GET PATIENTS BACK ON THEIR FEET FASTER!

As a trusted name in the medical industry, we are committed to offering a diverse selection of high-quality solutions tailored to the specific needs of orthopedic specialists. From supportive braces and mobility aids to surgical instruments and wound care, our product range is curated to meet the evolving demands of your practice.

We partner with top manufacturers to source products that guarantee superior quality and reliability, empowering you to provide optimal outcomes for your patients.

At Henry Schein, your satisfaction and trust are our highest priorities. Our dedicated team of experts is readily available to guide you in selecting the ideal solutions for your practice. Whether you need assistance in navigating our catalog or require personalized recommendations, we are here to provide the support you need. Our streamlined online platform ensures a hassle-free ordering process, and we pride ourselves on prompt delivery to your preferred location.

We invite you to explore our exceptional orthopedic offerings or contact your local representatives for further assistance. Thank you for choosing Henry Schein as your go-to provider of orthopedic supplies. We are excited to continue supporting your practice with our outstanding products and services.

Performance® Padded Fiberglass Pre-Cut Splint

CNF Medical offers a complete line of quality fiberglass splints made in the USA. The company is a pioneer in this technology and is cost-competitive. All splints are made with a stretchable hydrophobic polypropylene felt covering with a 7-layer substrate on both sides for patient protection, preventing wrong-side application. Setup time is 3 to 4 minutes and weight bearing is approximately 20 minutes. CNF offers complete education and training support.

Aircast® AirSelect™ Elite Walking Boot

Advanced walking boot, engineered to provide the ultimate in protection, comfort, and edema control. Has a durable, semirigid shell that helps support the limb while providing full-shell protection. Overlapping Duplex™ air cells line the shell, providing intermittent pneumatic compression for faster edema reduction. The front panel is pre-inflated, and combined with the overlapping air cells, provides a "total contact" fit. SoftStrike technology absorbs and dissipates shock, while the lightweight and lab-tested rocker sole combine to encourage a natural gait and a continuation of everyday activities. Main indications:
• Stable fracture of foot, ankle, or lower leg
• Severe ankle sprain
• Postoperative immobilization
• Reduction of edema (swelling) 3 times faster

3M Medical Securement Solutions

Drive efficiency in your clinical practice and reduce tape SKUs.

A choice that's critical to care. At Solventum, formerly 3M Health Care, we've made it easy to choose the right securement for each patient and application, with four classes of securement that can work harder and smarter.

Non-adhesive

3M™ Coban™ NL Non-Latex Self-Adherent Wrap†
Non-adhesive securement for clinical applications such as blood draws, dressings, immobilization, securement for difficult to dress areas (head, fingers, toes) and support, and mild compression for soft tissue injuries (i.e. strains, sprains).*

Multi-purpose

3M™ Micropore™ S Surgical Tape†
Multi-purpose securement for clinical applications such as blood draws, light-weight dressings, IV lines and tubing (secondary securement), and non-critical tubes.

Flexible

3M™ Medipore™ H Soft Cloth Surgical Tape
Flexible securement for clinical application such as dressing and added pressure, IV lines and tubing (secondary securement), when swelling or movement is anticipated, central venous catheters (secondary securement), chest tubes, and surgical drain tubes.

High-adhesion

3M™ Durapore™ Surgical Tape
High-strength securement for clinical applications such as urinary catheters, nasogastric tubes, orogastric tubes, and patient positioning.

Contact your Henry Schein representative or visit 3M.com/MedicalSecurement to learn more.

†Skin performance: Designates products that deliver the securement power you need while minimizing damage to skin.
*May use as a component in a compression wrap system support only under supervision of a wound care specialist.

PRACTICE GREEN™

HENRY SCHEIN®

Together, we can build a healthier world for all.

Practice Green is designed to empower the health care community to positively impact the future of the planet by reducing the ecological footprint and promoting sustainability—both in daily life and while at work.

