Heart Health Program

Henry Schein Cares is *"helping health happen"* by supporting the American Heart Association (AHA) as a proud sponsor of the Long Island Heart Walk while helping to prevent cardiovascular disease through our Heart Health Program.

The American Heart Association is committed to fighting heart disease and stroke, and raising awareness of these diseases. As part of their mission, they focus on specific causes designed to help people achieve a heart-healthy lifestyle and aim to be a relentless force for a world of longer, healthier lives.

Did You Know?

In the United States:
Heart disease is the leading cause of death for men, women, and people of most racial and ethnic groups.[1]

One person dies every 33 seconds from cardiovascular disease.[1]

By living a healthy lifestyle, you can help keep your blood pressure, cholesterol, and blood sugar levels normal and lower your risk for heart disease and heart attack.[2]

For more information on the American Heart Association, please contact Darby.Hall@heart.org, or visit www.heart.org.

TABLE OF ■ CONTENTS:

THE HEALTH OF YOUR MOUTH AND YOUR HEART ARE **CONNECTED**

Prevention is Power is a multi-year public health awareness campaign that provides tools for health care poviders to foster an understanding of the connection between oral health and overall health for their patients; and empower them to promote the importance of maintaining routine preventive care to reduce the burden of noncommunicable diseases (NCDs), including heart disease, diabetes, and other conditions.

The research is clear:

Regular access to preventive health care

⬇

Improved health for individuals, communities, and society

⬇

Higher productivity and economic growth

KNOW YOUR RISK

2 in 5 adults have gum or dental disease

If you have gum disease, you are:

2X as likely to die from heart attack

3X as likely to die from stroke

and your risk increases over the age of 65

TEETH, GUMS & HEART HEALTH CONNECTION

Gum disease and cavities can lead to serious problems for your heart health.

• Germs from the mouth enter the bloodstream and may add to plaque in the neck and heart arteries–these blockages can cause heart attack and stroke

• Germs in the mouth can trigger inflammation that swells blood vessels, reduces blood flow, and increases risk of clots

HIGH BLOOD PRESSURE & THE HEALTH OF YOUR MOUTH

High blood pressure not only affets your heart health but also can impact your teeth and gums.

• Changes in blood flow can affect the health of gums

• If you have high blood pressure, discuss your personal risks with your provider and get screened for other health conditions

The Challenges to Overcome

64% of Americans only go to a physician or dentist when something feels "extremely wrong"

53% say it is difficult to access health care

35% say they would benefit from more information and education about the importance of screenings and routine care

Connex® Spot Monitor
BAXTER

Features an easy-to-use, vivid touch-screen display and provides accurate vital signs measurement, including blood-pressure averaging, spot checking, interval monitoring and custom scoring across patient populations. Device connects wirelessly to an EMR and accurately sends vitals to the patient chart from the point of care to help improve efficiency.

- Designed for the physician-office environment with an easy-to-use, vivid touch-screen display
- More accurate hypertension diagnosis without slowing down your workflow thanks to automated blood-pressure averaging
- Improved capabilities for assessing respiratory conditions such as COPD, asthma, and community-acquired pneumonia (CAP), thanks to integrated professional-grade pulse oximetry
- Increase staff efficiency and eliminate data-entry errors with wireless transfer of vital signs directly into an EMR

Welch Allyn ProBP™ 3400
BAXTER

Small enough to carry everywhere, with the same accuracy as Welch Allyn industry-leading vital signs devices, the Connex® ProBP™ 3400 digital blood pressure device is a smart choice for just about every clinical setting. SureBP™ technology lets you take fast, accurate blood pressure readings in just 15 seconds, while USB-wired connectivity lets you send them straight to your EMR/HIS. Includes Adult and Large Adult cuffs. The ProBP™ 3400 is not intended for neonatal use.

IQVitals® Touch-screen Device
MIDMARK

This affordable, Windows®-based, touch-screen device provides automated blood pressure, temperature, SpO$_2$ and pulse rate readings with a touch of the screen. An alphanumeric keyboard allows for fast and easy entry of patient data, and the intuitive design increases productivity and simplifies staff training. IQvitals™ can be used as a stand-alone unit, connect to a computer with IQmanager™ software, or will connect seamlessly to select EHR/EMRs.

IQVitals® Zone™ Vital Signs Wireless Monitor
MIDMARK

The only wireless vital signs monitor that automatically connects to a computer using zero clicks, importing data directly into the EMR to eliminate manual transcription errors. Using Midmark Zone™ technology, the IQVitals wireless monitor connects to a computer without cables or manual pairing. The Serenity BP™ linear deflation system, designed by Midmark, delivers quick and accurate measurements while ensuring greater comfort for the patient. All functions can be operated at the point of care via the computer or the user-friendly touchscreen. Each IQVitals Zone device includes an Exergen TemporalScanner™ thermometer.

