Henry Schein, RPh circa 1932

OVER 90 YEARS OF TRADITION...1932-2024

In 1932, **Henry Schein** opened his neighborhood pharmacy in Queens, New York. **Pharmaceuticals** have been an important part of our business ever since.

We have the experience to assist practitioners with products and solutions that aid in the prevention, diagnosis, and treatment of disease.

COMPETITIVE PRICING

We have access to thousands of pharmaceutical contracts, including national GPO programs, which enhances our volume-purchasing capabilities. Henry Schein is also the only national distributor that participates in the 340B program with both Medical and Dental product offerings.

CONTROLLED SUBSTANCES

We offer e222, an online program for physicians to order their Class II drugs, eliminating paper 222 drug-ordering forms.

Rx SAMPLES PROGRAM

The Henry Schein Rx Samples Service is a free and secure online service that enables eligible prescribers to order medication samples — easily and conveniently. Check your eligibility at www.hsrxss.com

DxRx SOLUTIONS

Access for Henry Schein customers to staffed email box for providing answers to questions on pharmaceuticals and vaccines, such as product shortages, CPT and J Codes,* package inserts, and SDS sheets.

PRODUCT SELECTION

As an Approved Distributor of Record (ADR), Henry Schein has access to over 300 vaccine and pharmaceutical manufacturing partners. Sourcing products with many manufacturers ensures product availability and selection with a portfolio consisting of 7,500+ brand and generic pharmaceuticals plus OTC products.

PRODUCT INTEGRITY

Henry Schein operates in full compliance with the federal Drug Supply Chain Security Act (DSCSA). All of our six distribution centers are certified by the National Association of Boards of Pharmacy.