A product included in the Practice Green portfolio has been carefully selected by Henry Schein as "green" based on the product information provided by the supplier partner that it is either reusable, contains recycled materials, can be recycled, is biodegradable, or is from a sustainable source.

Ritter® 225 Barrier-Free® Examination Chair

The number of elderly and obese in the U.S. is steadily growing, and over one fifth of adults in America are disabled. Assisting patients with mobility limitations onto exam chairs has become a frequently performed task. Although caregivers working in health-care facilities are in one of the most at-risk professions for musculoskeletal disorders, little has been done to evaluate and reduce risk. The Ritter 225 is designed to offer low and high positioning heights so you can provide the best care to all patients, whether treating the elderly, expectant mothers, or patients with disabilities.

626 Barrier-Free® Examination Chair

Many health care providers are not aware of current standards for proper blood-pressure measurement. If this isn't addressed, it leaves health systems at serious risk. 9.8% of the population is affected by overestimation of high blood-pressure errors. Multiply the cost of treatment for hypertension by the typical patient panel size and the cost of overtreatment could be as much as $135,000 per each practicing physician. The impact of overmedication can also result in complications such as dizziness, fainting, exhaustion, or even patient falls. The Midmark 626 is the first exam chair of its kind designed to promote proper patient positioning for a more accurate blood-pressure measurement.
• Easily position patients for a better BP measurement
• Powered movement of the back section ensures the patient's back is supported
• A Barrier-Free® low chair-height allows the majority of patients, even female patients with heights in the 3rd percentile, to place their feet flat on the floor

DuraShock™ Integrated Aneroid Sphygmomanometers

- Revolutionary gauge-and-cuff design allows for an extremely low profile and more convenient readings, handling, and storage
- About half the weight of a traditional sphygmomanometer; it will not weigh down your lab coat
- Only gauge that snaps directly on to the cuff for fast, easy cuff changes
- Gauge rotates 360° for easy viewing
- First and only cuff designed for accurate application to brachial artery of either arm for more convenient measurements
- One-piece cuff eliminates the need to remove or replace bladders and is more durable than traditional cuffs
- Non-latex cuff is easy to clean, disinfect, and sterilize
- Premium Tycos valve ensures long life and smooth, even deflation
- Large, premium inflation bulb (on Adult and Large Adult sizes) reduces number of pumps required to inflate cuff

Connex® Spot Monitor

Features an easy-to-use, vivid touch-screen display and provides accurate vital signs measurement, including blood-pressure averaging, spot checking, interval monitoring and custom scoring across patient populations. Device connects wirelessly to an EMR and accurately sends vitals to the patient chart from the point of care to help improve efficiency.
- Designed for the physician-office environment with an easy-to-use, vivid touch-screen display
- More accurate hypertension diagnosis without slowing down your workflow thanks to automated blood-pressure averaging
- Improved capabilities for assessing respiratory conditions such as COPD, asthma, and community-acquired pneumonia (CAP), thanks to integrated professional-grade pulse oximetry
- Increase staff efficiency and eliminate data-entry errors with wireless transfer of vital signs directly into an EMR

Baxter

Welch Allyn Spot™ Vision Screener

A handheld, portable device designed to help users quickly and easily detect vision issues on patients from 6 months of age through adult. Spot screens both eyes at once from a nonthreatening 3-ft distance. The touch-screen display allows for one-touch activation, simple management of patient data entry, and easy configuration for both vision screening and autorefraction applications.

Features:
- Supports AAP screening guidelines for early detection of amblyopic risk factors
- Automated screening provides thorough, objective, and easy-to-understand results
- Easy to use, easy to implement, with minimal user training required
- Adequately powered for mass screening events
- Captures readings 97% of the time, helping to screen otherwise difficult patients
- Wireless printing and WiFi-enabled for easy export of data
- Manual exports available via USB port
- Uses lights and sounds to help engage children
- Convenient carrying case

Welch Allyn
Green Series™ 300
General Exam Lights

Utilizing a single white LED, the GS 300 provides a whiter, brighter light than halogen and consumes less energy. It's the perfect combination of intense light output and cool operation in a compact design. Features touchless on/off, multiple mounting options for floor space maximization, low cost of ownership due to elimination of bulb replacement and lower energy consumption, and 5-year limited warranty to include the LED light source and power supply.