Key features:

• Rechargeable lithium-ion battery
• Non-invasive oscillometric blood pressure method
• Exergen TemporalScanner infrared thermometer
• Masimo or Nellcor Sp0$_2$ measurement options
• 3 mounting options to suit any workflow

Reusable Blood Pressure Cuffs
MIDMARK

Designed for use with the Midmark Digital Vital Signs Device, these cuffs combine durability, precision, and patient comfort. Engineered to be leak-resistant and long-lasting, they deliver consistent, accurate, dependable readings. Crafted with patient care in mind, they provide a comfortable fit, ensuring a positive experience for both clinicians and patients. Available in a variety of sizes to accomodate a broad range of patients, they are an economical and practical solution for health care providers seeking high-quality performance and versatility.

GAMMA™ G5 Aneroid Sphygmomanometer
MIDMARK

The GAMMA G5 sets the standard for reliability and durability in its class. Its core design features a robust housing and spoon, crafted from high-strength, impact-resistant, 2-component thermoplastic. This premium construction ensures long-lasting performance, even under demanding conditions. The GAMMA G5's innovative shock-absorbing system is meticulously designed to safeguard the device against impact and vibration. This intricate system not only enhances durability, but ensures precise and consistent performance over time.

Improving Patient Health Better BP®

Heart disease is the leading cause of death for Americans today and hypertension is a contributing and modifiable risk factor for heart disease and stroke.[1] **Proper patient positioning** alone can lower resting blood pressure (BP) measurements by 7 mmHg systolic and 4.5 mmHg diastolic.[2] That's why, Midmark designed the first and only fully integrated point of care ecosystem that has been clinically validated to achieve improved accuracy for a resting BP.

01 Low-height exam chair helps patients keep their back supported and feet flat on the floor

Articulating arm rail supports the patient's arm and cuff at heart height

02 Automated vital signs promote consistency and data accuracy

03 EMR connectivity improves workflow efficiency and reduces errors

Scan to explore the latest study reporting the cumulative effect of poor positioning that occurs when BP is taken with the patient sitting on a typical clinical exam room table.

1 https://www.cdc.gov/nchs/fastats/leading-causes-of-death.htm

Point of Care Ecosystem BP Checklist

Standardization, whether it be in one facility or across a network of sites, poses challenges for today's health systems. One area that can be especially challenging is blood pressure (BP) measurement. BP capture continues to be one of the most inconsistently performed tests in the clinical environment.[1] In fact, many healthcare providers may not be aware of recommendations for more accurate BP measurements. Left unaddressed, this lack of adherence can pose serious risk for health systems. We hope you will use this checklist to help ensure an accurate, precise and repeatable BP measurement—every patient, every time.

7 SIMPLE STEPS FOR AN ACCURATE BP READING[1]

☐ **No Talking**
Neither the patient nor the person taking the measurement should talk during the procedure. The patient talking or actively listening can increase the measurement by 10 mmHg.

☐ **Cuff Placed on Bare Arm**
The upper arm should be bare. Any clothing covering the cuff location should be removed. Placing the cuff over clothing can add 5 to 50 mmHg. Clothing covering the cuff location should not be rolled, so as to not have a tourniquet affect above the BP cuff.

☐ **Arm Supported at Heart Level**
The patient's arm should be supported at heart level (the middle of the cuff on the upper arm should be at the level of the right atrium). An unsupported arm can add 10 mmHg to the measurement.

☐ **Empty Bladder**
Having a full bladder during BP acquisition can add 10 mmHg to the BP reading.

☐ **Back Supported**
The patient should be seated comfortably with the back supported. If the patient's back is not properly supported, the measurement can increase 6 mmHg.

☐ **Legs Uncrossed**
The patient should be seated comfortably with legs uncrossed. If the patient's legs are crossed, the measurement can increase 2 to 8 mmHg.

☐ **Feet Flat on the Floor**
The patient should be seated comfortably with feet flat on the floor. If the patient's feet are not flat on the floor, the measurement can increase 6 mmHg.

Designing better care.

Sprague Rappaport 640 Proscope™ and 641 Adscope™ Stethoscopes
AMERICAN DIAGNOSTIC CORPORATION

The Sprague stethoscope is a rugged instrument specially designed to suit most professional requirements. The 640 series features a threaded chest-piece drum that permits the use of 5 interchangeable chest pieces: an adult and pediatric diaphragm, and 3 bells (1¼", 1", ¾"), all included, for accurate detection of high, middle, and low frequency sounds in children and adults. Proscope 640 features 16" tubing and 1-year warranty. Adscope 641 features 22" tubing and 5-year warranty. Black.

