	----

ELECTROSURGERY

Aaron® Smoke Shark™ Smoke Evacuator ASPEN SURGICAL

Designed to be easy to use and is extremely effective at smoke and particle removal at the operative site. While designed for use with all electrosurgical generators, it is also excellent for use in controlling laser smoke.

- Easy to operate
- Quiet and effective smoke evacuation
- Long-life, 18-hour filter
- Low cost per procedure
- Excellent particle capture

TOPICAL SKIN ADHESIVE - OCTYL **NEW!**

High-Strength 2-Octyl Cyanacrylate Formulation

Advantages

Rapid set time

Flexibility without a plasticizer

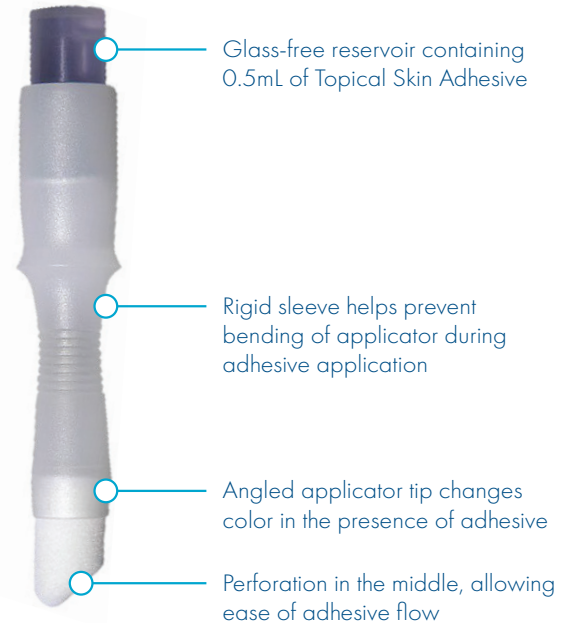

Ergonomic ampule designed for ease of handling and targeted application

Provides an effective microbial barrier and water-resistant protection

High tensile strength

Unique formulation will not solidify in ampule, allowing all .5 ml to be used

Gravity fed applicator delivery system - no need to squeeze ampule

Additional Information

Polymerization starts when adhesive comes in contact with tissue or fluid.

All 0.5 ml of adhesive can be used on the patient, as adhesive will not solidify in the ampule.

Topical Skin Adhesive will remain attached to the skin surface until natural cellular regeneration occurs (approx. 5-7 days). If needed, any standard adhesive remover product may be used to release the adhesive from the skin. Peel off the film, do not pull the skin apart.

Henry Schein® Topical Skin Adhesive - Octyl

Surgical Sutures

From A Name You Can Trust.

Maxima® Sutures by Henry Schein®

POLYLITH CARD

Helps reduce moisture content, an advantage with absorbable suture materials that degrade by hydrolysis.

NEEDLE PARK

Two needle parks to accommodate a wide range of needle types, sizes, and double-arm sutures. Needle park also protects needles from damage.

RACETRACK FEATURES AND BENEFITS

LARGER DIAMETER

Larger overall diameter to ensure less suture memory and minimize the number of suture rotations around track.

PRESS-PUSH NEEDLE LIFT

The tab, when pressed from behind, lifts for easy needle removal.

- Silicone-coated 300 series stainless needles give finer point geometry for superior penetration
- Precision needles are strong enough to resist bending, yet ductile enough to resist breaking
- Racetrack packaging helps reduce material memory as the suture is released from the track
- Large breadth of suture and needle combination for a range of surgeries
- Significant cost savings for your clinic compared to the leading brand

WOUND CLOSURE

HENRY SCHEIN® *Maxima*™ PTFE SURGICAL SUTURES

- Maxima PTFE (polytetrafluoroethylene) sutures are an excellent choice for dental bone grafting and implant procedures.
- Proprietary monofilament construction reduces the potential for bacterial migration into the surgical site.
- Ultrasoft, high-density material is designed with a low surface porosity.
- Black premium needles are made from 300-series stainless steel.