Baxter
Welch Allyn
Green Series™ 600
Minor-Procedure Lights

Featuring 3 LEDs and a wider head, the GS 600 is designed specifically for demanding viewing conditions. Whiter, brighter, and greener: 3 white LEDs offer greater intensity. Other features include touchless power controls and an adjustable light output. It also has a disposable sheath available to help reduce the risk of infection due to cross contamination. Rugged, ergonomic design allows for improved performance and long-lasting durability. Low cost of ownership due to elimination of bulb replacement and lower energy consumption. 5-year limited warranty to include the LED light source and power supply only.

MI 750 LED
Exam Light

Provides physicians with an economical and energy-efficient LED light for exam and procedure rooms. Produces bright, white light for clear and accurate visibility. Designed with unmatched lifetime spring-arm technology, 50,000-hour LEDs, and output rated at 75,000 lux with a Kelvin color temperature of 4,300°K, this light offers a high-quality lighting system that easily aligns with any practice's budget. To maintain the sterile field when necessary, the on/off and dimming switches are located on the autoclavable handle. Unit is backed by a 3-year manufacturer warranty.

aspen surgical®
MI 1000 Ceiling
Surgical Light, Dual

The first in the cutting-edge MI LED Series offered by Bovie. Light emits very low heat with an output rating of 100,000 lux (10,000 foot candles) at 4,300°K color temperature. Engineered with green technology, it uses significantly less electricity than standard halogen lights. Long-life LEDs are rated at 50,000 hours, virtually eliminating the need for inconvenient bulb changes. Five intensity outputs are available and are controlled using the 5-stage dimming and on/off switch located on the sterilizable handle. 100 volts.

ChloraPrep™ Patient Preoperative Skin Preparation with Sterile Solution™

- Sterile solution: Patented sterilization process of the antiseptic solution achieves a minimum sterility assurance level (SAL) of 10-6
- Sterile delivery: The sterile, single-use applicator facilitates aseptic touchless technique by moving the clinician's hand away from the patient's skin, helping to reduce the risk of extrinsic contamination
- Proven efficacy: The FDA-approved dual antiseptic of 2% chlorhexidine gluconate (CHG) + 70% isopropyl alcohol (IPA) kills bacteria more effectively than single agents, providing both immediate and persistent activity
- Preoperative indication: The only CHG and IPA skin antiseptic to offer 2-log reduction for dry sites, and 3-log reduction for wet sites, on its entire portfolio

HENRY SCHEIN®
MAXICIDE® 3% Glutaraldehyde

This advanced 3% glutaraldehyde high-level disinfection solution is twice as fast as leading competitors, taking only 25 minutes to process. It provides effective sterilization in 10 hours and can be reused for up to 28 days. The moderate pH is compatible with heat-sensitive medical devices and contains a rust inhibitor to prevent corrosion. Once the powdered activator is added, the solution turns blue and has a mild lemon scent. Makes 1 gallon with powdered activator bottle.