• Double tube configuration improves acoustic separation
• Large bore improves amplification
• Rugged design for years of dependable service

#640BK, 640 Proscope with 16" Tubing

Advantage™ 2200 Fingertip Pulse Oximeter
AMERICAN DIAGNOSTIC CORPORATION

This portable device is perfect for use at home, during sports activities, or in aviation. It offers precise readings with an SpO_2 accuracy of +/-2% and a heart rate accuracy of +/- 5 BPM.

Key features include:

• 2 adjustable display modes
• Bright red LED display
• Compatible with finger thickness of 0.31" to 0.79"
• Includes a carry lanyard and instruction booklet
• Powered by 2 AAA batteries (included)
• 1-year limited warranty

(124-6142)..ea

Non-Contact Infrared Thermometer #IR 300
MEDSOURCE INTERNATIONAL

Provides instant temperature readings without worry of physical contact or cross contamination. Measuring distance of 0.4"–2". Temperature displays in <2 seconds. Color digital screen changes color to indicate normal, medium, or high temperature. Automatic power-off in <18 seconds. Memory function records temperature settings for up to 50 groups on 2 AAA batteries. Batteries included. 1-year device warranty.

Advantage™ 6021N Automatic Digital Blood Pressure Monitor
AMERICAN DIAGNOSTIC CORPORATION

This fully automatic upper-arm digital blood-pressure monitor is designed for home use. It measures systolic and diastolic pressure as well as pulse. Equipped with Smart Logic Modulation (SLM) technology, it ensures a gentle inflation process for optimal comfort and accuracy. The monitor features a self-adjusting, extended-range non-latex D-bar cuff that fits arms from 8.7" to 16.5".

Key features:

• Automatic inflation and deflation control
• Irregular heartbeat detector
• Stores the last 99 readings with date and time stamp for 2 users
• Automatic shut-off function
• Made without natural rubber latex
• Includes 4 AA batteries
• 5-year warranty

(122-6355)...ea

Blood Pressure Unit
MEDSOURCE

This high-quality BP unit features an accurate, no-needle stop gauge, a durable, easy-to-adjust nylon cuff with hook-and-loop fasteners and a standard pressure-release valve. It was created for the cost-conscious care provider who is not willing to compromise on accuracy and quality. Each unit is sold complete with matching carrying case.

• Range: 0–300 mmHg
• Carrying case included
• Durable nylon cuff
• Accurate, no-needle stop gauge

ePM 10A Configured Patient Monitor
MINDRAY

Exceptional user interface and enhanced parameter functionality, delivering a monitoring solution to fit multiple care environments. Immediate and measurable benefits of the smartphone-like user interface that delivers 98% of all common monitoring functions with just 2 gestures, reducing time clinicians spend navigating monitor functions, and more time on what matters most: patient care. Advanced monitoring options include 3- and 5-lead ECG, SpO_2, NIBP, respiration, and temperature supporting multiple clinical workflows. ePM 10A has a compact, ergonomic design that is perfectly suited for healthcare facilities managing a steady flow of patients daily. Add optional CO_2 capability to aid clinicians to identify signs of patient deterioration due to respiratory distress. Manufactured with industry-leading plastics that stand up to the most stringent medical-grade cleaners. The concealed grab-and-go handle eliminates hard-to-clean crevices and eases clinical workflow while on the move. Flexible mounting options for bedside and transport.

• Dimensions: 10.6" x 9.9" x 6.3"

ePM 12MA Patient Monitor
MINDRAY

Exceptional user interface and enhanced parameter functionality, delivering a monitoring solution to fit multiple care environments. Immediate and measurable benefits of the smartphone-like user interface that delivers 98% of all common monitoring functions with just 2 gestures, reducing time clinicians spend navigating monitor functions, and more time on what matters most: patient care. Advanced monitoring options are integrated: 3- and 5-lead ECG, SpO_2, NIBP, respiration, and temperature-supporting multiple clinical workflows. The ePM 12MA features a semimodular design with a plug-and-play module structure that adds monitoring functions such as CO_2 and multigas, where and when needed. The 12MA eGM multigas module automatically identifies and measures the inspired and expired values of O_2, CO_2, N_2O and 5 anesthetic agents, providing a compact, yet comprehensive OR monitoring solution. Manufactured with industry-leading plastics that stand up to the most stringent medical-grade cleaners. Concealed grab-and-go handle eliminates hard-to-clean crevices and eases clinical workflow while on the move. Flexible mounting options for bedside and transport.