ITEM CODE	OSTEOGENICS CYTOPLAST**	NEEDLE	SIZE	LENGTH	RECOMMENDED USAGE	12/BOX
(112-7253)	CS0418	FS-2 (19mm, 3/8 reverse cut)	2-0	18	Larger suture size with a popular needle for procedures where a longer needle is desired	
(112-7254)	CS051819	FS-2 (19mm, 3/8 reverse cut)	3-0	18	A popular suture size and standard sized needle for general dental implant and bone grafting

WOUND CLOSURE

Wound Closure Strips

- Adhesive wound closures with an exceptionally porous, spun-bond fiber backing include bilateral nylon filaments for high tensile strength
- To be used in addition to or in place of sutures
- Each size is in a color-coded package for quick and easy size identification
- Medical-grade adhesive properties: Affords excellent adhesion, resistance to moisture, superior longevity, and is gentle to the skin
- Hypoallergenic: Designed for patient comfort and longer-term exposure
- Not made with natural rubber latex

1/8" x 3".....250/box
(900-4317).....250/box
Contains: 5 strips per envelope, 50 envelopes per box.

1/4" x 3".....150/box

(900-7506).....100/box
Contains: 4 strips per envelope, 25 envelopes per box.

Disposable Skin Stapler

- Enables the user to work with higher efficiency and assists in avoiding cross infection effectively
- Specially designed for surgical skin suturing
- Novel structure and application security allow for quick speed when sewing up during operation, modest histological reaction, and good wound-matching and healing
- No pain during removal
- Scarring is minimal

Topical Skin Adhesive-Octyl

This unique formulation will not solidify in ampule, allowing all 0.5 mL to be used. The ergonomic ampule is designed for ease of handling and targeted application. Sterile, single-patient use.

Made with 2-octyl cyanoacrylate, this formulation provides:

- Rapid set time
- High tensile strength
- Flexibility without a plasticizer
- An effective microbial barrier

Ethicon® Plus Antibacterial Sutures ETHICON

These sterile, synthetic, absorbable, surgical sutures contain triclosan, a broad-spectrum antibacterial agent. Used extensively for nearly 50 years, triclosan is an antimicrobial agent that coats the sutures as an added layer of protection. Available in 3 absorbable polymers: PDS (monofilament), Monocryl® (monofilament), and Vicryl® (multifilament braided) in a broad array of sizes, lengths, and needle types.

Medical tapes and wraps

Drive efficiency in your clinical practice and reduce tape SKUs

A choice that's critical to care. At Solventum, formerly 3M Health Care, we've made it easy to choose the right securement for each patient and application, with four classes of securement that can work harder and smarter.

Non-adhesive

3M™ Coban™ NL Non-Latex Self-Adherent Wrap*

Non-adhesive securement for clinical applications such as blood draws, dressings, immobilization, securement for difficult to dress areas (head, fingers, toes) and support and mild compression for soft tissue injuries (i.e. strains, sprains).*

Multi-purpose

3M™ Micropore™ S Surgical Tape*

Multi-purpose securement for clinical applications such as blood draws, light-weight dressings, IV lines and tubing (secondary securement) and non-critical tubes.

Flexible

3M™ Medipore™ H Soft Cloth Surgical Tape

Flexible securement for clinical application such as dressing and added pressure, IV lines and tubing (secondary securement), when swelling or movement is anticipated, central venous catheters (secondary securement), chest tubes and surgical drain tubes.

High-adhesion

3M™ Durapore™ Surgical Tape

High-strength securement for clinical applications such as urinary catheters, nasogastric tubes, orogastric tubes and patient positioning.

Contact your Henry Schein representative or visit [Solventum.com/MedicalTapes_Wraps](https://www.solventum.com/MedicalTapes_Wraps) to learn more

*Skin performance: Designates products that deliver the securement power you need while minimizing damage to skin.

*May use as a component in a compression wrap system support only under supervision of a wound care specialist.

Non-Woven Sponges DUKAL

- Rayon/poly blend construction
- Highly absorbent
- Multi-purpose sponges ideal for general wound care and applying ointments
- Virtually non-linting
- Not made with natural rubber latex

Fluff Bandage Roll DUKAL

- Made of washed, fluff-dried 100% cotton gauze
 - Open, crinkle weave provides quick wicking, maximum absorbency, and greater aeration
 - Finished edges reduce linting and loose threads
 - Adds bulk and loft that will conform as needed, secure dressings in place, and cushion the wound
 - Not made with natural rubber latex

Ritter® 224 Barrier-Free® Examination Chair
MIDMARK

The number of elderly and obese in the U.S. is steadily growing, and over one fifth of adults in America are disabled. Assisting patients with mobility limitations onto exam chairs has become a frequently performed task. Although caregivers working in health care facilities are in one of the most at-risk professions for musculoskeletal disorders, little has been done to evaluate and reduce risk. The Ritter 224 is designed to offer low and high positioning heights so you can provide the best care to all patients, whether treating the elderly, expectant mothers, or patients with disabilities.