1-gal Bottle
(570-3274).. ea

HENRY SCHEIN®
MAXICIDE® OPA 28 High-Level Disinfectant

• A safer, less toxic alternative to glutaraldehyde for high-level disinfection (HLD)
• Provides a superior way to reprocess heat-sensitive, semicritical medical devices that are unsuitable for sterilization
• 10-minute manual disinfection time
• Easy to use
• No activation required
• Less likely to irritate the eyes, nose, and throat

MAXICIDE® Activated

Preactivated 2.65% Glutaraldehyde Solution
• Can be used as a sterilant and high-level disinfectant for up to 30 days
• Tuberculocidal in 45 minutes
• Ready to use
• Fresh, pleasant scent

1-gal Bottle
(104-4681)..ea

HENRY SCHEIN®
MAXIZYME® Multi Enzymatic Detergent

Improved multienzymatic detergent that cleans fast in manual, ultrasonic, and automatic cleaning systems. Low-foaming formula rapidly dissolves and carries away organic soils, including blood, protein, tissue, and more. Its corrosion-inhibiting, pH-neutral formula is safe for instruments and equipment, extending the useful life of instruments. Concentrated and economical, each 1-gallon bottle yields 128 gallons of solution. Clean, fresh scent.

(570-3275)..Gal.

HENRY SCHEIN®
MAXIZYME® Tabs

• Contain protease enzymes that break down hard-to-clean deposits such as blood, bone, and food particles that chemical detergents leave behind
• A single cleaner with 2 uses: ultrasonic and evacuation systems
• Gentle on instruments: nontoxic, neutral pH, biodegradable, and noncorrosive formula that contains no chlorine or harsh alkalines to damage expensive stainless steel instruments
• Refreshing minty scent
• Easy to store

(900-0475).. 64/box

HENRY SCHEIN®
Ultrasonic Cleaning Solutions

Safe for use on all surfaces. Offers superior cleaning power.

General Purpose Cleaner
• Nonammoniated concentrate
• Dilute 1:10 for use
• Effectively cleans items such as dried blood, bone, tissue, oxide compounds, and more
• Removes ions from instrument's surface to enhance effectiveness of ultrasonic cleaning unit

1-gal Bottle
(100-3836)..ea

HENRY SCHEIN®
ULTRA CLEAN®

• General-purpose, nonammoniated ultrasonic cleaner
• Removes dried blood, tissue, soil, plaster, stone, pumice, and other light contaminants
• Nonflammable and nonfoaming. Supplied as powder in container
• Concentrated solution: dilute 1 part to 9 parts of water

1-gal Bottle
(102-2255)..ea

HENRY SCHEIN®
Super Concentrated Ultrasonic Cleaning Solutions

Fast-acting solutions clean quickly and effectively. Nontoxic and noncorrosive. In small, easy-to-store, 16-oz bottles, which are less expensive to ship, handle, and stock. Metered-dose dispenser top ensures exact dose. To use: loosen cap ½ turn, squeeze to 1-oz mark, and remove cap and pour into glass beaker. Available in 3 formulas.

16-oz Metered Dose Bottles.......................................ea
Specify:
General Purpose Cleaner
(Makes 16 gal) Used for very fast cleaning of blood, mucus, and tissue. **(101-4412)**
Tartar and Stain Remover (Makes 96 oz) Its citric acid formula is noncorrosive and cleans quickly. **(101-0827)**
Enzymatic Cleaning Solution (Makes 16 gal) Effective against blood, tissue, and mucus found on instruments. **(102-6472)**

HENRY SCHEIN®
Unit Dose Ultrasonic General Purpose Cleaner

Single-dose, superconcentrated powder for use in ultrasonic cleaning units, auxiliary pans, and beakers. Eliminates lifting and storing heavy gallon containers.

General Purpose Cleaner
For cleaning instruments directly in the ultrasonic cleaning tank. One packet of powder makes 1 gallon of solution.
(101-0377)..24/box
Tartar & Light Stain Remover–Packets
For removing tartar and light stains from dentures, partials, and bridges. Dissolve 1 packet of powder into a beaker of 400 mL warm tap water. Place beaker in ultrasonic cleaner.
(101-6767).. 24/box

HENRY SCHEIN®
MAXITABS®

General Purpose Cleaner
Provide safe and effective cleaning properties in multiple cleaning cycles throughout the day. Does not leave a residue on instruments or inside tank. One tablet makes 1 gallon of solution; 1 box makes 32 gallons.
(900-4088)...32/box