• Dimensions: 12.2" x 11.4" x 6.7"

seca 777 Physician Scale
SECA

With Eye-Level Display

The ideal solution for weighing and measuring. The oversized, low-profile, full-metal platform accommodates all body types, and the tilt-proof safety design ensures extra stability. In addition, the scale offers a built-in measuring rod with a 4"–90" measuring range, and the large, rubber-coated casters allow for convenient transportation. The scale features a USB interface for PC connectivity solutions. An 8-year warranty (4 times the industry standard) is included at no extra cost.

• Capacity: 550 lb/50 kg
• Built-in measuring rod with 4"–90" measuring range
• Robust, oversized, low-profile, full-metal platform
• Anti-tip column safety design
• Large, rubber-coated casters for easy transport
• Display is swappable to left or right side
• USB interface for PC connectivity
• 8-year warranty (4 times the industry standard)
• Optional 477 handrail (HS Item #138-4356)
• Available in kg only (HS Item #138-5120)

MAC 7 Resting ECG
GE HEALTHCARE

Intuitive. Connected. Secure.

Sophisticated yet accessible, with an intuitive touchscreen interface that enables users of all backgrounds to acquire quality ECGs in just a few touches. In addition, MAC 7 helps overcome common ECG challenges such as system compatibility and privacy. Its reliable connectivity and seamless integration help propel ECGs through the workflow, while advanced security features protect patient data and the network. Every aspect of MAC 7 is designed to maximize workflow efficiency for today's cardiac care.

TO PERFORM HIGH-QUALITY, HANDS-ONLY CPR:

All ZOLL® AEDs include integrated, real-time CPR feedback technology developed to meet the recommended guidelines of the AHA.

ZOLL®

- Push hard and fast in the center of the victim's chest
- Maintain a compression depth of 2 to 2.4 inches
- Allow full recoil of the chest between compressions
- Perform 100 to 120 compressions per minute
- Administer continuous CPR with minimal interruptions (pauses >10 seconds if possible)

Any CPR is better than no CPR, but aim for high-quality CPR.

Product Featured: ZOLL AED 3 Automatic | Part Number 1385147 | ZOLL Medical - 8511-001102-01

ZOLL AED Plus®
ZOLL MEDICAL CORPORATION
Bringing Lifesaving Defibrillation to Everyone

- Provides a one-piece electrode for accurate placement
- Uses consumer lithium batteries that are easy to replace, long-lasting, and inexpensive

Powerheart G5 AED
ZOLL MEDICAL CORPORATION
The Powerheart® G5 AED with Intellisense™ CPR provides corrective feedback to ensure delivery of high-quality compressions. One-button dual-language functionality and comprehensive self-tests give rescuers the confidence to act.

- Intellisense™ CPR Feedback provides real-time voice and text corrective prompts for CPR quality
- Rescue Ready® conducts regular, automatic self-tests on pads, battery, and internal circuitry
- RescueCoach™ guides users through each critical step of the rescue with user-paced voice/text prompts
- Dual language change from primary to secondary language in the push of a button

AED Pro® Automated External Defibrillator
ZOLL MEDICAL CORPORATION
This external defibrillator provides advanced capabilities for BLS and ALS users with innovative Real CPR Help® technology for rate and depth of chest compressions. The See-Thru CPR® capability filters CPR chest compressions, displaying the underlying cardiac rhythm. The AED Pro is unmatched in its ruggedness and durability and is ideal for any environment.

- Available as semiautomatic only or semiautomatic with manual override for ALS professionals
- Built-in internal memory and external USB memory technology allows expanded data storage capacity and maximum flexibility for data management and transfer
- Electrodes and battery compatibility with ZOLL M Series®, E Series®, and R Series® professional defibrillators
- ECG monitoring with 3-lead cable and high-quality display
- Unrivaled battery options (long-life disposable or rechargeable) that meet specific needs

(869-6270)..ea

CRASH CART AUTO-REPLENISHMENT
powered by OnTraq

Crash cart management simplified

Tracking expiration dates and reordering crash cart supplies can be a cumbersome task that is subject to compliance risk. To overcome this challenge, the OnTraq Crash Cart Auto-Replenishment service ensures that enrolled emergency medications are tracked and automatically replaced just prior to expiration to maximize shelf life, save money and ensure readiness.

Medication and auto-replenishment service overview

- Provide HealthFirst with a list of medications to be enrolled
- OnTraq notifies you when a medication is expiring and is ready for replenishment
- HealthFirst ships you the expiring medication to replenish your crash cart
- Use the OnTraq online dashboard to view the status of medications at any time

Medications and equipment in low units of measure

- Extensive list of emergency medications available
- HealthFirst is licensed and uniquely qualified to repackage, distribute and track single unit medications
- Medication disposal service included

DSCSA compliant single dose medication distribution

Individual DSCSA Compliant Vial

- QR Code
- RFID
- NDC/Lot Number/Expiration
- No outer packaging to open to access medication

I.V. MEDICATION DELIVERY

From a Name You Can Trust.