Midmark® 641 Power Procedure Chair
MIDMARK

This chair offers maximum accessibility to your patient, versatile positioning, and premium patient comfort for such aesthetic procedures as dermatology, plastic surgery, and ENT. Delivers maximum head and neck access.

- Narrow patient support surface and slim back section provide required accessibility; work closer to patient with proper posture, and be injury-free
- Tuck-away side rail for improved access to patient; extend for mounting accessories, and to adjust, simply loosen knob, position rail, and tighten knob
- For proper patient positioning, powered movement of seat, back, foot, and tilt offer multiposition capabilities, improving comfort and reducing likelihood of injury
- Foot rest can be extended for taller patients; squeeze recessed lever on either side to unlock and rotate to extend. Lightweight for easy operation and equipped with safety system to prevent collision with floor

#641-002, Nonprogrammable Procedure Chair (109-2364).....	ea
#641-003, Programmable Procedure Chair with Receptacles (108-7826).....	ea

- Premium Comfort System™, advanced elastomeric material stretched over a seat cutout, enhances patient comfort for a chair-like feel in a procedure table
- Optional rotation: allows patient to be repositioned instead of the device
- Optional one-touch positioning: press a single button and all sections move simultaneously from chair (or any position) to flat position (or any programmed position. 4 Favorite positions can be stored
- Optional wireless controls: remove cords and eliminate obstacles; enjoy freedom of locating hand and foot control anywhere in the room
- Optional chair arms: upholstered and contoured for comfort

HYPODERMICS

SOL-M™ Syringe

SOL-MILLENNIUM

Luer-lock, Without Needle

#P180001PP, Low Dead Space, 1 mL
(138-6993)..... 100/box

#P180003, 3 mL
(139-6147).....100/box

SOL-CARE™ Luer-Lock Safety Syringe without Needle

SOL-MILLENNIUM

Designed with an integrated safety feature that retracts the needle back into the barrel. The ability to break the plunger off also aids in preventing needlestick injury. Exchanging needles or connecting to devices with a Luer-lock fitting (e.g., SOL-M™ Blunt Fill Needle) is quick and effortless.

#120006IM, 3 mL
(261-0263)..... 100/box

#120007IM, 5 mL
(136-7865).....100/box

SOL-GUARD™

Safety Needles

SOL-MILLENNIUM

Designed to help prevent needlestick injury. The robust safety mechanism is intuitive and compatible with all standard Luer-lock and slip-tip syringes.

#SND486, 25 ga x 5/8"..... 100/box
(139-8460)..... 100/box

#SND475, 25 ga x 1"..... 100/box
(139-8463)..... 100/box

SOL-M™ Syringe with Exchangeable Needle

SOL-MILLENNIUM

- Non-safety
- Regular wall
- Blister pack
- Luer Lock

3-mL Syringe with Needle
#1832558, 25 ga x 5/8"..... 100/box
(139-6149)..... 100/box

#1832510, 25 ga x 1"..... 100/box
(139-6153)..... 100/box

#1832515, 25 ga x 1 1/2"..... 100/box
(139-6151)..... 100/box

#1832310, 23 ga x 1"..... 100/box
(138-7006)..... 100/box

SOL-CARE™

Safety Needles

SOL-MILLENNIUM

This needle-based safety device helps users easily convert from non-safety to safety, protecting health care workers from exposure to needlestick injuries. The standard hub is compatible with all standard Luer-tip syringes, while the reduction of extra dead space minimizes medication waste. An audible click confirms activation of the safety mechanism.

#SN2510, 25 ga x 1", Orange Cap
(138-6994)..... 100/box

#SN2310, 23 ga x 1", Blue Cap
(138-6998)..... 100/box

SOL-CARE™

Luer-Lock Syringes with Safety Needles

SOL-MILLENNIUM

Can be used with any standard Luer-lock or slip-tip syringes. Bevel-up needle allows for low-angle injections. Once activated, the needle remains securely fastened via a double-lock mechanism.

#12558SN, 1 mL, 25 ga x 5/8", Orange
(138-7044)..... 50/box

#12310SN, 1 mL, 23 ga x 1", Blue
(139-6165)..... 50/box

#32558SN, 3 mL, 25 ga x 5/8", Orange
(139-2919)..... 50/box

#32510SN, 3 mL, 25 ga x 1", Orange
(138-7465)..... 50/box