HENRY SCHEIN®
Dri-Gard Bulk CSR Wraps

Made of SMS (spunbond, meltblown, spunbond), which combines strength and softness for greater dependability.
• All-purpose sterilization overwraps
• Single-ply sterilization wrap has uniform bonding pattern: softer on hands, is adhesive friendly, and promotes better air permeability
• Treated with an antistatic agent: reduces risk of static shock and operating room fires
• Single sheets: can be wrapped sequentially or nonsequentially

MaxiTest®

Mail-in Service

Mail-in service includes 3 bacterial spore test strips (2 test strips and 1 control strip) per test package. Postage is prepaid and culturing service is included. Monitors all sterilizers including steam, chemical vapor, dry heat, and EtO. Third-party documentation serves as tangible, legal document where proof of sterility testing must be provided. Immediate and confidential notification of test failures. Test results available electronically.

12-Test Package
(101-5830)...ea

Contains: 12 packets, each containing 2 test strips & 1 control strip.

Not for export.

- Easy to use: place MaxiTest strips within an average load; process according to normal procedure; when cycle is complete, remove load from sterilizer and remove test strips; forward to bacteriological laboratory for culturing
- Suitable for use with all sterilizers: dual-organism spore strips contain both *Bacillus stearothermophilus* and *Bacillus subtilis* so they can be used to monitor all sterilizers, including unsaturated chemical vapor
- 2 test strips and 1 control strip: provide increased safety to patients and staff; 2 test strips placed in separate areas of the sterilizer provide greater accuracy of test results
- Biological Sterilization Monitoring Service: MaxiTest includes test sets, culturing service, laboratory reports, all postage and handling, and any device concerning sterilization procedures; the lab cultures are completed in 7 days; however, if any test strip cultures positive (spore growth indicating sterilization failure), the office will be telephoned immediately; if the test strips do not culture positive, the office will receive a laboratory report in approximately 2 weeks, indicating sterilization was achieved

HENRY SCHEIN®

MaxiTest® In-Office Biological Monitoring System

In-office system for monitoring steam sterilizers. Easy to use and interpret. Results in 24–48 hours. Simply process vial in a normal sterilizer cycle, then activate vial, incubate, and record results. If any spores survive process, vial medium will turn yellow. Incubator is 24 volts and holds up to 14 indicators. Indicators are also compatible with 3M™ Attest™ incubator.

• In-office system for monitoring steam sterilizers
• Easy to use and interpret
• Results in 24–48 hours
• Simply process vial in a normal sterilizer cycle, then activate vial, incubate, and record results
• If any spores survive the process, the vial medium will turn yellow
• MaxiTest Incubator is 24 volts and holds up to 14 indicators

HENRY SCHEIN®
Wound Closure Strips

- Adhesive wound closures with an exceptionally porous, spun-bond fiber backing include bilateral nylon filaments for high tensile strength
- To be used in addition to or in place of sutures
- Each size is in a color-coded package for quick and easy size identification
- Medical-grade adhesive properties: Affords excellent adhesion, resistance to moisture, superior longevity, and is gentle to the skin
- Hypoallergenic: Designed for patient comfort and longer-term exposure
- Not made with natural rubber latex

HENRY SCHEIN®
Disposable Skin Stapler

- Enables the user to work with higher efficiency and assists in avoiding cross infection effectively
- Specially designed for surgical skin suturing
- Novel structure and application security allow for quick speed when sewing up during operation, modest histological reaction, and good wound-matching and healing
- No pain during removal
- Scarring is minimal

HENRY SCHEIN®
Topical Skin Adhesive-Octyl

This unique formulation will not solidify in ampule, allowing all 0.5 mL to be used. The ergonomic ampule is designed for ease of handling and targeted application. Sterile, single-patient use. Made with 2-octyl cyanoacrylate, this formulation provides:
- Rapid set time
- High tensile strength
- Flexibility without a plasticizer
- An effective microbial barrier