Medication Delivery Sets and Connectors

Henry Schein provides market-leading infection control technologies to help minimize bacterial contamination. We carry a wide selection of injection and needle-free medication delivery ports to meet a variety of medication delivery needs.

Features & Benefits:
- Flat top needle-free valve with tight septum seal helps to support effective disinfection
- Metal free for MRI compatibility
- DEHP-free, non-latex and sterile

Item Code	Type	Product Description	Qty/Unit

Triple Facet Back Cut Needle
Provides ease of insertion and reduced trauma to puncture site

Push Off Tab
Assists with catheter advancement

Push Button Mechanism
Retracts needle fully and safely into catheter chamber

Fully Encapsulating Needle Shield
Reduces exposure to blood borne pathogens via needle stick injuries

Gently Tapered Catheter Tip
Provides smooth transition from needle to catheter during insertion

Contoured Housing
Ergonomically designed grips allows for one handed or two handed techniques

Large-Volume Chamber
Allows clear visual confirmation through flash-back and easy handling

Needle
(Featured in sizes 20g - 24g)
The notched needle promotes fast confirmation of venipuncture

Catheter Material
PUR material designed to remain kink free and soften within the body

Worldwide Vascular Solutions

Revolutionizing vascular healthcare with affordable, high-quality devices

Delivering innovative vascular medical devices, with a special emphasis on Outpatient and Ambulatory Surgery Centers (OBL/ASCs).

Falexpand HP PTA Balloon Catheter

High-Pressure with RBP up to 24atm 0.035" OTW, 6F, Dia:3-12mm, BL: 20-200mm, CL: 40cm, 75cm, and 135cm

High-pressure and semi-compliance PTA balloon catheters with soft and tapered tips for better lesion crossing with hydrophilic coating and small profiles for challenging stenosis

Falspeed Semi-Compliance PTA Balloon Catheter

Semi-compliance with Dia: 2.0 to 7.0mm, BL: 20 to 300mm, CL: 150cm (OTW), Tip Crossing: 0.0225", 4F to 6F, NP: 6atm
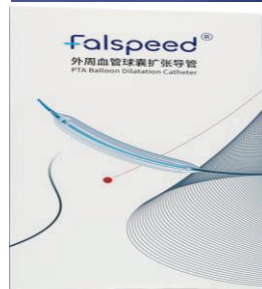

014" Workhorse Guidewire (300cm)

Distal 40cm high-load Nitinol for fast recovery with Stainless Steel body for predictable tracking.
Shapable tip design with 0.8g & 1.5g tip weight options; moderate support

018", 032", and 035" Workhorse Guidewire

Nitinol core wire guarantees great tip shape resistance, outstanding kink resistance and 1:1 torque control
Straight, Angled, and Shapeable tips, Standard and Stiff shaft
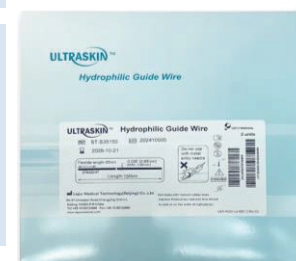

Balancing Quality & Affordability

Curatia
WWW.CURATIAMED.COM

A Global Leader in Vascular Access Devices

URSA
Angiographic Catheter

Indicated for delivering radiopaque media to the selected vascular system

• Catheter OD: 4F, 5F, 6F with 73 different tip shapes
• 3-layer, 16 wires braiding composite catheter shaft design

AutoSeal
Hemostasis Valve Kit

Indicated for maintaining a seal around interventional device and prevent back bleeding

• Seal pressure 500 psi
• One hand Auto seal operation
• Dual seals to prevent leak
• Max bore size 0.100" (2.54mm)

EXTesia
Introducer Sheath Set

Indicated to placing a catheter through skin into a vein or artery

• Sheath set consists of a sheath, a dilator, an entry needle or IV catheter, guidewire, flushing syringe and scalpel
• Selections of 4-7F sheaths, 2 types of guide wires in 5 different sizes, 2 types cannulation tools (IV catheter & needle)

VELA
RX Balloon Dilatation Catheter

Indicated for dilating stenoses in peripheral including femoral, popliteal, infra popliteal and renal arteries

• Balloon OD 1.5 – 4.0mm with length 10,20,30, 40mm
• A 0.014" guide wire rapid exchange (RX) catheter system
• Balloon nominal pressure at 6 atmospheres & RBP at 20 atm

NAVAJO
PTA Balloon Catheter

Indicated for dilating stenoses in iliac, femoral, ilio-femoral, popliteal, infra popliteal, and renal arteries

• Balloon Sizes: Balloon OD 5 – 10 mm with length 40,60, 80mm
• A 0.035" guide wire, over-the-wire (OTW) catheter system
• Balloon nominal pressure at 6 atmospheres & RBP at 16 atm

XCESS
Guiding Catheter

Indicated for intravascular introduction of interventional/diagnostic devices into the coronary or peripheral vascular system

• Catheter OD: 5 and 6F with 53 different tip shapes
• A 3-layer composite structure with inner PTFE lubricious layer, metallic wire braiding and various polymer elastomers outer layers

QuidelOrtho™
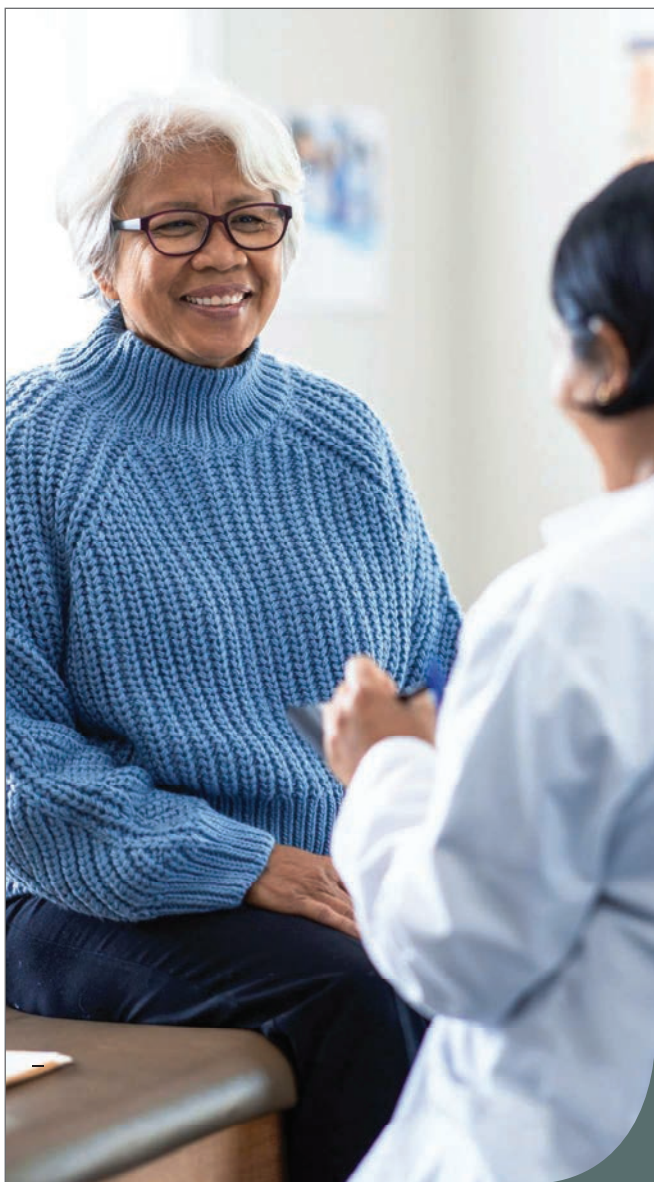

Triage® System

Lab quality results at point-of-care speed. With its comprehensive menu, the Triage system is an easy-to-use system that provides the reliable diagnostic answers you need to make rapid, cost-effective treatment decisions at the point of care.

Easy to use for fast results

Runs whole blood, plasma or urine samples to generate quick results in 15-20 minutes. Patient sample testing is a simple three-step procedure with user-friendly test cartridges that are easy to manage.

Accurate lab quality results

Test cartridges utilize advanced microfluidics and internal controls for providing consistent accurate results. Its diverse immunoassay menu delivers reliable diagnostic answers for quantitative troponin I, CK-MB, myoglobin, BNP, NT-proBNP, d-dimer and qualitative TOX drug screen.

Learn more about the Triage system by scanning the QR code, visiting **quidelortho.com**, calling us at **800.874.1517** or reaching out to your Henry Schein representative.

New QuidelOrtho branding may not be available in all markets, subject to country-specific regulatory approval. Please confirm with your local commercial team.

Triage® MeterPro™ Meter
QUIDELORTHO

High-performance, comprehensive cardiovascular and drugs-of-abuse testing in the laboratory or at the point of care (POC). Designed to provide diagnostic results quickly and easily. Quantitative diagnostic panel results are displayed and printed in easy-to-read numbers and highlighted when the result is above the cutoff. Qualitative diagnostic panel results are displayed as positive (POS) or negative (NEG), eliminating the need for interpretation of lines that often hamper qualitative diagnostics.