HENRY SCHEIN®
Topical Skin Adhesive-Butyl

Sterile, 0.5-mL Single-Patient-Use Plastic Ampules
The proven choice of wound closure with over 40 years of clinical experience, this FDA-approved liquid adhesive consists of n-butyl-2 cyanoacrylate.
- Highest bond strength of all topical tissue adhesives on the market
- Will not clog or dry out when opened
- Provides a precise, controlled application
- Inhibits growth of bacteria
- Available in dyed and clear versions
- Flexible version provides more flexible coverage for longer incisions

Surgical Sutures
From A Name You Can Trust.

Maxima® Sutures by Henry Schein®

## RACETRACK FEATURES AND BENEFITS

POLYLITH CARD
Helps reduce moisture content, an advantage with absorbable suture materials that degrade by hydrolysis.

NEEDLE PARK
Two needle parks to accommodate a wide range of needle types, sizes, and double-arm sutures. Needle park also protects needles from damage.

LARGER DIAMETER
Larger overall diameter to ensure less suture memory and minimize the number of suture rotations around track.

PRESS-PUSH NEEDLE LIFT
The tab, when pressed from behind, lifts for easy needle removal.

- Silicone-coated 300 series stainless needles give finer point geometry for superior penetration
- Precision needles are strong enough to resist bending, yet ductile enough to resist breaking
- Racetrack packaging helps reduce material memory as the suture is released from the track
- Large breadth of suture and needle combination for a range of surgeries
- Significant cost savings for your clinic compared to the leading brand

ABS ▌ American BioTech Supply

General-Purpose Freestanding Undercounter Refrigerator

Intended for general-purpose applications only where precise temperature control and maintenance are not essential and there are no requirements for temperature alarms.

- Swing door with keyed door lock
- 3 shelves (1 fixed/2 adjustable)
- Interior light
- HFC-free refrigerant (R600A), foam insulation, and packaging
- UL/C-UL listed
- Temperature range: 0°C to 10°C
- Capacity: 5 cu ft
- Exterior dimensions: 20¼"W x 22" D x 31½"H
- 1-year parts and labor warranty

#ABT-HC-UCFS-0504W

(125-4697)..ea

This unit must have 4" clearance on sides and back for adequate ventilation.

ABS ▌ American BioTech Supply

Premier Pharmacy/Vaccine Freestanding Undercounter Refrigerator

Features a microprocessor temperature controller and display, allowing for precise temperature control, verification, and recovery versus mechanical-style thermostats.

- Glass swing door with keyed lock
- 3 adjustable shelves with guard rail on back to prevent product from being pushed against the back wall
- Bottom-footed shelf to allow air circulation
- Back wall evaporator cover
- Forced draft circulation
- Warranty: 2-years on parts and labor; 3 years on compressor parts only
- UL/C & UL listed
- Energy Star certified
- Digital temperature display
- Alarms: audible and visual high/low
- 2 probes: 1 in air and 1 in sample bottle
- Capacity: 5.2 cubic ft
- Temperature range: 36°F to 46°F (2°C to 8°C)
- Exterior dimensions: 32⅛" H x 23¾" W x 24" D

#PH-ABT-HC-UCFS-0504G

(125-4635)..ea

PHCbi
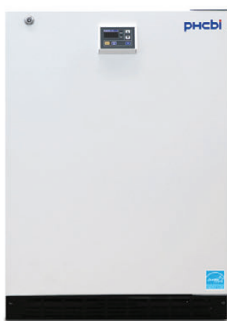

High-Performance Undercounter Medical Freezer

Designed to maintain temperatures between 5°F and -13°F (-15°C and -25°C) with a tight uniformity of ±5°C for storing critical vaccines and biologics, this model is engineered to meet CDC guidelines in a small footprint. Precise temperature control and uniformity protect vaccine and biologic viability whether the unit is loaded or empty.