- 16 immunoassays available
- Results in about 15 minutes
- Whole blood, plasma, or urine
- Customizable test panels
- Onsite training and implementation support
- Results printed, displayed, and interfaceable
- Full connectivity support

CardioChek®
Plus Analyzer
HENRY SCHEIN®

Fast, Accurate, Efficient Lipid and Glucose Results at the Point of Care

Recognizing the strong connection between heart attack, stroke, and diabetes, the CardioChek® Plus Analyzer provides rapid, on-site blood-chemistry values and measurements to help identify at-risk individuals.

- Fast: On-site lipid and glucose results in as little as 90 seconds; simple, quality-control testing
- Portable: compact and lightweight, easy to transport and store; handheld and battery-operated; and room-temperature test strips
- Patient-friendly: fingerstick with sample size of 1.1 µL to 40 µL
- Wireless communication: easy data transfer
- Measures total and HDL cholesterol, triglycerides, and glucose
- Calculates LDL and non-HDL cholesterol as well as TC/HDL and LDL/HDL ratios
- Certified accuracy
- CLIA waived
- Meets NCEP guidelines for accuracy and precision
- FCC- and ISO-certified wireless communications
- CRMLN-certified for CHOL and HDL tests
- FDA cleared

CoaguChek® ⟨Roche⟩

Realize the value of Point-of Care INR testing with CoaguChek® solutions

Point-of-Care (POC) INR testing can be a valuable component of a successful warfarin therapy program.

Rather than sending patient blood samples to the lab and waiting days for results, in-office testing:

- Enables immediate therapy decisions by delivering on-the-spot results
- Saves valuable time and unnecessary steps
- Helps reduce risk and cost of treatment related complications [1]

CLIA WAIVED

To learn more about POC INR testing with CoaguChek systems, visit go.roche.com/coaguchekproducts

CoaguChek XS® System
ROCHE DIAGNOSTICS
PT/INR Monitoring Solution

The next generation in point-of-care international normalized ratio (INR) testing, this new system uses exclusive smart technology to help ensure accurate results and offers the flexibility and control that healthcare professionals need to confidently manage a wide range of anticoagulated patients. It is the only system to perform onboard quality control and determine patient results in a single test chamber.

- CLIA waived
- Neutralizes therapeutic levels of heparin and LMWH
- INR corrected for hematocrit within specified range; manage a broad array of patients with a single device
- Small sample size (8 µL) for easy dosing
- Strip allows dosing from either top or side for simple blood application
- Small, battery-powered, handheld meter for portability and efficiency
- New onboard controls; no external QC necessary
- Auto-on with strip insertion and auto-off capabilities
- 18-month strip shelf life; no refrigeration needed
- Made in the USA

HemoScreen
Lab quality CBC at the Point of Care

PixCell
MEDICAL

- **PORTABLE** PLUG-AND-PLAY EXCEPTIONALLY **EASY TO USE**
- **NO MAINTENANCE**, CALIBRATION, OR REAGENTS REQUIRED
- **CLINICALLY BACKED** ACCURACY, SPECIFICITY & ABNORMAL FLAGGING
- JUST **3 SIMPLE STEPS** 5 MINUTES TEST-TO-RESULT

Introducing the HemoScreen™ CBC analyzer – the only 5-part diff CBC analyzer FDA-cleared for Point-of-Care use and also cleared for direct fingerstick sampling.

Within 5 minutes, the analyzer measures 20 CBC parameters, including a 5-part differential, with central lab precision.

(145-8821) | HemoScreen CBC Analyzer
(145-9573) | CBC Test Kits (50)
(145-9585) | HemoCup Dispenser (100)
(145-9593) | CBC-PIX QC Kit

(146-3781) | HemoScreen Carrying Case

HemoScreen™ Analyzer
PIXCELL

- CBC testing requires only 40 µl of venous or capillary blood and provides results within 5 minutes
- Measures 20 standard CBC parameters with the accuracy and precision of the most advanced central lab analyzers
- For *in vitro* diagnostic use only
- The only CBC with 5-part differential that is FDA-cleared for point-of-care use
- Sample type: whole blood only
- HemoScreen purchase requires initial order of 100 CBC Test Kits (2 boxes)

#HS-FA-30219
(145-8821)...ea

HemoScreen™ CBC Test Kit
PIXCELL

- A self-contained disposable unit in which a single blood sample is prepared for CBC analysis
- Includes 2 components: a sampler and a cartridge
- The disposable sampler has 2 capillaries used to collect a 40-µl blood sample (capillary or venous.) It is then inserted into the disposable reagent cartridge, and the prepared Test Kit is ready for HemoScreen analysis
- The CBC with 5-part diff test begins; results in 5 minutes
- The CBC Test Kit is a required accessory to the HemoScreen Analyzer. One box includes 50 disposable Test Kits (cartridge and sampler)

#BC-FA-00400
(145-9573).. 50/box

### HemoScreen™ CBC Test Kit Component–Samplers Only
PIXCELL

- A disposable unit used for collection of a 40-µl blood sample (capillary or venous)
- The sampler must be inserted into the disposable reagent cartridge to complete CBC test kit preparation
- Extra samplers sold separately in 50-piece packages

#BC-MA-00100
(145-9575)...ea

HemoScreen™ Barcode Scanner
PIXCELL

- HemoScreen compatible 2D barcode scanner is used to load patient sample ID and QC expected ranges into the HemoScreen analyzer
- Sample ID can also be entered via the user interface keyboard
- Barcode scanner is highly recommended to upload QC assay sheet recovery range

#AC-S-00006-00
(145-9584)..ea

HemoScreen™ Printer
PIXCELL

- Optional direct thermal printer
- HemoScreen-compatible external USB printer can be used to print test results
- Test results are saved in system archives and are electronically transferable

#AC-S-00005-00
(145-9248)..ea

HemoScreen™ HemoCup
PIXCELL

- A disposable tool used to simply dispense venous blood samples from a K2EDTA tube to the test kit sampler
- This easy-to-use tool is an alternative to dispensing K2EDTA blood samples with a pipette or directly filling the sampler from a K2EDTA tube

#AC-MA-00100

HEALTHY HEARTS START AT THE POINT OF CARE

FEBRUARY IS HEART HEALTH MONTH

BUT PREVENTING HEART DISEASE IS IMPORTANT YEAR-ROUND

Cholestech LDX™ System—the market leader in lipid testing[1]

Cholestech LDX™ helps turn coachable moments into improved patient outcomes.

Small 40 μL fingerstick sample

Highly accurate results in 5 minutes

Easy to use in just 3 steps

Contact your Henry Schein representative or scan the QR code to learn more about the Cholestech LDX™ System.

Reference: 1. Data on file. Abbott 2024.

- CLIA waived
- Procedure saves time and enhances productivity
- Small, tough, and portable
- Eliminates anxiety of venipuncture; requires only a fingerstick
- On-the-spot adjustment of therapy and improved patient compliance
- Accuracy comparable to laboratory tests
- Saves time: fewer follow-up visits required
- Enhances compliance through teachable moments between health care providers and patients

Cholestech LDX™ System
ABBOTT

Complete Lipid Profile, Glucose

Lab-accurate lipid profile and glucose results in about 5 minutes from a simple fingerstick. Allows provider to get results while patient is still in office—provider can counsel and intervene face-to-face. This improves patient compliance and increases control and management of heart disease and diabetes. Reimbursable by Medicare and most private payers.

#10-959, Analyzer
(738-2917)... ea
Contains: 1 of each: analyzer, printer, power supply, starter pack, optics check cassette, printer cable, user's manual, procedure manual & training video. Starter pack contains 200 lancets, 200 capillary tubes, 200 capillary plungers, 1 MiniPet® Pipette, 50 pipette tips, 1 accessory tray & 1 fingerstick tip pad.

Meet the Quadruple Aim in Diabetes Care with In-office HbA1c and uACR

Better outcomes. Lower costs. Better patient experience. Better clinician experience.
Diabetes management solutions at the point-of-care

Gain insights into your patient's current status with real-time actionable results.

DCA Vantage® Analyzer

Rapid assessment of glycemic control and kidney health

HbA1c
• CLIA-waived

Albumin-to-creatinine ratio (ACR)
• CLIA Moderate Complexity

CLINITEK Status® Connect System

CLIA-waived analyzer for routine urinalysis, including kidney health
• CLINITEK® Microalbumin 2 Strip (ACR)

The Prevalence of Diabetes Among U.S. Adults is on the Rise[1]
Help your patients reverse the trend

Customize your patient consultations to enhance physician-patient partnership toward improved outcomes.

Total U.S. Population with Diabetes

54% Increase

Year	Population	Percentage
2015	35,644,000	11.1%
2020	43,271,000	13.0%
2030 Projected	54,913,000	15.3%

A1CNow® + Test

From a Name You Can Trust.

The handheld monitor provides accurate,
in-office A1C results, enabling physicans to
make on-the-spot treatament decisions for
diabetes patients.

Features:
- In-office testing: no waiting for lab results
- Results in just 5 minutes
- Hands-on procedure time is less than 1 minute
- Simple, 3-step procedure
- CLIA waived
- No calibration, no daily controls, and no
  maintenance
- No refrigeration necessary if used
  within 3 months
- No capital equipment required
- Enables A1C testing in every exam room