- Capacity: 5 cubic ft
- 3 coated steel wire shelves: 19.2" x 14.75"
- Temperature control range: 5°F to -13°F (-15°C to -25°C) in 0.1°C increments
- Alarms: high/low temperature
- Refrigerant: 6-600a
- Door swing: right hinge
- Exterior dimensions: 34.1"H x 23.8"W x 23.7"D
- Interior dimensions: 25.6"H x 19.9"W x 17.1"D

#PF-L5181W-PA

PHCbi

Pharmaceutical Refrigerator/ Freezer Combo

Designed specifically for the storage of vaccines and other pharmaceuticals, this purpose-built refrigerator/freezer combo is designed for temperature uniformity and stability that is not commonly found with household or commercial cabinets. Separate refrigerator and freezer compartments provide a wider range of temperature storage points to accommodate a variety of vaccine product cold-chain requirements.

- Shelves: Refrigerator: 3 adjustable tempered glass; Freezer: 2 PE coated wire
- Refrigerant: Refrigerator: SNAP approved HC R-600A; Freezer: HC R-290
- Temperature control: Refrigerator: 36°F to 57°F (2°C to 14°C); Freezer: -31°F to 5°F (-35°C to -15°C)
- Alarms: High/low temperature
- Refrigerator 11.5 cu ft (326 L); Freezer 4.8 cu ft (136 L)

PHCbi
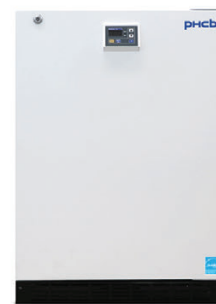

Small Medical Refrigerator

This laboratory undercounter refrigerator combines high-performance temperature control with environmentally friendly refrigerants and energy efficiency. Precision temperature control and uniformity prevent the interior from cooling below freezing and risking vaccine and biologic viability, whether the unit is loaded or empty. Engineered to meet the strict regulatory guidelines of the CDC, ANSI, and NSF.

- Exterior dimensions: 34.1"H x 23.5"W x 23.7"D
- Interior dimensions: 25.6"H x 19.9"W x 17.1"D
- Capacity: 5 cubic ft
- Refrigerant: R-600a
- 36° to 46°F (2°C to 8°C)
- High/low temperature alarm

VANISHPOINT

VanishPoint® Syringes

These syringes utilize a patented friction ring mechanism that permits automated retraction of the needle once the plunger is fully depressed. The mechanism is passive, requiring no additional steps. The safety feature is an integral part of the device's design. VanishPoint syringes allow for single-handed activation. They contain no natural rubber latex and are designed to be nonreusable.

Doing Well by Doing Good

Heart Health — HENRY SCHEIN®

We partner with the American Heart Association to encourage the recognition of oral health's connection to overall health and offer an array of products focused on dentistry and cardiovascular health through the Heart Health program.

PRACTICE GREEN — HENRY SCHEIN®

The Global Reflections program has evolved into Practice Green, a new, comprehensive initiative that is designed to provide Henry Schein customers with products, solutions, and services, to help create greener practices and enhance environmental sustainability efforts.

COMMUNITY CARES — Focus on Prevention & Wellness — HENRY SCHEIN®

We support health care professionals working to improve the health of vulnerable populations, such as people with disabilities and at-risk children, and through community-based health and wellness initiatives, including the Global Student Outreach Program and the American Dental Association's Give Kids A Smile program.

PRACTICE PINK — HENRY SCHEIN®

Henry Schein is committed to promoting early cancer detection, improving access to care, and supporting research and prevention efforts, as well as helping dental and medical health care professionals raise awareness. We also support the American Cancer Society Hope Lodge facilities by donating Welcome Kits for both the residents receiving cancer treatment, as well as their loved ones.

Thank you for helping us raise more than $3 million to help health happen!

Visit **www.HenrySchein.com/HSCares** to find out more about the Calendar of Caring Programs.
